Subject: IWG Comments

Dear Mr. Kaputa,

As part of the IWG SEPA public comment period, I would like to ask that the City of Leavenworth initiate a water metering program and tiered pricing for residential customers. As part of the stated effort to improve conservation efforts, this one is perhaps the most obvious. Not only do people not know how much water they currently use, but there is no financial incentive for conservation? This should change.

In addition, I completely support improvement of passage conditions at the Icicle Boulder Field, installation of fish screening at the Leavenworth National Fish Hatchery intake, along with their upgrade to circular tanks for fish rearing. The conversion of any delivery systems to irrigators to on-demand pumps with pressurized pipes is also a good one, though their users should also be asked to allow metering in exchange for public financing of their infrastructure. Thank you for consideration of my comments.

Cristina Hill
