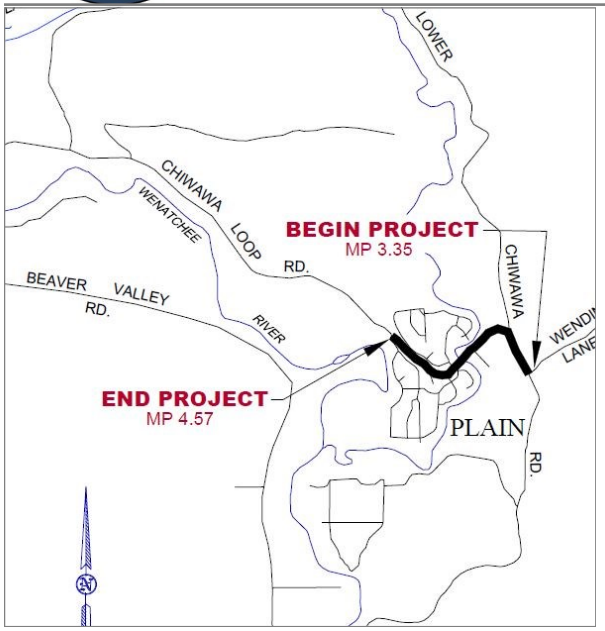
CRP 675: Chiwawa Loop Road, Phase III

Chiwawa Loop Road (MP 3.13 to MP 4.57)

Last Updated: December 8, 2016



Project Vicinity Map

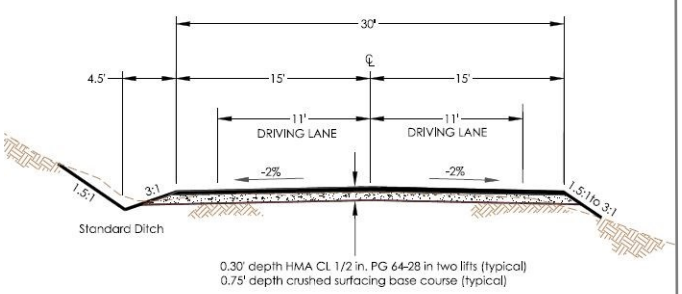
Project Number: County Road Project 675 | **Project Length: 1.44 miles**

Basis for Project: Roadway Preservation | **Construction: Summer 2017**

Project Description: The primary purpose of this project is to reconstruct 1.44 miles along Chiwawa Loop Road (93300) from Wending Lane to Sumac Lane. The project will address a deteriorating pavement and roadway base by upgrading the structural integrity, which can be maintained at a low life cycle cost. In addition to a new roadway base and surfacing, this project will also widen the road from 22 feet to 30 feet, examine the need for drainage, replacement/addition of guardrail, construct fish passable drainage structure, improve roadway geometrics, and make improvements to the roadside and clear zone.

Status: Design is near complete. Right-of-way and temporary easement acquisition is underway.

Traffic Impacts: Travelers on Chiwawa Loop Road can expect to encounter one-lane flagger or pilot car controlled traffic through work zones with delays up to 20 minutes during construction Summer 2017.



PROPOSED

Typical Section

Funding Sources:	
Rural Arterial Program	$2,738,700
Western Federal Lands	$496,300
County Road Fund	$100,000
TOTAL:	**$3,335,000**
