

***Pre-application Meeting Request Form***

***Per Chelan County Code 14***

Chelan County Department of Community Development  
316 Washington St, Suite 301 • Wenatchee • WA 98801  
509-667-6225 • Fax 509-667-6475

**Purpose:**

A Pre-Application Meeting is mandatory for all major subdivisions; short plats are optional at the discretion of the applicant. The purpose of the Pre-Application Meeting varies from assisting in preparation of the application (i.e. identification of any additional regulatory process) to providing opportunity to "test" development options before investing in creation of detailed plans and engineering.

**Scheduling Process:**

To schedule a land use pre-application meeting, complete and return the following components:

1. Complete the Land Use Pre-Application Meeting Request Form that identifies:
  - a. Applicant's name, address and telephone number
  - b. Project description and type of application(s) requested
  - c. Address of project and parcel number(s)
  - d. Issues for discussion at the meeting
  - e. Identification of participants from the applicant's team
2. Provide two (2) sets of a **Project Narrative** and **Conceptual Site Plan** as outlined in the following, or an electronic copy if available. Additionally, submit any other information that may assist in identifying critical areas of concern such as a completed environmental checklist, technical reports and any other related project documentation that may assist the Chelan County staff and referral agencies in conducting a thorough review of the proposal.

**Fees:** The fee for the Pre-Application shall be submitted to the Department of Community Development PRIOR to scheduling meetings, pursuant to Section 12.04.010, Chelan County Code. Please call Sherry Meadows, (509) 667-6518 at the Department for the fees. **In addition, Chelan-Douglas Health District has separate fees for pre-application research. Please contact CDHD at (509) 886-6450 for those fees.**

\*Pre-Application Meeting requests may be filed in-person, mailed, or e-mailed, provided the request is complete and all the required submittal materials are received, at:

Chelan County Community Development Department  
Attention: Land Use Pre-Application Center  
316 Washington Street, Suite #301  
Wenatchee, Washington 98801

Upon receipt of a complete request (as outlined above), a Pre-Application Meeting will be scheduled no sooner than **fifteen (15) business days** and on the first available Thursday. The applicant will be contacted regarding the date and time for the meeting. Meetings will be held at the Chelan County Community Development Department.

**LAND USE PRE-APPLICATION MEETING REQUEST FORM**

Date: \_\_\_\_\_

Applicant Name/Company: \_\_\_\_\_

E-mail Address (if applicable): \_\_\_\_\_

Address: \_\_\_\_\_

Phone/Fax: \_\_\_\_\_

Project Description: \_\_\_\_\_

Type of Sewage Disposal: \_\_\_\_\_

Domestic Water Supply: \_\_\_\_\_

Parcel Number(s): \_\_\_\_\_

Project Address or Location: \_\_\_\_\_

Check the box(es) and circle the specific issues you wish to discuss:

- Land Use Issues: Subdivision / CUP/ Reasonable Use / Variance /
- Site Issues: Zoning / Setbacks / Density / Site Layout / Landscaping
- Site Issues: Traffic / Road Access / Road Improvements /Traffic Impact Study
- Site Issues: Drainage / Site Development / Erosion and Sedimentation Control
- Shoreline: Substantial Development Permit/Permitted Uses/Shoreline Setbacks
- SEPA Issues: SEPA Checklist / Off-Site Improvements / Mitigation
- Wetland/Streams: Buffers / Building Setbacks / Flood Plains / Mitigation
- Geotechnical: Steep Slopes / Landslide / Seismic / Mining / Erosion
- Building Issues: Building / Mechanical / Plumbing / Electrical
- Fire Issues: IFC / Fire flow / Access / Sprinklers / Alarms / Hazardous Materials
- Health Issues: Sewer / Septic / Water / Groundwater / Noise Impacts
  - I choose to opt out of the Chelan-Douglas Health District review, comments, and applicable fees.
  - \* Please note: Applicant is still required to comply with Health District regulations as required by law and may be required per RCW 272.
- Infrastructure: Electrical / Reclamation District
- Other (specify): \_\_\_\_\_

**\* Chelan-Douglas Health District 2010 Fees are currently \$56.00 and subject to change by the Board of Health.**

Please mark the types of participants and indicate the total number attending:

## **PROJECT NARRATIVE AND CONCEPTUAL SITE PLAN FOR PRE-APPLICATION MEETINGS**

The following items must be submitted with the Land Use Pre-Application Meeting Request:

### **1) Project Narrative:**

- a. Major Subdivision Plats:** Include proposed lot yield targets; housing type objectives (town homes, patio homes, duplexes, zero-lot line, etc.); a description of the architectural theme; community amenities with identification of potential users; description regarding the relationship of proposed open space areas to proposed parcels and buildings and their connectivity to adjacent existing and proposed open space areas or multi-modal facilities; and proposed treatment for washes, retention areas and/or utility corridors. Identify any important natural features and list of all service providers such as irrigation districts, water provider, sewer providers, etc. Identify key issues or specify questions about the proposed project; Describe surrounding land uses, school district and nearest school(s), park(s) and other recreational facilities and their proximity to the proposed site; Airport or other noise boundaries; Any other information deemed critical for site analysis; Identify key site issues or specify questions regarding site analysis.

**Narrative for rural short plat, urban short plat and other land use applications is only required if applicant chooses a Pre-Application.**

- b. Rural Short Plat:** Include information regarding an overall description of what is being proposed, project size, total acreage and proposed acreage for each lot, existing and proposed land use of all proposed parcels; existing and proposed zoning of all proposed parcels; location of county road access/connection; identification of all roadways providing access to proposed site and their designation as either public or private; identification of any existing structures (i.e. buildings, bridges, drainage structures, etc.); identification of any important natural features and list of all service providers and list of all service providers such as irrigation districts, water provider, sewer providers, etc. Identify key issues or specify questions about the proposed project; Describe surrounding land use, school district and nearest school(s), park(s) and other recreational facilities and their proximity to the proposed site; Airport or other noise boundaries; Any other information deemed critical for site analysis; Identify key site issues or specify questions regarding site analysis.
- c. Urban Short Plat:** (Within Urban Growth Area – UGA) Provide a written description of the project, project location and identification of the Urban Growth Area jurisdiction. Identify total acreage of site and proposed acreage for each lot, existing and proposed land use of all proposed parcels; existing and proposed zoning of all proposed parcels; location of county road access/connection; identification of all roadways providing access to proposed site and their designation as either public or private; identification of any existing structures (i.e. buildings, bridges, drainage structures, etc.); identification of any important natural features and list of all service providers such as irrigation districts, water provider, sewer providers, etc. Identify non-vehicular pathways to existing or proposed open spaces, parks, etc. Identify key issues or specify questions about the proposed project; Describe surrounding land use, school district and nearest school(s), park(s) and other recreational facilities and their proximity to the proposed site; Airport or other noise boundaries; Any other information deemed critical for site analysis; Identify key site issues or specify questions regarding site analysis.

- d. Other Land Use Applications:** Provide a written description of the overall project, project location, general area (i.e. Chelan, Manson, Malaga) and whether the project is within an Urban Growth Area. Include information regarding project size; existing and proposed land use of all proposed parcels; existing and proposed zoning of all parcels; location of county road access/connection; identification of all roadways providing access to proposed site and indicate whether each road is public or private; and list of all service providers such as irrigation districts, water provider, sewer providers, etc. and utility needs to service site. Describe proposed uses and typical locations of any common recreation, pedestrian, service open space areas including plazas, patios, decorative courtyards, and other areas reserved for pedestrian use, water features, and/or public art. Identify key issues or specify questions about the proposed project; Describe surrounding land use, school district and nearest school(s), park(s) and other recreational facilities and their proximity to the proposed site; Airport or other noise boundaries; Any other information deemed critical for site analysis; Identify key site issues or specify questions regarding site analysis.

## 2) Conceptual Site Plan:

On the Conceptual Site Plan, please identify the following items:

- North arrow on each sheet
- Scale
- Existing parcels assembled
- Vicinity Map
- Existing septic systems(s) and/or wells
- Existing and proposed utility infrastructure
- Proposed lot layout
- Proposed lot sizes
- Utility line locations and size
- Identification of and proposed connection to existing county road system
- Proposed internal road circulation plan with road classification and right-of-way dimensions
- General dimensions and locations of rights-of-ways, easements, pedestrian trails, bus stops or other public/private reserved areas
- Existing physical features, including but not limited to soils, drainage, topography, wetlands, streams, flood areas, and rock outcroppings
- Locate adjacent rights-of-way, type of roadway classification(s), public or private designation, bus stop location (school or link)
- Location of all major features such as railroads, drainage canals, shorelines and areas of a critical nature (i.e. floodplains, geologically hazardous areas, aquifer recharge areas, fish and wildlife habitat conservation areas, and wetlands), or other natural features
- Conceptual drainage proposal showing collection, detention and discharge areas
- Proposed drainage and open space tracts
- Existing buildings and structures (including bridges and drainage structures)
- Existing elevation contours of best available information
- Streams known in and within 200' of proposed site
- Wetland known in and within 200' of proposed site
- Flood Hazard Areas
- In or adjacent to designated agriculture, forest or mineral lands
- Any other critical areas
