## BIDDING CHECKLIST

Bidders must bid on all bid items contained in the Proposal. The omission or deletion of any bid item will be considered non-responsive and shall be cause for rejection of the bid.

Please check to make sure you have accomplished the following:

- Has bid bond or certified check been enclosed with your bid?
- Is the amount of the bid guaranty at least five (5) percent of the total amount of the bid?
- Has the proposal been properly signed?
- Have you bid on ALL ITEMS and ALL SCHEDULES?
- Have you completed the Bidder's Information Sheet?
- Have you included the Non-Collusion Declaration?
- Have you completed the Subcontractors List?
- Have you completed the Certification Regarding Debarment, Suspension, and Other Responsibility Matters Primary Covered Transactions?
- Have you completed the Certification of Compliance with Wage Payment Statutes?
- Have you completed the Certification of Compliance with Prevailing Wage Training?
- Have you completed the form regarding Bonding and Claims?
- Have you certified receipt of addenda?

## BIDDING INSTRUCTIONS

### A. BID OPENING

The Chelan County Board of County Commissioners will open sealed bids and publicly read them aloud on Monday, March 30, 2026, at 11:00 AM PDT or as soon thereafter as the matter may be heard, at the Board of Commissioners Office, Chelan County Administration Building, 400 Douglas Street Suite 201, Wenatchee, Washington, for the implementation of Chelan County Natural Resources Department Cashmere Boat Ramp in Chelan County. Sealed bids must be received by the Clerk of the Board of County Commissioners in a sealed envelope clearly marked “**Bid for Cashmere Boat Ramp**”.

Sealed bids may not be submitted by facsimile or other electronic or data transmission.

### B. BID CONTENTS

The sealed bid must contain all bidding documents, fully completed and signed. Bidders not fully meeting specifications must identify and list exceptions. All exceptions are subject to review, inspection, testing and approval by Chelan County.

The sealed bid must also contain the following information and materials, completed and signed:

1. Bid Proposal (Prices must be shown on every unit item and the total. Quantities, where not listed shall be estimated by the bidder and shown);
2. Bid Proposal Form (Executed by Principal or Authorized Officer.);
3. Bid Declaration;
4. Bid Proposal Bond (in lieu of cashier’s check, or certified check, a Bid Proposal bond must be executed by the Bidder and the Bidder’s Surety.);
5. Bidder Information Sheet;
6. Non-Collusion Declaration;
7. Subcontractors List;
8. Certification Regarding Debarment, Suspension, and Other Responsibility Matters Primary Covered Transactions;
9. Certification of Compliance with Wage Payment Statutes;
10. Certification of Compliance with Prevailing Wage Training; and
11. Bonding and Claims Information.
12. Any required relevant prequalification documentation as outlined in section 1-02.1.

Bid proposal forms are not transferable. Any alteration not initialed by the Bidder will be cause for deeming the bid proposal irregular and rejecting the bid.

In submitting a Bid Proposal, Bidder shall comply with provisions as contained in the Special Provisions, 1-02.6, regarding “Preparation of the Proposal”, unless otherwise required herein.

### C. CLARIFICATION OF BID

NO CHANGES ARE ALLOWED EXCEPT BY SUBMITTING AN AMENDED SEALED BID PROPOSAL PRIOR TO THE DATE AND TIME SET FOR BID OPENING. Any unsealed clarification information received by the Clerk which discloses price will not be considered by the Board of County Commissioners and shall result in rejection of the entire bid.

#### D. BID BOND

In accordance with Section 1-02.7 of the Special Provisions and the WSDOT Standard Specifications, all bid proposals shall be accompanied by a bid bond, certified check, cashier's check, made out to Chelan County in the amount of five percent (5%) of the total bid, conditioned upon the Bidder's full and complete performance of the terms and conditions of a bid award. The bid bond or equivalent shall be held by Chelan County until acceptable performance and payment bonds and certificate of insurance are provided to Chelan County, and the contract is subsequently fully executed. If the successful bidder abandons the bid award, fails to provide satisfactory performance bond and a certificate of insurance to Chelan County or fails to fully execute the contract, then the bid bond or equivalent shall, in the sole discretion of Chelan County, be forfeited and retained.

#### E. BID REVIEW AND EVALUATION

The Board of County Commissioners reserves the right to reject any or all bids, waive informalities, and to contract as the best interests of Chelan County may require. When evaluating bids, the following criteria, in addition to price, will be considered:

1. The bidder's qualifications and eligibility to contract under applicable laws and regulations;
2. The bidder's compliance with the terms and conditions of this request for bids;
3. Any additional evaluation criteria contained in the plans, specifications and addenda; and
4. Not currently be debarred, suspended or under other sanctions pursuant to Executive Order 12549. Disbarment and Suspension 13 CFR Part 145 of the U. S. Small Business Administration. Bidder is required to complete "Certification regarding Debarment, Suspension, and Other Responsibility Matters Primary Covered Transactions"
5. The bidder's experience, technical qualifications and skill;
6. The guaranteed availability of materials needed for construction;
7. The bidder's ability and capacity to fully perform within the time required, taking into account the bidder's existing performance commitments and past performance;
8. Any other information as may have a bearing on the bid.

#### F. CONTRACT DOCUMENTS FOLLOWING AWARD

Each Bidder's attention is especially called to the following documents that must be fully completed, executed and submitted to Chelan County if successful Bidder:

1. Notice of Award - To be executed by the successful Bidder upon receipt of issuance by the Chelan County Board of Commissioners.
2. Agreement - To be executed by the successful Bidder.
3. Payment and Performance Bond - To be executed by the successful Bidder and the Bidder's Surety Company.
4. Certificate of Insurance - To be executed by the successful Bidder's Insurance Company.
5. Notice to Proceed - To be executed by the successful Bidder upon receipt of issuance by the Chelan County Board of Commissioners.

#### G. CANCELLATION BY COUNTY

In its sole discretion, Chelan County may cancel any bid award upon written notification to the successful bidder within 30 (thirty) days after the date of the bid award, without any cost, expense, penalty or damages payable to the successful bidder.

## INVITATION TO BID

---

### Cashmere Boat Ramp

Sealed bids will be received by Chelan County at the Board of County Commissioners Chambers, Chelan County Administration Building, 400 Douglas Street, Wenatchee, Washington until Monday, Monday March 30, 2026, at 11:00 AM PDT for the Chelan County Natural Resources Project, “**Cashmere Boat Ramp**”.

**Chelan County Natural Resources Project: Cashmere Boat Ramp**, Chelan County, WA. This contract provides for the excavation of approximately 950 cubic-yards (cy) of flood deposited streambed material on the Wenatchee River near the River Front Park Boat Ramp in Cashmere, WA. This work includes, but is not limited to installation, maintenance and restoration of temporary construction access as needed to complete the project, protect asphalt and protect the boat ramp; temporary traffic control as needed to safely deliver, handle, and stage equipment and materials; channel excavation, placement and contouring of streambed substrate within the project area as shown on the plans; in-water work area isolation and temporary erosion and sediment control; protection of sensitive areas; revegetation activities as directed by the Contracting Agency; construction surveying required to perform the aforementioned tasks; and all other work, all in accordance with the attached Contract Plans, these Contract Provisions, and the WSDOT Standard Specifications for Road, Bridge and Municipal Construction and addenda thereto.

The targeted completion date for this work is April 30, 2026. However, all in-water work must be completed when in-stream flows are below 3,200 cfs per the project permits. If in-stream flows do not allow for completion of work within the above referenced timeframe, the Contractor will conduct work as soon as conditions allow, with authorization from the Contracting Agency and in compliance with any date requirements listed in the project permits. The estimated range of probable cost is \$30,000-\$37,000 excluding WSST.

An **Optional** Pre-Bid site walk through with representatives from the CONTRACTING AGENCY will be held on March 19, 2026 at 11:00 AM at the project site. The site is located at the Cashmere Riverside Park, 201 Riverside Drive, Cashmere, WA 98815. This project site is located on public property and is open to inspection at any time. A minimum of one representative from each Prime Contractor that intends to submit a bid is encouraged to attend.

A bid bond, certified check, or cashier’s check in the amount of 5% of the bid shall accompany all bids.

The County of Chelan in accordance with Title VI of the Civil Rights Act of 1964, 78 Stat. 252, 42 U.S.C. 2000d to 2000d-4 and Title 49, Code of Federal Regulations, Department of Transportation, subtitle A, Office of the Secretary, Part 21, nondiscrimination in federally assisted programs of the Department of Transportation issued pursuant to such Act, hereby notifies all bidders that it will affirmatively insure that in any contract entered into pursuant to this advertisement, disadvantaged business enterprises will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, gender, color or national origin in consideration for an award.

All bids shall be marked “CASHMERE BOAT RAMP” on the outside of the envelope. The Board of County Commissioners reserves the right to reject any or all bids for cause.

## BID PROPOSAL FORM

### Cashmere Boat Ramp

TO: Board of Chelan County Commissioners, Wenatchee, Washington

The Undersigned certify that they have examined the location of the project and read and thoroughly understand the plans, specifications and contract governing the work embraced in this improvement or as much thereof as can be completed with the money available, in accordance with the said plans, specifications, and contract, and the following schedule of rates and prices:

CASHMERE BOAT RAMP BASE BID: SCHEDULE A						
Item	Spec #	Description	Unit	Quantity	Unit Price	Total Price
1	1-09.7	MOBILIZATION	LS	1		
2	8-05	TEMPORARY ACCESS AND STAGING	L.S	1		
3	8-30	CHANNEL EXCAVATION	CY	950		
4	8-30	PLACEMENT OF EXCAVATED MATERIAL	CY	950		
5	8-05	SITE ISOLATION, EROSION & SEDIMENT CONTROL (FORCE ACCOUNT)	DOL	EST	\$5,000	\$5,000
6	8-30	REVEGETATION (FORCE ACCOUNT)	DOL	EST	\$2,000	\$2,000
<b>Base Bid Schedule A Total</b>						

The aforementioned sum is hereby designated the Total Base Bid. The Total Base Bid shall not include Washington State sales tax. Sales tax will be added to the Total Base Bid prior to Contract execution to determine the Contract Sum and sales tax shall be paid by the CONTRACTING AGENCY with each progress payment.

#### SCHEDULE B – Additive Bid Item

The following additive is an integral part of this proposal, and to be responsive, the bidder shall quote for the Base Bid, and also for the following listed Additive Bid Item. The Undersigned certify that they have examined the location of the project and read and thoroughly understand the plans, specifications and contract governing the work embraced in this improvement or as much thereof as can be completed with the money available, in accordance with the said plans, specifications, and contract, and the following schedule of rates and prices:

CASHMERE BOAT RAMP ADDITIVE BID: SCHEDULE B						
Item	Spec #	Description	Unit	Quantity	Unit Price	Total Price
8	1-05.4	CONTRACTOR SURVEYING	LS	1		
<b>Additive Schedule B Total</b>						

The aforementioned sum is hereby designated the Total Base Bid. The Total Base Bid shall not include Washington State sales tax. Sales tax will be added to the Total Base Bid prior to Contract execution to determine the Contract

Sum and sales tax shall be paid by the CONTRACTING AGENCY with each progress payment.

### BID PROPOSAL DECLARATION

To the Chelan County Board of County Commissioners:

The undersigned Bidder hereby certifies that the Bidder has examined the sites upon which the Work is to be performed and has read and thoroughly understands the plans, specifications, addenda and contract governing the work, the manner by which payment will be made for such work and time in which to attain Substantial Completion for the CASHMERE BOAT RAMP.

The Bidder hereby acknowledges receipt of Addendum No. 1 \_\_, No. 2 \_\_, No. 3 \_\_, No. 4 \_\_, No. 5 \_\_, No. 6 \_\_, No. 7 \_\_, No. 8 \_\_, No. 9 \_\_, and No. 10 \_\_.

The Bidder hereby acknowledges that by execution of this Bid Proposal Form the Bidder has agreed to all bidding requirements, has fully executed all required bidding documents, and has agreed to fully and completely perform all work required under the plans, specifications, addenda and Contract within the time period as specified. The Bidder has agreed to pay prevailing wage rates of Federal or State of Washington which are in effect at the time of the execution of the contract and whichever are the higher, in accordance with the requirements of the special provisions.

The undersigned hereby agrees to the indemnification requirements of Section 1-07.14 of the Special Provisions – Division 1. Submission of this Bid Proposal and entering into a Contract for this Work constitutes acknowledgement by the Contractor that said indemnification requirements are specifically and expressly a part of the Bid process and Contract Negotiations, including Contract waiver of immunity under Industrial Insurance, Title 51 RCW.

A bid proposal security of five percent (5%) of the total bid is attached hereto in the following form and in the amount of \$\_\_\_\_\_.

**BID PROPOSAL BOND**

KNOW ALL PERSONS BY THESE PRESENTS: That we of \_\_\_\_\_ as Principal, and the \_\_\_\_\_ a corporation duly organized under the laws of the State of \_\_\_\_\_, and authorized to do business in the State of Washington, as surety, are held and firmly bound unto the Chelan County Commissioners in the full and penal sum of five (5) percent of the total amount of the Bid Proposal of said Principal for the work hereinafter described, for the payment of which, well and truly to be made, we bind our heirs, executors, administrators and assigns, and successors and assigns, firmly by these presents.

The condition of this bond is such, that whereas the principal herein is herewith submitting his or its sealed proposal for the following construction to wit: **Chelan County Natural Resources Project: Cashmere Boat Ramp**, Chelan County, WA. This contract provides for the excavation of approximately 950 cubic-yards (cy) of flood deposited streambed material on the Wenatchee River near the River Front Park Boat Ramp in Cashmere, WA. This work includes, but is not limited to installation, maintenance and restoration of temporary construction access as needed to complete the project, protect asphalt and protect the boat ramp; temporary traffic control as needed to safely deliver, handle, and stage equipment and materials; channel excavation, placement and contouring of streambed substrate within the project area as shown on the plans; in-water work area isolation and temporary erosion and sediment control; protection of sensitive areas; revegetation activities as directed by the Contracting Agency; construction surveying required to perform the aforementioned tasks; and all other work, all in accordance with the attached Contract Plans, these Contract Provisions, and the WSDOT Standard Specifications for Road, Bridge and Municipal Construction and addenda thereto.

NOW, THEREFORE, if the said Bid Proposal by said Principal be accepted, and the Contract be awarded to said Principal, and if said Principal shall duly make and enter into and execute said Contract and shall furnish bond as required by the Chelan County Commissioners within a period of ten (10) days from and after said award, exclusive of the day of such award, then this obligation shall be null and void, otherwise it shall remain and be in full force and effect.

IN TESTIMONY WHEREOF, the Principal and surety have caused these presents to be signed and sealed this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_.

NOTE: Failure to provide a Bid Proposal Bond renders a bid non-responsive. Acceptable Bid Bond language shall comply with Standard Specifications.

WITNESS our hands this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_.

## SUBCONTRACTOR LIST

---

*Prepared in compliance with RCW 39.30.060 as amended*

Chelan County requires the bidder to submit the names of all subcontractors whose subcontract amount exceeds 10 percent of the contract price for all contracts exceeding \$100,000. Bidders shall complete Section A below, as appropriate, with the bid proposal or within 1 hour of the bid time. For contracts exceeding \$1,000,000, the bidder shall also submit the names of all subcontractors that will perform HVAC (heating, ventilation, and air conditioning) work, electrical work, structural steel installation, or rebar installation, in accordance with RCW 39.30.060, regardless of whether the contract amount exceeds 10 percent of the contract price.

Bidders may attach additional sheets as necessary to identify additional subcontractors. If information is delivered within 1 hour of the bid time, it may be delivered in person, by fax, courier or email to the CONTRACTING AGENCY’S representative.

### SECTION A. OWNER REQUIRED SUBCONTRACTOR LIST

The following subcontractor(s) subcontract amount(s) exceed 10 percent of the contract price and the contract exceeds \$100,000 (list subcontractor and bid item).

## **CERTIFICATION REGARDING DEBARMENT**

---

This certification is required by the regulations implementing Executive Order 12549, Debarment and Suspension, 13 CFR Part 145. The regulations were published as Part VII of the May 26, 1988 Federal Register (pages 19160-19211). Copies of the regulations are available from local offices of the U.S. Small Business Administration.

### **BEFORE COMPLETING CERTIFICATION, READ INSTRUCTIONS ON REVERSE**

- 1) The prospective primary participant certifies to the best of its knowledge and belief that it and its principals:
  - a) Are not presently debarred, suspended, proposed for disbarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
  - b) Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
  - c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
  - d) Have not within a three-year period preceding this application had one or more public transactions (Federal, State, or local) terminated for cause or default.
  
- 2) Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective primary participant shall attach an explanation to this proposal.

Business Name \_\_\_\_\_

Date \_\_\_\_\_

By \_\_\_\_\_  
*(Authorized Signature)*

\_\_\_\_\_  
*(Name and Title)*

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. You may contact the department or agency to which this proposal is submitted for assistance in obtaining a copy of those regulations (13 CFR Part 145).
6. The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-- Lower Tier Covered Transactions," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the ineligibility of its principals. Each participant may, but is not required to, check the Non-Procurement List.
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

# **CONSTRUCTION CONTRACT PACKAGE**

**NOTE:** The following forms are to be executed by the successful bidder, after the Contract Award, and are included here for Bidder's information only.

## AGREEMENT

---

THIS AGREEMENT, made this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, by and between Chelan County hereinafter called "CONTRACTING AGENCY" and \_\_\_\_\_ doing business as (an individual) or (a partnership) or (a corporation) hereinafter called "CONTRACTOR".

WITNESSETH: That for and in consideration of the payments and agreements hereinafter mentioned:

1. The CONTRACTOR will furnish all of the materials, supplies, tools, equipment, labor, and other services necessary for the construction of the **Cashmere Boat Ramp** in accordance with the CONTRACT DOCUMENTS.
2. The CONTRACTOR will commence the work required by this contract on a date to be specified in the NOTICE TO PROCEED.
3. The CONTRACTOR shall complete all in-water work when in-stream flows are below 3,200 cfs, and no later than April 30, 2026. If flows do not allow for completion of work within the above referenced timeframe, the Contractor will conduct work as soon as conditions allow, with authorization from the Contracting Agency and in compliance with the project permits.
4. The CONTRACTOR agrees to perform all of the WORK described in the CONTRACT DOCUMENTS and comply with the terms therein for the sum of \$ \_\_\_\_\_ or as shown in the BID schedule (*Not including Washington State Sales Tax*). Washington State Sales Tax will be paid by the CONTRACTING AGENCY on Progress Payment Base amounts at the time of "Contractor's Application for Payment".
5. The CONTRACTOR shall submit applications for payment in accordance with the 2026 Washington State Department of Transportation Standard Specifications for Road, Bridge, and Municipal Construction (Standard Specifications). Applications for payment shall be submitted to the CONTRACTING AGENCY.
6. The term "CONTRACT DOCUMENTS" means and includes the following:
  - (A) BIDDING INSTRUCTIONS
  - (B) INVITATION TO BID
  - (C) BID PROPOSAL FORM
  - (D) BID PROPOSAL DECLARATION
  - (E) BID PROPOSAL BOND
  - (F) BIDDER INFORMATION
  - (G) NON-COLLUSION DECLARATION
  - (H) SUBCONTRACTORS LIST
  - (I) CERTIFICATION REGARDING DEBARMENT
  - (J) CERTIFICATE OF COMPLIANCE WITH WAGE PAYMENT STATUTES
  - (K) CERTIFICATE OF COMPLIANCE WITH PREVAILING WAGE TRAINING
  - (L) BONDING AND CLAIMS
  - (M) AGREEMENT
  - (N) PERFORMANCE AND PAYMENT BOND
  - (O) NOTICE OF AWARD
  - (P) NOTICE TO PROCEED
  - (Q) CERTIFICATE OF SUBSTANTIAL COMPLETION
  - (R) CONTRACTORS AFFIDAVIT OF PAYMENT OF DEBTS AND CLAIMS
  - (S) CONTRACTORS AFFIDAVIT OF RELEASE OF LEINS
  - (T) CONSENT OF SURETY TO FINAL PAYMENT
  - (U) SPECIAL PROVISIONS
  - (V) CHANGE ORDER(s)
  - (W) ADDENDA:

- a. No. \_\_\_\_\_ Dated \_\_, 202\_\_
- b. No. \_\_\_\_\_ Dated \_\_, 202\_\_
- c. No. \_\_\_\_\_ Dated \_\_, 202\_\_

7. This Agreement shall be binding upon all parties hereto and their respective heirs, executors, administrators, successors, and assigns.

IN WITNESS WHEREOF, the parties hereto have executed or caused to be executed by their duly authorized official, this Contract in triplicate. The Contract will be effective on \_\_\_\_\_ (insert date).

**PERFORMANCE AND PAYMENT BOND**

**\*\*\*Please Choose either Option A or Option B depending on Project Cost and/or Preference.\*\*\***

**OPTION A:**

KNOW ALL PERSONS BY THESE PRESENTS: that whereas Chelan County, Wenatchee, Washington a municipal corporation has awarded to:

\_\_\_\_\_  
CONTRACTOR NAME

hereinafter designated as the "CONTRACTOR" a contract for work items, which contract consists of the Proposal/Agreement, together with the Contract Documents, Specifications, Addenda and Plans, all as hereto attached and made a part hereof, and more particularly described as:

**Cashmere Boat Ramp**

and whereas said CONTRACTOR is required under the terms of said contract to furnish a bond for the faithful performance of said contract:

NOW, THEREFORE, we the CONTRACTOR and

\_\_\_\_\_, a corporation, organized and existing under and by virtue of the laws of the State of Washington, and duly authorized to do business in the State of Washington as surety, are firmly bound unto Chelan County in the sum of \_\_\_\_\_ dollars (\$ \_\_\_\_\_) lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that if the above bonded CONTRACTOR, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in said contract, and shall faithfully perform all the provisions of such contract, and shall also well and truly perform and fulfill all the undertakings, covenants, terms, conditions and agreements of any and all duly authorized modifications of said contract that may hereafter be made, at the time and in the manner therein specified; and shall pay all laborers, mechanics, subcontractors and materialmen, and all persons who shall supply such person or persons, or subcontractors, with provisions and supplies for the carrying on of such work on his or their parts; and shall indemnify and save harmless the CONTRACTING AGENCY, its officers and agents, from any loss or damage occasioned to any person or property by reason of any carelessness or negligence on the part of said principal, or any subcontractor, in the performance of said contract or any modifications thereof; and shall further indemnify and save harmless Chelan County, its officers and agents, from any damage or expense by reason of failure of performance as required by said contract, or any modifications thereof, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

And the said surety, for value received, hereby further stipulates and agrees that no change, extension of time, alteration or addition to the terms of the contract or to the work to be performed thereunder or the specifications accompanying the same shall in any way affect its obligation on this bond, and it does hereby waive notice of any change, extension of time, alternations or additions to the terms of the contract

or the work or to the specifications. This Bond is provided pursuant to and shall be construed in accordance with Ch. 39.08 RCW.

IN WITNESS THEREOF, the said CONTRACTOR and the said surety caused this bond and three (3) counterparts thereof to be signed and sealed by their duly authorized officers, this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_\_.

### NOTICE OF AWARD

**DATED** \_\_\_\_\_

**TO** \_\_\_\_\_

**ADDRESS** \_\_\_\_\_

**PROJECT** Cashmere Boat Ramp

The CONTRACTING AGENCY has considered the BID submitted by you for the above described WORK in response to its Advertisement for Bids dated \_\_\_\_\_, and Information for Bidders.

You are hereby notified that your BID has been accepted for items in the amount of \$ \_\_\_\_\_ (not including Washington State Sales Tax).

You are required by the Bidding Instructions to execute the Agreement and furnish the required CONTRACTOR'S Performance BOND, Payment BOND and certificates of insurance within ten (10) calendar days from the date of the original Notice to you.

If you fail to execute said Agreement and to furnish said BONDS within ten (10) calendar days from the date of this Notice, said CONTRACTING AGENCY will be entitled to consider all your rights arising out of the CONTRACTING AGENCY'S acceptance of your BID as abandoned and as a forfeiture of your BID BOND. The CONTRACTING AGENCY will be entitled to such other rights as may be granted by law.

You are required to return an acknowledged copy of this NOTICE OF AWARD to the CONTRACTING AGENCY. Dated this \_\_\_\_\_ day of \_\_\_\_\_, 202\_\_.

# **SPECIAL PROVISIONS**

PAGE LEFT BLANK INTENTIONALLY

## INTRODUCTION TO THE SPECIAL PROVISIONS AND TECHNICAL SPECIFICATIONS

The work on this project shall be accomplished in accordance with the most recent *Standard Specifications for Road, Bridge and Municipal Construction*, 2026 edition, as issued by the Washington State Department of Transportation (WSDOT) and the American Public Works Association (APWA), Washington State Chapter (hereafter “Standard Specifications”). The Standard Specifications, as modified or supplemented by these Special Provisions, all of which are made a part of the Contract Documents, shall govern all of the Work.

These Special Provisions are made up of both General Special Provisions (GSPs) from various sources, which may have project-specific fill-ins; and project-specific Special Provisions. Each Provision either supplements, modifies, or replaces the comparable Standard Specification, or is a new Provision. The deletion, amendment, alteration, or addition to any subsection or portion of the Standard Specifications is meant to pertain only to that particular portion of the section, and in no way should it be interpreted that the balance of the section does not apply.

The project-specific Special Provisions are not labeled as such. The GSPs are labeled under the headers of each GSP, with the effective date of the GSP and its source. For example:

- (March 8, 2013 APWA GSP)* = Identifies APWA GSP and date created
- (April 1, 2013 WSDOT GSP)* = Identifies WSDOT GSP and date created
- (\*\*\*\*\*)* = Identifies project specific Special Provision

Also incorporated into the Contract Documents by reference are:

- *Manual on Uniform Traffic Control Devices for Streets and Highways*, currently adopted edition, with Washington State modifications, if any
- *Standard Plans for Road, Bridge and Municipal Construction*, WSDOT/APWA, current edition
- *Standard Specifications for Construction of Roads and Bridges on Federal Highway Projects-FP-14*, Federal Highway Administration, current

The Contractor shall obtain copies of these publications, at the Contractor’s own expense.

Portions of these Special Provisions are taken from the APWA GSP web page found at <https://wsdot.wa.gov/engineering-standards/all-manuals-and-standards/general-special-provisions-gsps/local-agency-general-special-provisions-gsps> .

**DIVISION 1  
GENERAL REQUIREMENTS**

**1-01 DEFINITIONS AND TERMS**

(\*\*\*\*\*)

**Description of Work**

**Chelan County Natural Resources Project: Cashmere Boat Ramp**, Chelan County, WA. This contract provides for the excavation of approximately 950 cubic-yards (cy) of flood deposited streambed material on the Wenatchee River near the River Front Park Boat Ramp in Cashmere, WA. This work includes, but is not limited to installation, maintenance and restoration of temporary construction access as needed to complete the project, protect asphalt and protect the boat ramp; temporary traffic control as needed to safely deliver, handle, and stage equipment and materials; channel excavation, placement and contouring of streambed substrate within the project area and placement of streambed boulders as shown on the plans; in-water work area isolation and temporary erosion and sediment control; protection of sensitive areas; revegetation activities as directed by the Contracting Agency; construction surveying required to perform the aforementioned tasks; and all other work, all in accordance with the attached Contract Plans, these Contract Provisions, and the WSDOT Standard Specifications for Road, Bridge and Municipal Construction and addenda thereto.

**1-01.3 Definitions**

*(January 19, 2022 APWA GSP)*

Delete the heading Completion Dates and the three paragraphs that follow it, and replace them with the following:

**Dates**

**Bid Opening Date**

The date on which the Contracting Agency publicly opens and reads the Bids.

**Award Date**

The date of the formal decision of the Contracting Agency to accept the lowest responsible and responsive Bidder for the Work.

**Contract Execution Date**

The date the Contracting Agency officially binds the Agency to the Contract.

**Notice to Proceed Date**

The date stated in the Notice to Proceed on which the Contract time begins.

**Substantial Completion Date**

The day the Project Engineer determines the Contracting Agency has full and unrestricted use and benefit of the facilities, both from the operational and safety standpoint, any remaining traffic

disruptions will be rare and brief, and only minor incidental work, replacement of temporary substitute facilities, plant establishment periods, or correction or repair remains for the Physical Completion of the total Contract.

**Physical Completion Date**

The day all of the Work is physically completed on the project. All documentation required by the Contract and required by law does not necessarily need to be furnished by the Contractor by this date.

**Completion Date**

The day all the Work specified in the Contract is completed and all the obligations of the Contractor under the contract are fulfilled by the Contractor. All documentation required by the Contract and required by law must be furnished by the Contractor before establishment of this date.

**Final Acceptance Date**

The date on which the Contracting Agency accepts the Work as complete.

*Section 1-01.3 is supplemented with the following:*

(\*\*\*\*\*)

All references in the Standard Specifications or WSDOT General Special Provisions, to the terms “Department of Transportation”, “Washington State Transportation Commission”, “Commission”, “Secretary of Transportation”, “Secretary”, “Headquarters”, and “State Treasurer” shall be revised to read “Contracting Agency”.

All references to the terms “State” or “state” shall be revised to read “Contracting Agency” unless the reference is to an administrative agency of the State of Washington, a State statute or regulation, or the context reasonably indicates otherwise.

All references to Engineer and Contracting Officer and/or Contracting Agency are equivalent.

All references to “Project Engineer” refers to the firm and Engineer of Record responsible for preparation of the Plans and/or these Special Provisions.

All references to “State Materials Laboratory” shall be revised to read “Contracting Agency designated location”.

All references to “final contract voucher certification” shall be interpreted to mean the Contracting Agency form(s) by which final payment is authorized, and final completion and acceptance granted.

**Additive**

A supplemental unit of work or group of bid items, identified separately in the Bid Proposal, which may, at the discretion of the Contracting Agency, be awarded in addition to the base bid.

**Alternate**

One of two or more units of work or groups of bid items, identified separately in the Bid Proposal, from which the Contracting Agency may make a choice between different methods or material of construction for performing the same work.

**Business Day**

A business day is any day from Monday through Friday except holidays as listed in Section 1-08.5.

**Contract Bond**

The definition in the Standard Specifications for “Contract Bond” applies to whatever bond form(s) are required by the Contract Documents, which may be a combination of a Payment Bond and a Performance Bond.

**Contract Documents**

See definition for “Contract”.

**Contract Time**

The period of time established by the terms and conditions of the Contract within which the Work must be physically completed.

**Notice of Award**

The written notice from the Contracting Agency to the successful Bidder signifying the Contracting Agency’s acceptance of the Bid Proposal.

**Notice to Proceed**

The written notice from the Contracting Agency or Engineer to the Contractor authorizing and directing the Contractor to proceed with the Work and establishing the date on which the Contract time begins.

**Traffic**

Both vehicular and non-vehicular traffic, such as pedestrians, bicyclists, wheelchairs, and equestrian traffic.

**1-02 BID PROCEDURES AND CONDITIONS**

**1-02.1 Prequalification of Bidders**

*This section is deleted and replaced with the following*

*(\*\*\*\*\*)*

**1-02.1 Qualifications of Bidder**

*(January 24, 2011 APWA GSP)*

Before award of a public works contract, a bidder must meet at least the minimum qualifications of RCW 39.04.350(1) to be considered a responsible bidder and qualified to be awarded a public works project.

*The following new subsection is added:*

(\*\*\*\*\*)

**1-02.1(2) Project Specific Supplemental Qualifications Criteria**

The Contractor shall submit a “Statement of Qualifications” with this bid. The Contractor shall have prior experience with successful completion of at least two (2) similar projects in the last five (5) years. Bidders can fulfill this requirement by completing the statement of qualifications within the bid documents, using additional sheets as necessary.

Projects qualified as “similar” are defined by those having included work in an active channel and below ordinary high water which required in-water work area isolation.

**1-02.2 Plans and Specifications**

*(June 27, 2011 APWA GSP)*

This section is deleted and replaced with the following:

Information as to where Bid Documents can be obtained or reviewed can be found in the Call for Bids (Advertisement for Bids) for the work. After award of the contract, plans and specifications will be issued to the Contractor at no cost as detailed below:

<b>To Prime Contractor</b>	<b>No. of Sets</b>	<b>Basis of Distribution</b>
Reduced plans (11" x 17") and Contract Provisions	2	Furnished automatically upon award
Contract Provisions	2	Furnished automatically upon award

Additional plans and Contract Provisions may be obtained by the Contractor from the source stated in the Call for Bids, at the Contractor’s own expense.

**1-02.4 Examination of Plans, Specifications, and Site of Work**

*Section 1-02.4 is supplemented with the following:*

(\*\*\*\*\*)

An **Optional** Pre-Bid site walk through with representatives from the CONTRACTING AGENCY will be held on March 19, 2026 at 11:00 AM at the project site. The site is located at the Cashmere Riverside Park, 201 Riverside Drive, Cashmere, WA 98815. This project site is located on public property and is open to inspection at any time. A minimum of one representative from each Prime Contractor that intends to submit a bid is encouraged to attend.

**1-02.4(1) General**

*(December 30<sup>th</sup>, 2022 APWA GSP Option B)*

The first sentence of the ninth paragraph beginning with “Prospective Bidders desiring...”, is revised to read:

Prospective Bidders desiring an explanation or interpretation of the Bid Documents, shall request the explanation or interpretation in writing by close of business three (3) business days preceding the bid opening to allow a written reply to reach all prospective Bidders before the submission of their Bids

**1-02.4(2) Subsurface Information**

*Supplement this section with the following:*

(\*\*\*\*\*)

No geotechnical assessment has been completed for this project site.

**1-02.5 Proposal Forms**

*(February 17, 2026 APWA GSP)*

Delete this section and replace it with the following:

The Proposal Form will identify the project and its location and describe the work. It will also list estimated quantities, units of measurement, the items of work, and the materials to be furnished at the unit bid prices. The bidder shall complete spaces on the proposal form that call for, but are not limited to, unit prices; extensions; summations; the total bid amount; signatures; date; and, where applicable, retail sales taxes and acknowledgment of addenda; the bidder’s name, address, telephone number, and signature. Bids shall be in legible figures (not words) written in ink or typed and expressed in U.S. dollars. The required certifications are included as part of the Proposal Form.

The Contracting Agency reserves the right to arrange the proposal forms with alternates and additives, if such be to the advantage of the Contracting Agency. The bidder shall bid on all alternates and additives set forth in the Proposal Form unless otherwise specified.

**1-02.6 Preparation of Proposal**

*Section 1-02.6 is supplemented with the following:*

(\*\*\*\*\*)

**Cumulative Additive Bidding**

The Bid Proposal for this Contract includes one Additive Bid Item. As such, the Bidder must submit a Base Bid and a Bid for each Additive.

**Bid Proposal**

The Bid Proposal includes the following:

- 1. Schedule A: Base Bid

The Base Bid shall include constructing all items included in the Proposal except those items contained in the Additive Bid Items.

- 2. Schedule B: Additive Bid 1

Based on \*\*\* the Contractor completing all surveying work necessary to complete the project \*\*\* The Bid items for Schedule B Additive Bid 1 are as listed in the Bid Proposal.

### **Bidding Procedures**

To be considered responsive the Bidder shall submit a price on each and every Bid item included in the Base Bid and all Additives.

The successful Bidder will be the Bidder submitting the lowest responsible Bid for the highest order Preference that is within the amount of available funds for the project. Available funds will be announced immediately prior to the opening of Bids. The following are listed in order from highest to lowest Preference:

1. Preference 1: Lowest combined total for Base Bid plus all Additive Bid items (Schedule A: Base Bid + Schedule B: Additive Bid 1)
2. Preference 2: Lowest total for Schedule A: Base Bid.

The Contracting Agency may, at their discretion, award a Contract for the Base Bid only, without any Additive(s), in the event that all Bids exceed the available funds announced. In any case, the award will be subject to the requirements of Section 1-03.

In accordance with the legislative findings and policies set forth in Chapter 39.19 RCW the State of Washington, Owner encourages participation in all of its contracts by MWBE firms certified by the Office of Minority and Women's Business Enterprises (OMWBE). Participation may be either on a direct basis in response to this invitation or as a subcontractor to a bidder. However, unless required by federal statutes, regulations, grants, or contract terms referenced in the contract documents, no preference will be included in the evaluation of bids, no minimum level of MWBE participation shall be required as a condition for receiving an award and bids will not be rejected or considered nonresponsive on that basis. Any affirmative action requirements set forth in federal regulations or statutes included or referenced in the contract documents will apply.

*(February 17, 2026 APWA GSP, Option C)*

The first sentence of the second paragraph is revised to read as follows:

All prices shall be in legible figures (not words) written in ink or typed, and expressed in U.S. dollars.

Supplement the second paragraph with the following:

1. If a minimum bid amount has been established for any item, the unit or lump sum price must equal or exceed the minimum amount stated.

Delete the last two paragraphs, and replace them with the following:

The Bidder shall submit with their Bid a completed Contractor Certification Wage Law Compliance form, provided by the Contracting Agency. Failure to return this certification as part of the Bid Proposal package will make this Bid Nonresponsive and ineligible for Award. A Contractor Certification of Wage Law Compliance form is included in the Proposal Forms.

The Bidder shall make no stipulation on the Bid Form, nor qualify the bid in any manner.

A bid by a corporation shall be executed in the corporate name, by the president or a vice president (or other corporate officer accompanied by evidence of authority to sign).

A bid by a partnership shall be executed in the partnership name and signed by a partner.

A bid by a joint venture shall be executed in the joint venture name and signed by a member of the joint venture.

### **1-02.7 Bid Deposit**

*Section 1-02.7 is supplemented with the following:*

(\*\*\*\*\*)

A certified check or bid bond made payable to the Chelan County for an amount equal to at least five (5%) percent of the total amount of the bid, must accompany each bid as evidence of good faith, and as a guarantee that, if awarded the contract, the bidder will execute the contract and give bond, as required. Should the successful bidder fail to enter into such a contract and furnish satisfactory performance bond within the time stated in the specifications, the bid proposal deposit may be forfeited to Chelan County.

The Bidder shall make no stipulation on the Bid Form, nor qualify the bid in any manner.

A bid by a corporation shall be executed in the corporate name, by the president or a vice president (or other corporate officer accompanied by evidence of authority to sign).

A bid by a partnership shall be executed in the partnership name and signed by a partner.

A bid by a joint venture shall be executed in the joint venture name and signed by a member of the joint venture.

Cash will not be accepted for a bid deposit and bidders must use the bond form included in the Contract Provisions.

Bid bonds shall contain the following:

1. Contracting Agency-assigned number for the project if applicable;
2. Name of the project;
3. The Contracting Agency named as obligee;
4. The amount of the bid bond stated either as a dollar figure or as a percentage which represents five percent of the maximum bid amount that could be awarded;

5. Signature of the bidder’s officer empowered to sign official statements. The signature of the person authorized to submit the bid should agree with the signature on the bond, and the title of the person must accompany the said signature;

6. The signature of the surety’s officer empowered to sign the bond and the power of attorney.

If so stated in the Contract Provisions, bidder must use the bond form included in the Contract Provisions.

**1-02.9 Delivery of Proposal**

*(November 21, 2025 APWA GSP, Option A)*

Delete this section and replace it with the following:

**GENERAL**

Each Proposal shall be submitted in a sealed envelope, with the Project Name and Project Number as stated in the Call for Bids clearly marked on the outside of the envelope, or as otherwise required in the Bid Documents, to ensure proper handling and delivery.

Proposals that are received as required will be publicly opened and read as specified in Section 1-02.12. The Contracting Agency will not open or consider any Bid Proposal that is received after the time specified in the Call for Bids for receipt of Bid Proposals or received in a location other than that specified in the Call for Bids. The Contracting Agency will not open or consider any “Supplemental Information” that is received after the time specified, or received in a location other than that specified in the Call for Bids.

If an emergency or unanticipated event interrupts normal work processes of the Contracting Agency so that Proposals cannot be received at the office designated for receipt of bids as specified in Section 1-02.12 the time specified for receipt of the Proposal will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which the normal work processes of the Contracting Agency resume.

Supplemental bid information submitted after the Proposal submittal but within 48 hours of the time and date the Proposal is due, shall be submitted in a sealed envelope labeled the same as for the Proposal, with “Supplemental Information” added.

All other information required to be submitted with the Bid Proposal must be submitted with the Bid Proposal itself, at the time stated in the Call for Bids.

*(\*\*\*\*\*)*

*All sealed bids shall be delivered to:*

Board of Chelan County Commissioners  
Chelan County Administration Building  
400 Douglas St  
Wenatchee, WA 98801

**1-02.10 Withdrawing, Revising, or Supplementing Proposal**

*(\*\*\*\*\*)*

Delete this section, and replace it with the following:

After submitting a physical (or electronic when allowed) Bid Proposal to the Contracting Agency, the Bidder may withdraw, revise, or supplement it if:

1. The Bidder submits a written request signed by an authorized person and physically delivers it to the place designated for receipt of Bid Proposals, if a physical Bid Proposal was submitted, or recalled electronically via electronic method described in 1-02.9 if an electronic Bid Proposal was submitted, and
2. The Contracting Agency receives the request before the time set for receipt of Bid Proposals, and
3. The revised or supplemented Bid Proposal (if any) is received by the Contracting Agency before the time set for receipt of Bid Proposals.

If the Bidder’s request to withdraw, revise, or supplement its Bid Proposal is received before the time set for receipt of Bid Proposals, the Contracting Agency will return the unopened Proposal package to the Bidder. The Bidder must then submit the revised or supplemented package in its entirety. If the Bidder does not submit a revised or supplemented package, then its bid shall be considered withdrawn.

Late revised or supplemented Bid Proposals or late withdrawal requests will be date recorded by the Contracting Agency and returned unopened. Mailed, emailed, or faxed requests to withdraw, revise, or supplement a Bid Proposal are not acceptable.

**1-02.12 Public Opening of Proposal**

*Section 1-02.12 is supplemented with the following:*

(\*\*\*\*\*)

**Date of Opening Bids**

Sealed bids are to be received at the following location prior to the time specified:

**Board of Chelan County Commissioners  
Chelan County Administration Building  
400 Douglas St. Suite 201  
Wenatchee, Washington 98801**

The bid opening date for this project is scheduled for Monday, March 30, 2026. The bids received will be publicly opened and read on this date at **11:00 AM**, or as soon as possible thereafter.

**1-02.13 Irregular Proposals**

(\*\*\*\*\*)

Delete this section and replace it with the following:

1. A Proposal will be considered irregular and will be rejected if:
  - a. The Bidder is not prequalified when so required;

- b. The Bidder adds provisions reserving the right to reject or accept the Award, or enter into the Contract;
  - c. A price per unit cannot be determined from the Bid Proposal;
  - d. The Proposal form is not properly executed;
  - e. The Bidder fails to submit or properly complete a subcontractor list, if applicable, as required in Section 1-02.6;
  - f. The Bidder fails to submit the Bidder Questionnaire, if applicable as required by Section 1-02.6, or if the documentation that is submitted fails to meet the requirements of the Special Provisions; or
  - g. The Bid Proposal does not constitute a definite and unqualified offer to meet the material terms of the Bid invitation.
2. A Proposal may be considered irregular and may be rejected if:
- a. The Proposal does not include a unit price for every Bid item;
  - b. Any of the unit prices are excessively unbalanced (either above or below the amount of a reasonable Bid) to the potential detriment of the Contracting Agency;
  - c. The authorized Proposal Form furnished by the Contracting Agency is not used or is altered;
  - d. The completed Proposal form contains unauthorized additions, deletions, alternate Bids, or conditions;
  - e. Receipt of Addenda is not acknowledged;
  - f. A member of a joint venture or partnership and the joint venture or partnership submit Proposals for the same project (in such an instance, both Bids may be rejected); or
  - g. If Proposal form entries are not made in ink.

*This section is supplemented with the following:*

(\*\*\*\*\*)

- h. If a Proposal does not include or meet the Project Specific Supplemental Qualifications requirements as listed in section 1-02.1.

#### **1-02.14 Disqualification of Bidders**

*(May 17, 2018 APWA GSP, Option A)*

Delete this section and replace with the following:

A Bidder will be deemed not responsible if the Bidder does not meet the mandatory bidder responsibility criteria in RCW 39.04.350(1), as amended; or does not meet the supplemental criteria listed in section 1-02.1 of these Special Provisions.

The Contracting Agency will verify that the Bidder meets the mandatory bidder responsibility criteria in RCW 39.04.350(1). To assess bidder responsibility, the Contracting Agency reserves the right to request documentation as needed from the Bidder and third parties concerning the Bidder's compliance with the mandatory bidder responsibility criteria. As evidence that the Bidder meets the mandatory bidder responsibility criteria, the Contracting Agency may require the apparent low Bidder to submit to the Contracting Agency within 48 hours of request, documentation demonstrating compliance with all responsibility criteria. Documentation can be submitted either as scanned files submitted through e-mail to the Contracting Agency, or printed files submitted through traditional mail or in person. The Contracting Agency reserves the right to request such documentation from other Bidders as well, and to request further documentation as needed to assess bidder responsibility. The Contracting Agency also reserves the right to

obtain information from third parties concerning a Bidder's compliance with the mandatory bidder responsibility criteria.

If the Contracting Agency determines the Bidder does not meet the mandatory bidder responsibility criteria in RCW 39.04.350(1) and is therefore not a responsible Bidder, the Contracting Agency shall notify the Bidder in writing, with the reasons for its determination. If the Bidder disagrees with this determination, it may appeal the determination within 2 (two) business days of the Contracting Agency's determination by presenting its appeal and any additional information to the Contracting Agency. The Contracting Agency will consider the appeal and any additional information before issuing its final determination. If the final determination affirms that the Bidder is not responsible, the Contracting Agency will not execute a contract with any other Bidder until at least 2 business days after the Bidder determined to be not responsible has received the Contracting Agency's final determination.

## **1-03 AWARD AND EXECUTION OF CONTRACT**

### **1-03.1 Consideration of Bids**

(\*\*\*\*\*)

Revise the first paragraph to read:

After opening and reading proposals, the Contracting Agency will check them for correctness of extensions of the prices per unit and the total price. If a discrepancy exists between the price per unit and the extended amount of any bid item, the price per unit will control. If a minimum bid amount has been established for any item and the bidder's unit or lump sum price is less than the minimum specified amount, the Contracting Agency will unilaterally revise the unit or lump sum price, to the minimum specified amount and recalculate the extension. The total of extensions, corrected where necessary, including sales taxes where applicable and such additives and/or alternates as selected by the Contracting Agency, will be used by the Contracting Agency for award purposes and to fix the Awarded Contract Price amount and the amount of the contract bond.

### **1-03.3 Execution of Contract**

*(February 17, 2026 APWA GSP, Option A)*

Revise this section to read:

Copies of the Contract Provisions, including the unsigned Form of Contract, will be available for signature by the successful bidder on the first business day following award. The number of copies to be executed by the Contractor will be determined by the Contracting Agency.

Within \*\*\* Ten (10) \*\*\* calendar days after the award date, the successful Bidder shall return the signed Contracting Agency-prepared Contract, an insurance certification as required by Section 1-07.18, a satisfactory bond as required by law and Section 1-03.4, the Transfer of Coverage form for the Construction Stormwater General Permit with sections I, III, and VIII completed when provided. Before execution of the Contract by the Contracting Agency, the successful Bidder shall provide, if required, any of the following: pre-Award information required by the Contracting Agency as listed under Section 1-02.15, proof of licensure for electrical, HVAC, or plumbing subcontractors. If the Prime Contractor lists themselves as performing electrical, HVAC, or plumbing they are required to submit proof of licensure prior to execution.

Until the Contracting Agency executes a Contract, no Proposal shall bind the Contracting Agency nor shall any Work begin within the project limits or within Contracting Agency-furnished sites. The Contractor shall bear all risks for any Work begun outside such areas and for any materials ordered before the Contract is executed by the Contracting Agency.

If the Bidder experiences circumstances beyond their control that prevents return of the Contract documents within the calendar days after the Award date stated above, the Contracting Agency may grant up to a maximum of \*\*\* Ten (10)\*\*\* additional calendar days for return of the documents, provided the Contracting Agency deems the circumstances warrant it.

### **1-03.4 Contract Bond**

*(July 23, 2015 APWA GSP)*

Delete the first paragraph and replace it with the following:

The successful bidder shall provide executed payment and performance bond(s) for the full contract amount. The bond may be a combined payment and performance bond; or be separate payment and performance bonds. In the case of separate payment and performance bonds, each shall be for the full contract amount. The bond(s) shall:

1. Be on Contracting Agency-furnished form(s);
2. Be signed by an approved surety (or sureties) that:
  1. Is registered with the Washington State Insurance Commissioner, and
  2. Appears on the current Authorized Insurance List in the State of Washington published by the Office of the Insurance Commissioner,
3. Guarantee that the Contractor will perform and comply with all obligations, duties, and conditions under the Contract, including but not limited to the duty and obligation to indemnify, defend, and protect the Contracting Agency against all losses and claims related directly or indirectly from any failure:
  1. Of the Contractor (or any of the employees, subcontractors, or lower tier subcontractors of the Contractor) to faithfully perform and comply with all contract obligations, conditions, and duties, or
  2. Of the Contractor (or the subcontractors or lower tier subcontractors of the Contractor) to pay all laborers, mechanics, subcontractors, lower tier subcontractors, material person, or any other person who provides supplies or provisions for carrying out the work;
4. Be conditioned upon the payment of taxes, increases, and penalties incurred on the project under titles 50, 51, and 82 RCW; and
5. Be accompanied by a power of attorney for the Surety's officer empowered to sign the bond; and
6. Be signed by an officer of the Contractor empowered to sign official statements (sole proprietor or partner). If the Contractor is a corporation, the bond(s) must be signed by the president or vice president, unless accompanied by written proof of the authority of the individual signing the bond(s) to bind the corporation (i.e., corporate resolution, power of attorney, or a letter to such effect signed by the president or vice president).

Add the following new section:

### **1-03.4(1) Retainage in Lieu of Contract Bond**

*(May 17, 2018 APWA GSP)*

For contracts of \$150,000 or less, the Contractor may, at the Contractor's option, authorize the Contracting Agency to retain 10% of the contract amount in lieu of furnishing a performance and/or payment bond. If the Contractor elects this option, the retainage shall be held for a period of thirty (30) days after the date of final acceptance, or until receipt of all necessary releases from the Departments of Revenue and of Labor and Industries and settlement of any liens filed under RCW 60.28, whichever is later. The Contractor must advise the Contracting Agency in writing of the Contractor's election to authorize retainage in lieu of a bond, at the time of execution of the Contract.

In choosing this option, the Contractor agrees that if the Contractor, its heirs, executors, administrators, successors, or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the Contract, and shall faithfully perform all the provisions of such contract and shall also well and truly perform and fulfill all the undertakings, covenants, terms, conditions and agreements of any and all duly authorized modifications of the Contract that may hereafter be made, at the time and in the manner therein specified, and shall pay all laborers, mechanics, subcontractors, and material suppliers, and all persons who shall supply such person or persons, or subcontractors, with provisions and supplies for the carrying on of such work, on his or her part, and shall indemnify and save harmless the Contracting Agency, its officers and agents from any claim for such payment, then the funds retained in lieu of a performance bond shall be released at the time provided above; otherwise, the funds shall be retained until the Contractor fulfills the said obligations.

### **1-03.7 Judicial Review**

*(December 30, 2022 APWA GSP)*

Revise this section to read:

All decisions made by the Contracting Agency regarding the Award and execution of the Contract or Bid rejection shall be conclusive subject to the scope of judicial review permitted under Washington Law. Such review, if any, shall be timely filed in the Superior Court of the county where the Contracting Agency headquarters is located, provided that where an action is asserted against a county, RCW 36.01.050 shall control venue and jurisdiction.

## **1-04 SCOPE OF WORK**

### **1-04.1(2) Bid Items Not Included in the Proposal**

*This section is revised to read:*

*(\*\*\*\*\*)*

When the contract specifies work that has no bid item, and the work is not specified as being included with or incidental to other bid items, that work shall be considered incidental to the contract or other Bid items included in the proposal form.

**1-04.2 Coordination of Contract Documents, Plans, Special Provisions, Specifications, and Addenda**

*(December 30, 2022 APWA GSP)*

Revise the second paragraph to read:

Any inconsistency in the parts of the contract shall be resolved by following this order of precedence (e.g., 1 presiding over 2, 2 over 3, 3 over 4, and so forth):

- 1. Addenda,
- 2. Proposal Form,
- 3. Special Provisions,
- 4. Contract Plans,
- 5. Standard Specifications,
- 6. Contracting Agency’s Standard Plans or Details (if any), and
- 7. WSDOT Standard Plans for Road, Bridge, and Municipal Construction.

**1-04.4 Changes**

*(January 19, 2022 APWA GSP)*

The first two sentences of the last paragraph of Section 1-04.4 are deleted.

**1-04.6 Variation in Estimated Quantities**

Include as written.

**1-04.7 Differing Site Conditions (Changed Conditions)**

*Supplement this Section with the following:*

*(\*\*\*\*\*)*

The site is a complex river and floodplain system formed by natural and anthropogenic processes. Reports on the physical conditions within the project site are available to the Contractor from the Owner. Soil types and properties, surface and groundwater conditions are known to be complex and varied. The Contractor shall account for this in their bids. Variation in soil types and water conditions shall not qualify as Differing Site Conditions. It is the Contractor’s responsibility to be familiar with site conditions. Contractor shall be responsible for collecting additional data during construction as required to select means and methods to construct the project.

**1-04.11 Final Cleanup**

*Supplement this section with the following:*

*(\*\*\*\*\*)*

The Contractor shall repair, at no additional cost to the Contracting Agency, any damage to existing access routes, fences, gates, utilities, structures, and driveways that occurred as a result of activities

conducted by the Contractor. All costs associated with performing the final cleanup shall be made incidental to other bid items in the Contract. This includes but is not limited to repairing any damage that occurs to existing pavement outside the limits of paving, existing structures, decorations, and vegetation. The use of rubber-tracked equipment is encouraged but not mandatory.

## **1-05 CONTROL OF WORK**

### **1-05.4 Conformity with and Deviations from Plans and Stakes**

*Add the following new subsections:*

(\*\*\*\*\*)

#### **1-05.4(1) Contractor Surveying**

Contractor shall be responsible for all surveying work associated with the project. This includes verifying primary survey control shown on the Plans, establishing secondary survey control as needed, and setting key grade stakes and location stakes as necessary to complete work in all respects. The Contractor shall be responsible for setting, maintaining, and resetting all supplemental alignment stakes, slope stakes, and grades necessary for the construction of the project. All calculations, surveying, and measuring required for setting and maintaining the necessary lines and grades shall be the Contractor's responsibility.

The meaning of words and terms used in this provision shall be as listed in "Definitions of Surveying and Associated Terms" current edition, published by the American Congress on Surveying and Mapping and the American Society of Civil Engineers.

The survey Work shall include but not be limited to the following:

1. Using Owner-provided primary control to establish secondary control by adding stakes and hubs as well as additional survey control needed for the project. Provide descriptions of all control to the Owner. The description shall include coordinates and elevations of all control points.
2. Establish the centerline and/or other relevant breaklines for all proposed excavations and backfills.
3. For all other types of construction shown on the Plans, provide staking and layout as necessary to adequately locate, construct, and check the specific construction activity.

Primary construction stakes and survey markers will be conspicuously marked with flagging tape or paint if desired by the Contractor. In the event the Contractor's operations destroy any of the primary control points, the Contractor shall replace such control points at their expense, subject to verification by the Engineer or Contracting Agency. All verification costs shall be borne by the Contractor. The cost of any such verification or replacement of control survey points will be deducted from any monies due to the Contractor. The Contractor will not be allowed any adjustment in working days for such verification or replacement of survey control points.

The Contractor shall inform all Subcontractors of the importance of the preservation of all survey markers. The Contractor shall be responsible for protecting and maintaining all stakes from destruction. In the event that one or more of the stakes are damaged or destroyed by one or more subcontractors, the Contractor shall replace the stakes at no cost to the Owner.

Digital files of alignments, surfaces, points, and lines will be made available upon request by the Contractor to supplement the stakeout points shown on the Plans. It is the responsibility of the Contractor to verify the accuracy of all survey information provided by the Owner prior to

commencing excavations or filling operations. Commencement of these operations constitutes acceptance of the survey information as appropriate to meet the intent of the Contract.

Engineer and/or Contracting Agency will verify a portion of the survey layout. Survey verification and layout/flagging completed by the Engineer should be considered as general guidance only and do not change the requirements for normal checking by the Contractor. The Contractor shall provide the Engineer with copies of any calculations and staking data when requested.

**1-05.4(3) Measurement**

No unit of measurement shall apply to the force account bid item, "Contractor Surveying".

**1-05.4(4) Payment**

Payment for the force account bid item "Contractor Surveying" will be made pursuant with section 1-09.6 of the standard specifications.

**1-05.5 Tolerances**

*This section is supplemented with the following:*

(\*\*\*\*\*)

The Contractor shall ensure earthwork is completed within the following tolerances:

<u>Vertical</u>	<u>Horizontal</u>
±0.10 ft	±0.25 ft

**1-05.6 Inspection of Work and Materials**

*Supplement this Section with the following:*

(\*\*\*\*\*)

The Contractor shall accommodate periodic verification of accuracy of local positioning systems and global positioning systems used by the Contractor to layout and check the locations and elevation of the work.

The Contractor shall accommodate inspection of grading by the Engineer or Contracting Agency. The first inspection shall occur when each area has been rough graded to elevations shown on the Plans. The second inspection shall occur when the grading is complete but before grading equipment has been removed from the work area. The Contractor shall notify the Engineer once the rough grading and final grading has been completed for each project area. Time required to conduct inspections shall not warrant a time extension. Inspections by the Engineer shall not relieve the Contractor from the responsibility of checking grades and slopes as the work progresses and conformance with the grades and slopes shown on the Plans.

**1-05.7 Nonconforming Work**

*(February 17, 2026 APWA GSP)*

Supplement this section with the following:

The rights exercised under the provisions of this Section shall not diminish the Contracting Agency's right to pursue any other avenue for additional remedy or damages with respect to the Contractor's failure to perform the Work as required. The Engineer has the right to reject all or part of the Nonconforming Work, and the Engineer's decision is final and not subject to protest.

No additional contract time or compensation will be allowed when the Contracting Agency exercises their rights provided by this Section.

### **1-05.7(1) Identification of Nonconforming Work**

Replace this section with the following:

The Contractor is responsible for quality control and shall identify all Nonconforming Work. The Contracting Agency may also identify Nonconforming Work. However, failure by the Contracting Agency to identify Nonconforming Work shall not relieve the Contractor from their responsibility for the quality of the Work, nor shall it constitute acceptance or approval of the Nonconforming Work.

### **1-05.7(2) Reporting of Nonconforming Work**

Replace this section with the following:

The Contractor shall immediately report all Nonconforming Work to the Engineer and shall include any relevant information known for suggested remediation of Nonconforming Work.

When the Contracting Agency identifies Nonconforming Work, the Engineer will notify the Contractor in writing specifying a time when a remedy must be complete. If the Contractor fails to remedy Nonconforming Work within the time specified in a written notice from the Engineer, or fails to perform any part of the Work required by the Contract Documents, the Engineer may correct and remedy such Work as may be identified in the written notice.

### **1-05.7(3) Remediation of Nonconforming Work**

Supplement this section with the following:

The Contractor shall be responsible and bear all costs for remediating Nonconforming Work.

If the Contracting Agency remedies Nonconforming Work after the specified time when a remedy was to be completed, by any means deemed necessary, direct and indirect costs incurred by the Contracting Agency attributable to correcting and remedying Nonconforming Work not corrected by the time provided in the notice, or Work the Contractor failed or refused to perform, shall be paid by the Contractor.

If the Contractor fails to comply with a written order to remedy what the Engineer determines to be an emergency situation, the Engineer may have the Nonconforming Work corrected immediately, have the Work removed and replaced, or have Work the Contractor refuses to perform completed by using Contracting Agency or other forces. An emergency situation is any situation when, in the opinion of the Engineer, a delay in its remedy could be potentially unsafe, or might cause risk of loss or damage to the public.

When costs are incurred by the Contracting Agency, payment will be deducted by the Engineer from monies due, or to become due, to the Contractor. Such direct and indirect costs shall include in particular, but without limitation, compensation for additional professional services required, and compensation for removal, repair, replacement and/or correction of the Contractor’s Nonconforming Work.

**1-05.8 Vacant**

*Section 1-05.8 is replaced with the following:*

(\*\*\*\*\*)

**1-05.8 Required Submittals and Approvals**

The following is a list of required submittals due to the Contracting Agency as detailed in the respective section of the Standard Specifications and these Special Provisions. The Contractor shall prepare and submit the following submittals according to the requirements for each submittal. Each submittal shall be submitted to the Contracting Officer via e-mail unless otherwise directed. The Owner’s approval shall be required prior to commencing work related to each submittal.

- 1-08.3 Type A Project Schedule with working hours per day shown
- 1-10.2(2) Temporary Traffic Control Plan (if necessary)
- 8-01.3(1)C6 Hydraulic Fluid Catalog Cut
- 8-05.3(4) Temporary Construction Access and Staging Plan
- 8-31(3) Temporary Water Management Plan

This list is provided for the convenience of the Contractor and may not be complete. Refer to the text of the Special Provisions and Standard Specifications for a complete description of Contract submittal requirements.

**1-05.11 Final Inspection**

*Delete this section and replace it with the following:*

(\*\*\*\*\*)

**1-05.11 Final Inspections and Operational Testing**

*(October 1, 2005 APWA GSP)*

**1-05.11(1) Substantial Completion Date**

When the Contractor considers the work to be substantially complete, the Contractor shall so notify the Contracting Agency and Engineer and request the establishment of the Substantial Completion Date. The Contractor’s request shall list the specific items of work that remain to be completed in order to reach physical completion. The Contracting Agency and/or Engineer will schedule an inspection of the work with the Contractor to determine the status of completion. The Contracting Agency and Engineer may also establish the Substantial Completion Date unilaterally.

If, after this inspection, the Contracting Agency and Engineer concurs with the Contractor that the work is substantially complete and ready for its intended use, will by written notice to the Contractor, set the Substantial Completion Date. If, after this inspection the Contracting Agency and/or Engineer does not consider the work substantially complete and ready for its intended use, will so notify the Contractor giving the reasons therefor.

Upon receipt of notice concurring in or denying substantial completion, whichever is applicable, the Contractor shall pursue vigorously, diligently and without unauthorized interruption, the work necessary to reach Substantial and Physical Completion. The Contractor shall provide the Contracting Agency and Engineer with a revised schedule indicating when the Contractor expects to reach substantial and physical completion of the work.

The above process shall be repeated until the Contracting Agency and Engineer establishes the Substantial Completion Date and the Contractor considers the work physically complete and ready for final inspection.

### **1-05.11(2) Final Inspection and Physical Completion Date**

When the Contractor considers the work physically complete and ready for final inspection, the Contractor by written notice, shall request the Contracting Agency and Engineer to schedule a final inspection. The Engineer will set a date for final inspection. The Contracting Agency and/or Engineer and the Contractor will then make a final inspection and the Engineer will notify the Contractor in writing of all particulars in which the final inspection reveals the work incomplete or unacceptable. The Contractor shall immediately take such corrective measures as are necessary to remedy the listed deficiencies. Corrective work shall be pursued vigorously, diligently, and without interruption until physical completion of the listed deficiencies. This process will continue until the Contracting Agency and Engineer are satisfied the listed deficiencies have been corrected.

If action to correct the listed deficiencies is not initiated within 7 days after receipt of the written notice listing the deficiencies, the Engineer may, upon written notice to the Contractor, take whatever steps are necessary to correct those deficiencies pursuant to Section 1-05.7.

The Contractor will not be allowed an extension of contract time because of a delay in the performance of the work attributable to the exercise of the Engineer's right hereunder.

Upon correction of all deficiencies, the Engineer will notify the Contractor and the Contracting Agency, in writing, of the date upon which the work was considered physically complete. That date shall constitute the Physical Completion Date of the contract, but shall not imply acceptance of the work or that all the obligations of the Contractor under the contract have been fulfilled.

*The following new subsection is added:*

(\*\*\*\*\*)

### **1-05.13 Superintendents, Labor and Equipment of Contractor**

*(August 14, 2013 APWA GSP)*

Delete the sixth and seventh paragraphs of this section.

**1-05.15 Method of Serving Notices**

*(January 4, 2024 APWA GSP)*

Revise the second paragraph to read:

All correspondence from the Contractor shall be served and directed to the Engineer. All correspondence from the Contractor constituting any notification, notice of protest, notice of dispute, or other correspondence constituting notification required to be furnished under the Contract, must be written in paper format, hand delivered or sent via certified mail delivery service with return receipt requested to the Engineer's office. Electronic copies such as e-mails or electronically delivered copies of correspondence will not constitute such notice and will not comply with the requirements of the Contract.

**1-05.16 Water and Power**

*(October 1, 2005 APWA GSP)*

The Contractor shall make necessary arrangements, and shall bear the costs for power and water necessary for the performance of the work, unless the contract includes power and water as a pay item.

**1-07 LEGAL RELATIONS AND RESPONSIBILITIES TO THE PUBLIC****1-07.1 Laws to be Observed**

*(October 1, 2005 APWA GSP)*

Supplement this section with the following:

In cases of conflict between different safety regulations, the more stringent regulation shall apply.

The Washington State Department of Labor and Industries shall be the sole and paramount administrative agency responsible for the administration of the provisions of the Washington Industrial Safety and Health Act of 1973 (WISHA).

The Contractor shall maintain at the project site office, or other well-known place at the project site, all articles necessary for providing first aid to the injured. The Contractor shall establish, publish, and make known to all employees, procedures for ensuring immediate removal to a hospital, or doctor's care, persons, including employees, who may have been injured on the project site. Employees should not be permitted to work on the project site before the Contractor has established and made known procedures for removal of injured persons to a hospital or a doctor's care.

The Contractor shall have sole responsibility for the safety, efficiency, and adequacy of the Contractor's plant, appliances, and methods, and for any damage or injury resulting from their failure, or improper maintenance, use, or operation. The Contractor shall be solely and completely responsible for the conditions of the project site, including safety for all persons and property in the performance of the work. This requirement shall apply continuously, and not be limited to normal working hours. The required or implied duty of the Engineer to conduct

construction review of the Contractor's performance does not, and shall not, be intended to include review and adequacy of the Contractor's safety measures in, on, or near the project site.

### **1-07.2 State Taxes**

*Delete this section, including its sub-sections, in its entirety and replace it with the following:*

(\*\*\*\*\*)

### **1-07.2 State Sales Tax**

*(June 27, 2011 APWA GSP)*

The Washington State Department of Revenue has issued special rules on the State sales tax. Sections 1-07.2(1) through 1-07.2(3) are meant to clarify those rules. The Contractor should contact the Washington State Department of Revenue for answers to questions in this area. The Contracting Agency will not adjust its payment if the Contractor bases a bid on a misunderstood tax liability.

The Contractor shall include all Contractor-paid taxes in the unit bid prices or other contract amounts. In some cases, however, state retail sales tax will not be included. Section 1-07.2(2) describes this exception.

The Contracting Agency will pay the retained percentage (or release the Contract Bond if a FHWA-funded Project) only if the Contractor has obtained from the Washington State Department of Revenue a certificate showing that all contract-related taxes have been paid (RCW 60.28.051). The Contracting Agency may deduct from its payments to the Contractor any amount the Contractor may owe the Washington State Department of Revenue, whether the amount owed relates to this contract or not. Any amount so deducted will be paid into the proper State fund.

#### **1-07.2(1) State Sales Tax — Rule 171**

WAC 458-20-171, and its related rules, apply to building, repairing, or improving streets, roads, etc., which are owned by a municipal corporation, or political subdivision of the state, or by the United States, and which are used primarily for foot or vehicular traffic. This includes storm or combined sewer systems within and included as a part of the street or road drainage system and power lines when such are part of the roadway lighting system. For work performed in such cases, the Contractor shall include Washington State Retail Sales Taxes in the various unit bid item prices, or other contract amounts, including those that the Contractor pays on the purchase of the materials, equipment, or supplies used or consumed in doing the work.

#### **1-07.2(2) State Sales Tax — Rule 170**

WAC 458-20-170, and its related rules, apply to the constructing and repairing of new or existing buildings, or other structures, upon real property. This includes, but is not limited to, the construction of streets, roads, highways, etc., owned by the state of Washington; water mains and their appurtenances; sanitary sewers and sewage disposal systems unless such sewers and disposal systems are within, and a part of, a street or road drainage system; telephone, telegraph, electrical power distribution lines, or other conduits or lines in or above streets or roads, unless such power lines become a part of a street or road lighting system; and installing or attaching of any article of tangible personal property in or to real property, whether or not such personal property becomes a part of the realty by virtue of installation.

For work performed in such cases, the Contractor shall collect from the Contracting Agency, retail sales tax on the full contract price. The Contracting Agency will automatically add this sales tax to each payment to the Contractor. For this reason, the Contractor shall not include the retail sales tax in the unit bid item prices, or in any other contract amount subject to Rule 170, with the following exception.

Exception: The Contracting Agency will not add in sales tax for a payment the Contractor or a subcontractor makes on the purchase or rental of tools, machinery, equipment, or consumable supplies not integrated into the project. Such sales taxes shall be included in the unit bid item prices or in any other contract amount.

**1-07.2(3) Services**

The Contractor shall not collect retail sales tax from the Contracting Agency on any contract wholly for professional or other services (as defined in Washington State Department of Revenue Rules 138 and 244).

**1-07.3(1) Fire Prevention Control and Countermeasures Plan**

*Section 1-07.3(1) is supplemented with the following:*

(\*\*\*\*\*)

The project area is in Fire Shutdown Zone 675. \*Partial hoot owl, Partial shutdowns, and General Shutdowns may come into effect during the operating period of this contract. For a summary of USFS Industrial Fire Precaution Levels, visit: <https://www.dnr.wa.gov/ifpl>.

The contractor is responsible for securing and maintaining any necessary IFPL work waivers.

The contractor may be required to develop and submit a Fire Prevention Plan.

**1-07.5 Environmental Regulations**

**1-07.5(1) General**

*Section 1-07.5(1) is supplemented with the following:*

(\*\*\*\*\*)

The Contractor is solely responsible for adhering to all environmental or other provisions outlined in the project permits, the Contract Documents, and all applicable local, state and federal laws.

The Contractor shall notify the Contracting Agency a minimum of \*\*\* 7 \*\*\* calendar days prior to commencing any work in sensitive areas, mitigation areas, and wetland buffers. Installation of construction fencing is excluded from this notice requirement.

Contact with regulatory agencies concerning the permits listed herein, shall be made through the Contracting Agency unless otherwise approved.

The Contractor will not operate equipment or discharge material within the boundaries of wetlands and the waters of the United States as defined by the federal and state regulatory agencies unless otherwise allowed by contract specific permits. If an unauthorized discharge occurs:

- a. Prevent further contamination;
- b. Notify appropriate authorities and the Contracting Officer; and
- c. Mitigate damages.

The Contractor will construct and maintain barriers in work areas and in material sources to prevent sediment, petroleum products, chemicals, and other liquids and solids from entering wetlands or waters of the United States. Remove and properly dispose of barrier collected material. There will be no revisions to any terms or conditions of permits without the approval of the issuing agency.

The project specific permits applied for or issued to date are listed in section 1-07.6 of these Special Provisions. All costs to comply with local, state and federal environmental commitments and requirements are incidental to the contract and are the responsibility of the Contractor.

### **1-07.5(2) State Department of Fish and Wildlife**

*Section 1-07.5(2) is supplemented with the following:*

(\*\*\*\*\*)

All in-water work must be completed when in-stream flows are below 3,200 cfs, and no later than April 30, 2026. If flows do not allow for completion of work within the above referenced timeframe, the Contractor will conduct work as soon as conditions allow, with authorization from the Contracting Agency and in compliance with the project permits. All costs to comply with this special provision are incidental to the Contract and are the responsibility of the Contractor. The Contractor shall include all related costs in the associated bid prices of the Contract.

### **1-07.6 Permits and Licenses**

*Section 1-07.6 is supplemented with the following:*

(\*\*\*\*\*)

The Contracting Agency has (or will) applied for or obtained the below-listed permit(s) for this project to-date. Additional permits may be applied for obtained prior to construction as necessary. A copy of the permit(s) obtained is attached as an appendix for informational purposes. Copies of these permits, are required to be onsite at all times. Contact with the permitting agencies, concerning the below-listed permit(s), shall be made through the contracting agency unless otherwise approved in writing. Work may not begin until all necessary project permits have been received by the Contracting Agency and/or provided to the Contractor. No compensations will be made for construction related delays associated with delays in permit approval and/or receipt. The Contractor will be solely responsible for any violations arising out of commencement of work prior to the receipt of necessary permit approvals.

NAME OF DOCUMENT	PERMITTING AGENCY	PERMIT REFERENCE NO.	STATUS
Hydraulic Project Approval	WDFW	TBD	Pending
Nationwide Permit	USACOE	TBD	Pending

**1-07.9 Wages**

**1-07.9(1) General**

*Section 1-07.9(1) is supplemented with the following:*

(\*\*\*\*\*)

This project is subject to both WA State and Federal hourly minimum rates for wages and fringe benefits.

The Contractor shall pay prevailing wage rates of Federal or State of Washington which are in effect at the time of the execution of the contract and whichever are the higher, in accordance with the requirements of the special provisions.

The Federal wage rates incorporated in this contract have been established by the Secretary of Labor under United States Department of Labor. The contractor shall use the wage determinations which are in effect under the Davis-Bacon Act for Public Works Contracts for Heavy Construction within Chelan County at the time of the bid opening date. Federal Wage Determinations are updated and posted at <https://sam.gov/content/wage-determinations>.

When required to comply with the federal labor standards, 29 CFR S5.5 applies. This can be accessed via this link. <https://www.ecfr.gov/current/title-29/subtitle-A/part-5#5.5>

The State Prevailing Wage rates incorporated in this contract are applicable to all construction activities associated with this contract and in effect for Chelan County at the time of Bid Opening. Wage Determinations, prevailing wage rates, and benefit key codes established by the State of Washington’s Department of Labor and Industries are posted and updated at <https://lni.wa.gov/licensing-permits/public-works-projects/prevailing-wage-rates/>.

**1-07.9(5)A Required Documents**

*(February 17, 2026 APWA GSP, Option A)*

Revise this section to read:

All Statements of Intent to Pay Prevailing Wages and Affidavits of Wages Paid, including a signed Statement of Compliance for Federal-aid projects, shall be submitted to the Engineer and entered into the State L&I online Prevailing Wage Intent & Affidavit (PWIA) system. In addition to entries made in the PWIA system, all Certified Payrolls must be submitted weekly to the Contracting Agency with a legally valid signature.

(\*\*\*\*\*)

### **Intent and Affidavits**

On forms provided by the Industrial Statistician of State L&I, the Contractor shall submit to the Contracting Agency the following for themselves and for each firm covered under RCW 39.12 that will or has provided Work and materials for the Contract:

1. The approved "Statement of Intent to Pay Prevailing Wages" State L&I's form number F700-029-000. The Contracting Agency will make no payment under this Contract until this statement has been approved by State L&I and reviewed by the Engineer.
2. The approved "Affidavit of Prevailing Wages Paid", State L&I's form number F700-007-000. The Contracting Agency will not grant Completion until all approved Affidavit of Wages paid for the Contractor and all Subcontractors have been received by the Contracting Agency. The Contracting Agency will not release to the Contractor any funds retained under RCW 60.28.011 until "Affidavit of Prevailing Wages Paid" forms have been approved by State L&I and all of the approved forms have been submitted to the Engineer for every firm that worked on the Contract.

The Contractor is responsible for requesting these forms from State L&I and for paying any fees required by State L&I.

### **Certified Payrolls**

Certified payrolls are required to be submitted by the Contractor for themselves, all Subcontractors and all lower tier subcontractors. The payrolls shall be submitted weekly on all Federal-aid projects and no less than monthly on State funded projects. Certified Payroll Reports (CPR's) are required to be submitted for review by the Contracting Agency prior to payment of any applicable invoices.

### **Penalties for Noncompliance**

The Contractor is advised, if these payrolls are not supplied within the prescribed deadlines, any or all payments may be withheld until compliance is achieved. In addition, failure to provide these payrolls may result in other sanctions as provided by State laws (RCW 39.12.050) and/or Federal regulations (29 CFR 5.12).

### **1-07.11 Requirements for Nondiscrimination**

*(October 1, 2020 APWA GSP, Option A)*

*Supplement this section with the following:*

#### **Disadvantaged Business Enterprise Participation**

No preference will be included in the evaluation of Bids/Proposals, no minimum level of DBE participation shall be required as a Condition of Award and Bids/Proposals may not be rejected or considered non-responsive on that basis.

#### **DBE Goals**

No DBE goals have been assigned as part of this Contract.

**Affirmative Efforts to Solicit DBE Participation**

The Contractor shall not discriminate on the grounds of race, gender, color, sex, national origin, age, or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. DBE firms shall have an equal opportunity to compete for subcontracts in which the Contractor enters into pursuant to this Contract.

**1-07.16 Protection and Restoration of Property**

**1-07.16(1) Private/Public Property**

*Supplement this Section with the following:*

(\*\*\*\*\*)

The Contractor shall restore the private access road to original or better condition upon completion of the Work. Unlike the temporary access roads that are established to complete the Work, the existing private access road will not require decompaction.

The Contractor shall prevent damage to existing asphalt/ pavement outside the limits of excavation or pavement removal. The Contractor shall utilize steel plates, composite matting, rubber tracks, or other similar protective measures to ensure that no damage to existing asphalt /pavement outside the limits of excavation occurs due to any activity performed by the Contractor or agents of the Contractor, including but not limited to operation of tracked equipment and staging or handling of construction materials. The Contractor shall be responsible for repairing all such damage at no additional cost to the Contracting Agency.

The Contractor shall exercise care while completing the Work to avoid any damage to existing fencing materials and decorative fixtures present at the sites. All costs associated with repairing any damage that occurs as a result of Contractor actions shall be the responsibility of the Contractor.

**1-07.17 Utilities and Similar Facilities**

*Section 1-07.17 is supplemented with the following:*

(\*\*\*\*\*)

Locations and dimensions shown in the Plans for existing facilities are in accordance with available information obtained without uncovering, measuring, or other verification. There is an overhead power line and poles at the north end of the Project Area, as shown on the Plans. There are no other known utilities present within the work area. It is the responsibility of the Contractor to coordinate a locate for the site prior to conducting any ground disturbing work.

The following addresses and telephone numbers of utility companies or their Contractors are listed below:

**Chelan County Public Utility District**

Dial 811 or 800-424-5555

**1-07.18 Public Liability and Property Damage Insurance**

Delete this section in its entirety, and replace it with the following:

**1-07.18 Insurance**

*(January 4, 2024 APWA GSP)*

**1-07.18(1) General Requirements**

- A. The Contractor shall procure and maintain the insurance described in all subsections of section 1-07.18 of these Special Provisions, from insurers with a current A. M. Best rating of not less than A-VII and licensed to do business in the State of Washington. The Contracting Agency reserves the right to approve or reject the insurance provided, based on the insurer's financial condition.
- B. The Contractor shall keep this insurance in force without interruption from the commencement of the Contractor's Work through the term of the Contract and for thirty (30) days after the Physical Completion date, unless otherwise indicated below.
- C. If any insurance policy is written on a claims-made form, its retroactive date, and that of all subsequent renewals, shall be no later than the effective date of this Contract. The policy shall state that coverage is claims made and state the retroactive date. Claims-made form coverage shall be maintained by the Contractor for a minimum of 36 months following the Completion Date or earlier termination of this Contract, and the Contractor shall annually provide the Contracting Agency with proof of renewal. If renewal of the claims made form of coverage becomes unavailable, or economically prohibitive, the Contractor shall purchase an extended reporting period ("tail") or execute another form of guarantee acceptable to the Contracting Agency to assure financial responsibility for liability for services performed.
- D. The Contractor's Automobile Liability, Commercial General Liability and Excess or Umbrella Liability insurance policies shall be primary and non-contributory insurance as respects the Contracting Agency's insurance, self-insurance, or self-insured pool coverage. Any insurance, self-insurance, or self-insured pool coverage maintained by the Contracting Agency shall be excess of the Contractor's insurance and shall not contribute with it.
- E. The Contractor shall provide the Contracting Agency and all additional insureds with written notice of any policy cancellation, within two business days of their receipt of such notice.
- F. The Contractor shall not begin Work under the Contract until the required insurance has been obtained and approved by the Contracting Agency.
- G. Failure on the part of the Contractor to maintain the insurance as required shall constitute a material breach of contract, upon which the Contracting Agency may, after giving five business days' notice to the Contractor to correct the breach, immediately terminate the Contract or, at its discretion, procure or renew such insurance and pay any and all premiums in connection therewith, with any sums so expended to be repaid to the Contracting Agency on demand, or at the sole discretion of the Contracting Agency, offset against funds due the Contractor from the Contracting Agency.

- H. All costs for insurance shall be incidental to and included in the unit or lump sum prices of the Contract and no additional payment will be made.
- I. Under no circumstances shall a wrap up policy be obtained, for either initiating or maintaining coverage, to satisfy insurance requirements for any policy required under this Section. A “wrap up policy” is defined as an insurance agreement or arrangement under which all the parties working on a specified or designated project are insured under one policy for liability arising out of that specified or designated project.

### **1-07.18(2) Additional Insured**

All insurance policies, with the exception of Workers Compensation, and of Professional Liability and Builder’s Risk (if required by this Contract) shall name the following listed entities as additional insured(s) using the forms or endorsements required herein:

- the Contracting Agency and its officers, elected officials, employees, agents, and volunteers;
- Inter-Fluve, Inc. (Project Engineer) and its officers, elected officials, employees, agents, and volunteers;
- City of Cashmere and its officers, elected officials, employees, agents, and volunteers;

The above-listed entities shall be additional insured(s) for the full available limits of liability maintained by the Contractor, irrespective of whether such limits maintained by the Contractor are greater than those required by this Contract, and irrespective of whether the Certificate of Insurance provided by the Contractor pursuant to 1-07.18(4) describes limits lower than those maintained by the Contractor.

For Commercial General Liability insurance coverage, the required additional insured endorsements shall be at least as broad as ISO forms CG 20 10 10 01 for ongoing operations and CG 20 37 10 01 for completed operations.

### **1-07.18(3) Subcontractors**

The Contractor shall cause each subcontractor of every tier to provide insurance coverage that complies with all applicable requirements of the Contractor-provided insurance as set forth herein, except the Contractor shall have sole responsibility for determining the limits of coverage required to be obtained by subcontractors.

The Contractor shall ensure that all subcontractors of every tier add all entities listed in 1-07.18(2) as additional insureds, and provide proof of such on the policies as required by that section as detailed in 1-07.18(2) using an endorsement as least as broad as ISO CG 20 10 10 01 for ongoing operations and CG 20 37 10 01 for completed operations.

Upon request by the Contracting Agency, the Contractor shall forward to the Contracting Agency evidence of insurance and copies of the additional insured endorsements of each subcontractor of every tier as required in 1-07.18(4) Verification of Coverage.

### **1-07.18(4) Verification of Coverage**

The Contractor shall deliver to the Contracting Agency a Certificate(s) of Insurance and endorsements for each policy of insurance meeting the requirements set forth herein when the Contractor delivers the signed Contract for the Work. Failure of Contracting Agency to demand such verification of coverage

with these insurance requirements or failure of Contracting Agency to identify a deficiency from the insurance documentation provided shall not be construed as a waiver of Contractor's obligation to maintain such insurance.

Verification of coverage shall include:

1. An ACORD certificate or a form determined by the Contracting Agency to be equivalent.
2. Copies of all endorsements naming Contracting Agency and all other entities listed in 1-07.18(2) as additional insured(s), showing the policy number. The Contractor may submit a copy of any blanket additional insured clause from its policies instead of a separate endorsement.
3. Any other amendatory endorsements to show the coverage required herein.
4. A notation of coverage enhancements on the Certificate of Insurance shall not satisfy these requirements – actual endorsements must be submitted.
5. All insurance coverage maintained or procured pursuant to this agreement shall be endorsed to waive subrogation against the Contracting Agency, its elected or appointed officers, agents, officials, employees, and volunteers or shall specifically allow the Contractor or others providing insurance evidence in compliance with these Specifications to waive their right of subrogation prior to a loss. The Contractor hereby waives its own right of subrogation against the Contracting Agency and shall require similar written express waivers and insurance clauses from each of its subcontractors.

Upon request by the Contracting Agency, the Contractor shall forward to the Contracting Agency a full and certified copy of the insurance policy(s). If Builders Risk insurance is required on this Project, a full and certified copy of that policy is required when the Contractor delivers the signed Contract for the Work.

#### **1-07.18(5) Coverages and Limits**

The insurance shall provide the minimum coverages and limits set forth below. Contractor's maintenance of insurance, its scope of coverage, and limits as required herein shall not be construed to limit the liability of the Contractor to the coverage provided by such insurance, or otherwise limit the Contracting Agency's recourse to any remedy available at law or in equity.

All deductibles and self-insured retentions must be disclosed and are subject to approval by the Contracting Agency. The cost of any claim payments falling within the deductible or self-insured retention shall be the responsibility of the Contractor. In the event an additional insured incurs a liability subject to any policy's deductibles or self-insured retention, said deductibles or self-insured retention shall be the responsibility of the Contractor.

#### **1-07.18(5)A Commercial General Liability**

Commercial General Liability insurance shall be written on coverage forms at least as broad as ISO occurrence form CG 00 01, including but not limited to liability arising from premises, operations, stop gap liability, independent contractors, products-completed operations, personal and advertising injury, and liability assumed under an insured contract. There shall be no exclusion for liability arising from explosion, collapse or underground property damage.

The Commercial General Liability insurance shall be endorsed to provide a per project general aggregate limit, using ISO form CG 25 03 05 09 or an equivalent endorsement.

Contractor shall maintain Commercial General Liability Insurance arising out of the Contractor’s completed operations for at least three years following Substantial Completion of the Work.

Such policy must provide the following minimum limits:

\$1,000,000	Each Occurrence
\$2,000,000	General Aggregate
\$2,000,000	Products & Completed Operations Aggregate
\$1,000,000	Personal & Advertising Injury each offence
\$1,000,000	Stop Gap / Employers’ Liability each accident

**1-07.18(5)B Automobile Liability**

Automobile Liability shall cover owned, non-owned, hired, and leased vehicles; and shall be written on a coverage form at least as broad as ISO form CA 00 01. If the Work involves the transport of pollutants, the automobile liability policy shall include MCS 90 and CA 99 48 endorsements.

Such policy must provide the following minimum limit:

\$1,000,000	Combined single limit each accident
-------------	-------------------------------------

**1-07.18(5)C Workers’ Compensation**

The Contractor shall comply with Workers’ Compensation coverage as required by the Industrial Insurance laws of the State of Washington.

**1-07.24 Rights of Way**

*(April 22, 2025 APWA GSP)*

Delete this section and replace it with the following:

Street Right of Way lines, limits of easements, and limits of construction permits are indicated in the Plans. The Contractor’s construction activities shall be confined within these limits unless arrangements for use of private property are made as described below.

Generally, the Contracting Agency will have obtained, prior to bid opening, all rights of way and easements, both permanent and temporary, necessary for carrying out the work. Exceptions to this are noted in the Bid Documents or will be brought to the Contractor’s attention by a duly issued Addendum.

Whenever any of the work is accomplished on or through property other than public Right of Way, the Contractor shall meet and fulfill all covenants and stipulations of any easement agreement obtained by the Contracting Agency from the owner of the private property. Copies of the easement agreements may be included in the Contract Provisions or made available to the Contractor as soon as practical after they have been obtained by the Engineer.

Whenever easements or rights of entry have not been acquired prior to advertising, these areas are so noted in the Plans. The Contractor shall not proceed with any portion of the work in areas where right of way, easements or rights of entry have not been acquired until the Engineer certifies to the Contractor that the right of way or easement is available or that the right of entry has been received.

If the Contractor is delayed due to acts of omission on the part of the Contracting Agency in obtaining easements, rights of entry or right of way, the Contractor will be entitled to an extension of time. The Contractor agrees that such delay shall not be a breach of contract.

Each property owner shall be given 48 hours' notice prior to entry by the Contractor. This includes entry onto easements and private property where private improvements must be adjusted.

The Contractor shall be responsible for providing, without expense or liability to the Contracting Agency, any additional land and access thereto that the Contractor may desire for temporary construction facilities, storage of materials, or other Contractor needs. However, before using any private property, whether adjoining the work or not, the Contractor shall file with the Engineer a written permission of the private property owner, and, upon vacating the premises, a written release from the property owner of each property disturbed or otherwise interfered with by reasons of construction pursued under this contract. The statement shall be signed by the private property owner, or proper authority acting for the owner of the private property affected, stating that permission has been granted to use the property and all necessary permits have been obtained or, in the case of a release, that the restoration of the property has been satisfactorily accomplished. The statement shall include the parcel number, address, and date of signature. Written releases must be filed with the Engineer before the Completion Date will be established.

**1-08 PROSECUTION AND PROGRESS**

*Add the following new section and subsections:*

(\*\*\*\*\*)

**1-08.0 Preliminary Matters**

*(May 25<sup>th</sup>, 2006 APWA GSP)*

**1-08.0(1) Preconstruction Conference**

*(October 21, 2025 APWA GSP)*

Prior to the Contractor beginning the work, a preconstruction conference will be held between the Contractor, the Engineer and such other interested parties as may be invited. The purpose of the preconstruction conference will be:

1. To review the initial progress schedule;
2. To establish a working understanding among the various parties associated or affected by the work;
3. To establish and review procedures for progress payment, notifications, approvals, submittals, etc.;
4. To review Training or Apprenticeship Plans, when applicable.
5. To discuss FSBE Goals when applicable.
6. To establish normal working hours for the work;
7. To review safety standards and traffic control; and
8. To discuss such other related items as may be pertinent to the work.

The Contractor shall prepare and submit at the preconstruction meeting the following:

1. A breakdown of all lump sum items;
2. A preliminary schedule of working drawing submittals; and
3. A list of material sources for approval if applicable.

### **1-08.0(2) Hours of Work**

(\*\*\*\*\*)

The Contractor shall indicate what their normal working hours for the project will be as part of their Project Schedule submittal. Except in the case of emergency or unless otherwise approved by the Contracting Agency or Engineer, the normal working hours for all work, including moving and cleanup of equipment shall be 40 work week hours comprised of any consecutive 8 or 10-hour period between 7:00 a.m. and 6:30 p.m. Monday through Friday, exclusive of a lunch break. No weekend work shall be allowed. If the Contractor desires different than the normal working hours stated above, the request must be submitted in writing prior to the preconstruction conference, subject to the provisions below. The working hours for the Contract shall be established at or prior to the preconstruction conference.

All working hours and days are also subject to local permit and ordinance conditions (such as noise ordinances).

If the Contractor wishes to deviate from the established working hours, the Contractor shall submit a written request to the Contracting Agency and Engineer for consideration. This request shall state what hours are being requested, and why. Requests shall be submitted for review no later than 3 (three) working days prior to the day(s) the Contractor is requesting to change the hours. Permission to work holidays, or other than the agreed upon normal straight time working hours may be given subject to certain other conditions set forth by the Contracting Agency. These conditions may include but are not limited to:

1. On non-Federal aid projects, requiring the Contractor to reimburse the Contracting Agency for the costs in excess of straight-time costs for Contracting Agency representatives who worked during such times. (The Contracting Agency and/or Engineer may require designated representatives to be present during the work. Representatives who may be deemed necessary by the Contracting Agency and/or Engineer include, but are not limited to: survey crews; personnel from the Contracting Agency's material testing lab; inspectors; and other Contracting Agency and/or Engineer employees when in the opinion of the Contracting Agency and/or Engineer, such work necessitates their presence. )
2. Considering the work performed on Saturdays, Sundays, and holidays as working days with regard to the contract time.
3. Considering multiple work shifts as multiple working days with respect to contract time, even though the multiple shifts occur in a single 24-hour period.
4. If a 4-10 work schedule is requested and approved the non-working day for the week will be charged as a working day.
5. If Davis Bacon wage rates apply to this Contract, all requirements must be met and recorded properly on certified payroll

### **1-08.1 Subcontracting**

*(December 30, 2022 APWA GSP, Option A)*

*Section 1-08.1 is supplemented with the following:*

Prior to any subcontractor or lower tier subcontractor beginning work, the Contractor shall submit to the Engineer a certification (WSDOT Form 420-004) that a written agreement between the Contractor and the subcontractor or between the subcontractor and any lower tier subcontractor has been executed. This certification shall also guarantee that these subcontract agreements include all the documents required by the Special Provision Federal Agency Inspection.

A subcontractor or lower tier subcontractor will not be permitted to perform any work under the contract until the following documents have been completed and submitted to the Engineer:

1. Request to Sublet Work (WSDOT Form 421-012), and
2. Contractor and Subcontractor or Lower Tier Subcontractor Certification for Federal-aid Projects (WSDOT Form 420-004).

The Contractor shall submit to the Engineer a completed Monthly Retainage Report (WSDOT Form 272-065) within 15 calendar days after receipt of every monthly progress payment until every subcontractor and lower tier subcontractor's retainage has been released.

The Contractor's records pertaining to the requirements of this Special Provision shall be open to inspection or audit by representatives of the Contracting Agency during the life of the contract and for a period of not less than three years after the date of acceptance of the contract. The Contractor shall retain these records for that period. The Contractor shall also guarantee that these records of all subcontractors and lower tier subcontractors shall be available and open to similar inspection or audit for the same time period.

### **1-08.3(2)A Type A Progress Schedule**

*Revise this section to read:*

(\*\*\*\*\*)

The Contractor shall submit a Type A Progress Schedule at least 1 week prior to the preconstruction conference, or some other mutually agreed upon submittal time. The schedule may be a critical path method (CPM) schedule, bar chart, or other standard schedule format. Regardless of which format used, the schedule shall identify the critical path. The Contracting Agency and Engineer will evaluate the Type A Progress Schedule and approve or return the schedule for corrections within 15 calendar days of receiving the submittal.

### **1-08.4 Prosecution of Work**

*Delete this section and replace it with the following:*

(\*\*\*\*\*)

### **1-08.4 Notice to Proceed and Prosecution of Work**

*(February 17, 2026 APWA GSP)*

Notice to Proceed will be given after the Contract has been executed and the contract bond and evidence of insurance have been approved and filed by the Contracting Agency. The Contractor shall not commence with the Work until the Notice to Proceed has been given by the Engineer. The

Contractor shall commence construction activities on the project site within ten days of the Notice to Proceed Date, unless otherwise approved in writing. The Contractor shall diligently pursue the Work to the Physical Completion Date within the time specified in the Contract. Voluntary shutdown or slowing of operations by the Contractor shall not relieve the Contractor of the responsibility to complete the Work within the time(s) specified in the Contract.

When shown in the Plans, the first order of Work shall be the installation of high visibility fencing to delineate all areas for protection or restoration, as described in the Contract. Installation of high visibility fencing adjacent to the roadway shall occur after the placement of all necessary signs and traffic control devices in accordance with 2-04.3. Upon construction of the fencing, the Contractor shall request the Engineer to inspect the fence. No other Work shall be performed on the site until the Contracting Agency has accepted the installation of high visibility fencing, as described in the Contract.

### **1-08.5 Time for Completion**

(\*\*\*\*\*)

*Section 1-08.5 is supplemented with the following:*

The targeted completion date for this work is April 30, 2026. However, all in-water work must be completed when in-stream flows are below 3,200 cfs per the project permits. If in-stream flows do not allow for completion of work within the above referenced timeframe, the Contractor will conduct work as soon as conditions allow, with authorization from the Contracting Agency and in compliance with any date requirements listed in the project permits.

No payment shall be made for standby time or delays resulting from weather, natural disasters or other acts of God, including Industrial Fire Precaution Level work restrictions. Overall Performance Period may be extended to reflect delays from natural disasters. It is the sole responsibility of the Contractor to comply with all applicable IFPL and/or fire suppression requirements and/or restrictions set in place.

*(February 17, 2026 APWA GSP, Option A)*

Revise the third and fourth paragraphs to read:

Contract time shall begin on the first working day following the Notice to Proceed Date.

Each working day shall be charged to the Contract as it occurs, until the Contract Work is physically complete. If substantial completion has been granted and all the authorized working days have been used, charging of working days will cease. Each week the Engineer will provide the Contractor a statement that shows the number of working days: (1) charged to the Contract the week before; (2) specified for the physical completion of the Contract; and (3) remaining for the physical completion of the Contract. The statement will also show the nonworking days and all partial or whole days the Engineer declares as unworkable. The statement will be identified as a Written Determination by the Engineer. If the Contractor does not agree with the Written Determination of working days, the Contractor shall pursue the protest procedures in accordance with Section 1-04.5. By failing to follow the procedures of Section 1-04.5, the Contractor shall be deemed as having accepted the statement as correct. If the Contractor is approved to work 10 hours a day and 4 days a week (a 4-10

schedule) and the fifth day of the week in which a 4-10 shift is worked would ordinarily be charged as a working day then the fifth day of that week will be charged as a working day whether or not the Contractor works on that day.

Revise the sixth paragraph to read:

The Engineer will give the Contractor written notice of the Completion Date of the Contract after all the Contractor's obligations under the Contract have been performed by the Contractor. The following events must occur before the Completion Date can be established:

1. The physical Work on the project must be complete; and
2. The Contractor must furnish all documentation required by the Contract and required by law, to allow the Contracting Agency to process final acceptance of the Contract. The following documents must be received by the Engineer prior to establishing a completion date:
  - a. Certified Payrolls (per Section 1-07.9(5)).
  - b. Material Acceptance Certification Documents
  - c. Monthly Reports in DMCS of the amounts paid including the final payment confirmation to all firms required by Section 1-08.1(7)A if applicable
  - d. Final Contract Voucher Certification
  - e. Copies of the approved "Affidavit of Prevailing Wages Paid" for the Contractor and all subcontractors
  - f. A copy of the Notice of Termination sent to the Washington State Department of Ecology (Ecology); the elapse of 30 calendar days from the date of receipt of the Notice of Termination by Ecology; and no rejection of the Notice of Termination by Ecology. This requirement will not apply if the Construction Stormwater General Permit is transferred back to the Contracting Agency in accordance with Section 8-01.3(16).
  - g. Property owner releases per Section 1-07.24

### **1-08.9 Liquidated Damages**

*(February 17, 2026 APWA GSP, Option B)*

Revise the second and third paragraphs to read:

Accordingly, the Contractor agrees:

1. To pay (according to the following formula) liquidated damages for each working day beyond the number of working days established for Physical Completion, and
2. To authorize the Contracting Agency or Engineer to deduct these liquidated damages from any money due or coming due to the Contractor.

#### **Liquidated Damages Formula**

$$LD=0.15C/T$$

Where:

LD = liquidated damages per working day (rounded to the nearest dollar)

C = original Contract amount

T = original time for Physical Completion

When the Contract Work has progressed to Substantial Completion as defined in the Contract, the Engineer may determine the Contract Work is Substantially Complete. The Engineer will notify the Contractor in writing of the Substantial Completion Date. For overruns in Contract time occurring after the date so established, the formula for liquidated damages shown above will not apply. For overruns in Contract time occurring after the Substantial Completion Date, liquidated damages shall be assessed on the basis of direct engineering and related costs assignable to the project until the actual Physical Completion Date of all the Contract Work. The Contractor shall complete the remaining Work as promptly as possible. Upon request by the Engineer, the Contractor shall furnish a written schedule for completing the physical Work on the Contract.

## **1-09 PAYMENTS**

### **1-09.6 Force Account**

*(December 30, 2022 APWA GSP)*

Supplement this section with the following:

The Contracting Agency has estimated and included in the Proposal, dollar amounts for all items to be paid per force account, only to provide a common proposal for Bidders. All such dollar amounts are to become a part of Contractor's total bid. However, the Contracting Agency does not warrant expressly or by implication, that the actual amount of work will correspond with those estimates. Payment will be made on the basis of the amount of work actually authorized by the Engineer.

### **1-09.9 Payments**

*(February 17, 2026 APWA GSP, Option B)*

Delete the fourth paragraph and replace it with the following:

Progress payments for completed Work and material on hand will be based upon progress estimates prepared by the Engineer. A progress estimate cutoff date will be established at the preconstruction conference.

The initial progress estimate will be made not later than 30 days after the Contractor commences the Work, and successive progress estimates will be made every month thereafter until the Completion Date. Progress estimates made during progress of the Work are tentative, and made only for the purpose of determining progress payment. The progress estimates are subject to change at any time prior to the calculation of the Final Payment.

The value of the progress estimate will be the sum of the following:

1. Unit Price Items in the Bid Form — the approximate quantity of acceptable units of work completed multiplied by the unit price.
2. Lump Sum Items in the Bid Form — based on the approved Contractor's lump sum breakdown for that item, or absent such a breakdown, based on the Engineer's determination.
3. Materials on Hand — 100 percent of invoiced cost of material delivered to Job site or other storage area approved by the Engineer.

4. Change Orders — entitlement for approved extra cost or completed extra work as determined by the Engineer.

Progress payments will be made in accordance with the progress estimate less:

1. Retainage per Section 1-09.9(1), on non FHWA-funded projects;
2. The amount of Progress Payments previously made; and
3. Funds withheld by the Contracting Agency for disbursement in accordance with the Contract Documents.

Progress payments for work performed shall not be evidence of acceptable performance or an admission by the Contracting Agency that any work has been satisfactorily completed. The determination of payments under the contract will be final in accordance with Section 1-05.1.

The sixth paragraph of Section 1-09.9 is deleted.

### **1-09.11 Disputes and Claims**

#### **1-09.11(3) Time Limitation and Jurisdiction**

*(December 30<sup>th</sup>, 2022 APWA GSP)*

*Revise this section to read:*

For the convenience of the parties to the Contract it is mutually agreed by the parties that all claims or causes of action which the Contractor has against the Contracting Agency arising from the Contract shall be brought within 180 calendar days from the date of final acceptance (Section 1-05.12) of the Contract by the Contracting Agency; and it is further agreed that all such claims or causes of action shall be brought only in the Superior Court of the county where the Contracting Agency headquarters is located, provided that where an action is asserted against a county, RCW 36.01.050 shall control venue and jurisdiction. The parties understand and agree that the Contractor's failure to bring suit within the time period provided, shall be a complete bar to all such claims or causes of action. It is further mutually agreed by the parties that when claims or causes of action which the Contractor asserts against the Contracting Agency arising from the Contract are filed with the Contracting Agency or initiated in court, the Contractor shall permit the Contracting Agency to have timely access to all records deemed necessary by the Contracting Agency to assist in evaluating the claims or action.

### **1-09.13 Claims Resolution**

#### **1-09.13(1)A General**

*(December 30, 2022 APWA GSP)*

Revise this section to read:

Prior to seeking claims resolution through arbitration or litigation, the Contractor shall proceed in accordance with Sections 1-04.5 and 1-09.11. The provisions of Sections 1-04.5 and 1-09.11 must be complied with in full as a condition precedent to the Contractor's right to seek claim resolution through binding arbitration or litigation.

Any claims or causes of action which the Contractor has against the Contracting Agency arising from the Contract shall be resolved, as prescribed herein, through binding arbitration or litigation.

The Contractor and the Contracting Agency mutually agree that those claims or causes of action which total \$1,000,000 or less, which are not resolved by mediation, shall be resolved through litigation unless the parties mutually agree in writing to resolve the claim through binding arbitration.

The Contractor and the Contracting Agency mutually agree that those claims or causes of action in excess of \$1,000,000, which are not resolved by mediation, shall be resolved through litigation unless the parties mutually agree in writing to resolve the claim through binding arbitration.

**1-09.13(3)A Arbitration General**

*(January 19, 2022 APWA GSP)*

*Revise the third paragraph to read:*

The Contracting Agency and the Contractor mutually agree to be bound by the decision of the arbitrator, and judgment upon the award rendered by the arbitrator may be entered in the Superior Court of the county in which the Contracting Agency’s headquarters is located, provided that where claims subject to arbitration are asserted against a county, RCW 36.01.050 shall control venue and jurisdiction of the Superior Court. The decision of the arbitrator and the specific basis for the decision shall be in writing. The arbitrator shall use the Contract as a basis for decisions.

**1-09.13(4) Venue for Litigation**

*(December 30<sup>th</sup>, 2022 APWA GSP)*

*Revise this section to read:*

Litigation shall be brought in the Superior Court of the county in which the Contracting Agency’s headquarters is located, provided that where claims are asserted against a county, RCW 36.01.050 shall control venue and jurisdiction of the Superior Court. It is mutually agreed by the parties that when litigation occurs, the Contractor shall permit the Contracting Agency to have timely access to all records deemed necessary by the Contracting Agency to assist in evaluating the claims or action.

**1-10 TEMPORARY TRAFFIC CONTROL**

**1-10.1(1) General**

*Section 1-10.1(1) is supplemented with the following:*

*(\*\*\*\*\*)*

The determination of when to use temporary traffic control and how to accomplish temporary traffic control shall be the responsibility of the Contractor’s and shall meet any relevant WSDOT requirements. The Contractor shall implement temporary traffic control as necessary to meet permit requirements and provide safe working conditions and driving conditions for all peoples. Any traffic control measures utilized for this project shall be conducted in such a way that allows for an open lane of travel at all times. If traffic on any public roadway will be disrupted due to construction activities,

the Contractor shall update their Traffic Control Plan and obtain any required authorization from the jurisdictional authority of the road system.

Only training with WSDOT TCS card and WSDOT training curriculum is recognized in the State of Washington. The Traffic Control Supervisor shall be certified by a TCOC approved training provider, a list of which can be found here. <https://wsdot.wa.gov/travel/traffic-safety-methods/work-zone-safety>

**1-10.2(2) Traffic Control Plans**

*Section 1-10.2(2) is supplemented with the following:*

(\*\*\*\*\*)

All traffic control for the duration of the project will be the responsibility of the Contractor to manage. The Contractor shall develop a Traffic Control Plan (TCP) which meets the requirements of this section and obtain any required authorization from the jurisdictional authority of the road system.

The Contractor shall submit Type 3 Working Drawings illustrating all elements of the proposed temporary traffic control plan for review and approval by the Contracting Agency and Engineer.

The Engineer or Contracting Agency retains the right to stop all Work and require immediate implementation of corrective measures if they determine at any time that Work is being conducted in a manner that is unsafe to the traveling public. Such corrective measures shall be implemented immediately at no cost to the Contracting Agency.

**1-10.4 Measurement**

No unit of measurement shall apply to work associated with Temporary Traffic Control. This is incidental to the Contract if needed.

**1-10.5 Payment**

*This section is supplemented with the following:*

(\*\*\*\*\*)

No unit of measurement shall apply to work associated with Temporary Traffic Control. This is incidental to the Contract if needed.

**DIVISION 2  
EARTHWORK**

**2-01 CLEARING, GRUBBING, AND ROADSIDE CLEANUP**

**2-01.1 Description**

*The first paragraph of this section is deleted and replaced with the following:*

(\*\*\*\*\*)

Prior to any clearing, the Contractor shall flag the extents of the limits of disturbance. The Owner’s Representative shall inspect and approve the Limit of Disturbance prior to the initiation of any site work

The Contractor shall clear within the locations identified on the Plans, and protect the vegetation outside of those limits. This Work includes protecting from harm all trees, bushes, shrubs, or other objects not within the clearing and grading limits or selected to remain.

If vegetation is to be cleared, the Contracting Agency may direct the Contractor to uproot and replant that vegetation. Any material removed will either be dispersed onsite or replanted. No material shall be hauled off-site.

**2-01.2 Disposal of Usable Material and Debris**

*The following new subsections are added:*

(\*\*\*\*\*)

**2-01.2(4) Disposal Method No. 4 – Replanting**

The Contracting Agency may direct the Contractor to uproot and replant vegetation that needs cleared. This work would be done at the direction of the Contracting Agency, and tracked via Force Account.

**2-01.2(5) Disposal Method No. 5 – Onsite Dispersal**

Any cleared material not suitable for replanting would be dispersed onsite within the project area at the direction of the Contracting Agency.

**2-01.3 Construction Requirements**

**2-01.3(1) Clearing**

*Section 2-01.3(1) is revised to read:*

(\*\*\*\*\*)

- 8. Stake and flag all areas of clearing at least 1 day prior to construction. The Contractor shall inform the Owner when the flagging is installed. The Owner will inspect proposed clearing areas.

9. Clearly flag or otherwise identify all branches proposed to be trimmed to allow for equipment access or material transport. Neatly cut all limbs or branches approved for removal close to the tree trunk.

#### **2-01.4 Measurement**

*This section is supplemented with the following:*

(\*\*\*\*\*)

The Force Account bid item “Revegetation” shall be measured per dollar for actual time, equipment and materials necessary to salvage and replant cleared vegetation onsite. No independent unit of measurement will apply to work associated with general clearing and dispersal of materials; that work is incidental to the Contract.

#### **2-01.5 Payment**

*This section is supplemented with the following:*

(\*\*\*\*\*)

Payment for the Force Account bid item “Revegetation” shall be made per dollar for actual time, equipment and materials necessary to salvage and replant cleared vegetation onsite. No independent unit of measurement will apply to work associated with general clearing and dispersal of materials; that work is incidental to the Contract.

**DIVISION 8  
MISCELLANEOUS CONSTRUCTION**

**8-05 VACANT**

Section 8-05 is replaced with the following:

(\*\*\*\*\*)

**8-05 TEMPORARY CONSTRUCTION ACCESS AND STAGING**

**8-05.1 Description**

The Contractor shall construct, maintain, remove, decommission, and clean up temporary construction access roads, temporary stream crossings, and staging areas.

No primary construction staging area is shown on the plans. The Contractor shall contain construction staging within the limits of disturbance unless otherwise approved by the Contracting Agency.

Prior to “Clearing”, the Contractor shall flag the limits of the temporary construction access routes and staging areas for Owner review and approval as described in Section 2-01.1.

The Contractor shall utilize the designated staging areas for staging equipment and stockpiling materials required to complete the Work included in the Contract. Refueling or storage or mixing of potentially environmentally harmful fluids shall only occur within areas identified as equipment staging and refueling areas and per applicable permit conditions.

**8-05.2 Materials**

The Contractor is responsible for providing all materials necessary to protect asphalt, the Concrete Boat Ramp and any other landscaping or infrastructure within the proposed access route. At minimum, the Contractor shall use rubber tracked equipment, or rubber/ steel sheets to protect these areas. These materials shall be outlined in the Contractors Temporary Access and Staging Plan.

**8-05.3 Construction Requirements**

The Contractor shall clearly stake the proposed centerline of all temporary access routes. No clearing or trimming of vegetation or ground-disturbing work is allowed until the staking of the temporary access routes has been approved by the Contracting Officer. It is the sole responsibility of the Contractor to protect surrounding property. Any damages to public and private property as a result of construction will be the responsibility of the Contractor to repair without additional cost to the Contracting Agency. The Contractor shall maintain and/or improve the Temporary Access Routes at no additional cost to the Contracting Agency based upon the direction of the Contracting Officer.

Vehicles and equipment may only be staged above ordinary high-water mark. All refueling, washing, inspection, and other general maintenance for construction equipment and vehicles shall occur within the limits of the primary staging area to be shown on the Contractors Temporary Access and Staging Plan and abide by the provisions of the HPA. All equipment, materials, and vehicles shall operate, be

staged or stockpiled within the limits of the staging area(s) shown on the Plans unless otherwise approved by the Contracting Agency.

The Contractor shall minimize the space required for completion of the Work. If the Contractor determines that additional room is required for staging of equipment or stockpiling of materials, the Contractor, Contracting Agency, and landowner shall agree on appropriate location(s).

All areas impacted by the construction of temporary access routes and staging areas shall be restored to pre-project conditions in accordance with the Plans and Section 8-02, or as directed by the Contracting Officer. Any sections of the existing paved or concreted areas that are used for construction access, staging, or contractor vehicle parking shall be restored to pre-project conditions at no additional cost to the Contracting Agency.

#### **8-05.3(4) Submittals**

The Contractor shall provide a Temporary Construction Access and Staging Plan that clearly illustrates the methods of installing, maintaining, and restoring all Temporary Construction Access Routes and Staging Areas. The Temporary Construction Access and Staging Plan may consist of markups on the Plans provided with this submittal, as long as all the relevant information is provided. A written narrative may also be helpful to illustrate the requirements below.

At a minimum, the Temporary Construction Access and Staging Plan shall provide the following information:

1. Locations of each access route.
2. Location of any proposed high-visibility construction fencing to provide separation between the access routes for adjacent property owners and Construction activities in both the Staging areas and the Construction sites.
3. Points of Contractor ingress and egress from staging areas and the construction sites.
4. All areas that will be temporarily filled, excavated, or surfaced with gravel or other materials in order to provide construction access or staging.
5. Locations of additional staging areas that are not already shown on the Plans.
6. Locations of temporary construction access routes that are not already shown on the Plans
7. Schedule and sequence of installation and restoration for each staging area and access route.
8. Materials.
9. Maintenance plan.

The Temporary Construction Access and Staging Plan shall be submitted to the Contracting Agency for approval a minimum of five (5) working days prior to the preconstruction conference and must be approved prior to mobilization to the site, or establishment of any temporary construction access routes or staging areas. The Contracting Agency or Engineer reserves the right to postpone commencement of the work, at no additional cost to itself, due to failure by the Contractor to supply an acceptable Temporary Construction Access and Staging Plan.

#### **8-05.4 Measurement**

No independent unit of measurement shall apply to the lump sum bid item for "Temporary Access and Staging."

## 8.05-5 Payment

The lump sum bid items “Temporary Access and Staging” shall be full pay for all labor, equipment, materials, and other incidentals required to develop the Temporary Construction Access and Staging Plan; establish, maintain, utilize and restore the temporary construction access routes and staging areas; identify, improve, maintain, and restore any additional temporary staging areas deemed necessary by the Contractor; protect existing concrete and asphalt pavement throughout the course of the Work as described in this section.

## 8-30 STREAMS, RIVERS, AND WATERBODIES

### 8-30.1 Description

*This section is replaced with the following:*

(\*\*\*\*\*)

This Work includes, regardless of the nature or type of materials encountered, all tasks required for excavating channel materials, placing and contouring excavated material in the locations shown on the plans.

All Work described here shall conform to the alignments, grades, and cross-sections shown in the Plans or established by the Engineer. As described in Section 1-05.4, digital design files to support the use of GPS/GNSS survey layout and machine control systems will be made available upon request.

Excavated material is expected to range from fine silts and sands to gravels and cobbles. Boulders of varying sizes may also likely be encountered during the Work. The Contractor shall not disturb the ground outside the limits of disturbance, unless the limits of disturbance are revised by the Owner.

### 8-30.2 Materials

*This section is supplemented with the following:*

(\*\*\*\*\*)

All material excavated from the work area will be placed and contoured on the adjacent cobble island.

### 8-30.3 Construction Requirements

*This section is supplemented with the following:*

(\*\*\*\*\*)

The Contractor shall perform excavation of the new side channels to achieve the design grades shown in the Plans and within the grading tolerances specified in Section 1-05.5. The Engineer reserves the right, during progress of Work, to vary slopes, grades, and dimensions of excavations from those shown on the Plans to avoid impacts to trees and sensitive areas.

The Contractor shall perform fine grading to shape the side channel and to roughen the finished cobble island grade surface within disturbed areas. Final shaping are field-set items to be accomplished with the review and concurrence of the Engineer. Grading includes, but is not limited to: Excavating, digging, ripping, ploughing and/or harrowing excavated and/or disturbed surfaces to achieve a variable, irregular disturbed surface condition.

Channel excavation can only occur when flows are below 3,200 cfs. Flow data for the project area can be found at [https://waterdata.usgs.gov/nwis/uv?site\\_no=12462500&legacy=1](https://waterdata.usgs.gov/nwis/uv?site_no=12462500&legacy=1).

**8-30.4 Measurement**

*This section is supplemented with the following:*

(\*\*\*\*\*)

“Channel Excavation” and “Placement of Excavated Materials” shall be measured by cubic yard.

**8-30.5 Payment**

Payment will be made per cubic yard in accordance with *Section 1-04.8* and *Section 1-09.9* for the following bid items:

“Channel Excavation”  
“Placement of Excavated Material”

Payment shall be considered full compensation for all equipment, labor, tools, materials, and incidentals necessary to complete the Work in Section 2-05 as specified and as shown on the plans.

**8-31 TEMPORARY STREAM DIVERSION**

*Section 8-31 is deleted and replaced with the following:*

(\*\*\*\*\*)

**8-31 TEMPORARY WORK AREA ISOLATION AND DEWATERING****8-31.1 Description**

This work consists of designing, furnishing, installing, operating, maintaining, removing, and disposing of measures for isolating construction activities from the surface waters and surrounding sensitive areas. This work also includes dewatering of in-stream or upland work areas, and other Work as detailed in these Specifications, the Plans, and in accordance with Project Permit requirements.

Dewatering may occur in conjunction with Temporary Work Area Isolation or as a stand-alone activity for excavations. This includes as necessary the bypassing of flow around the work areas, pumping water out of the isolated work area, installation of any necessary erosion control BMP's and other work as necessary to allow for completion and inspection of the work while maintaining Water Quality Standards and permit compliance. Except as authorized by Project Permits, anytime work occurs within the wetted channel, an isolated in-water work area shall be created. Isolated in-water work areas consist of a cofferdam, or other acceptable methods that keeps aquatic species and surface flow separated from turbid water in the active work area, and maintains State Water Quality Standards and permit compliance. The labor, materials, and equipment associated with restoring the streambed, channel banks, upland areas, and any other areas impacted by temporary work area isolation or dewatering facilities is incidental to this Work.

Limited geologic or groundwater information is available for the site. The Contracting Agency makes no assurances to the extent and/or difficulty of removal of water from the site nor the viability of upland

infiltration as a means for water management. It is the sole responsibility of the Contractor to determine the means and methods for managing water within the work areas.

### **8-31.2 Materials**

The Contractor shall detail all materials in the Temporary Water Management (TWM) Plan. Materials used shall comply with these Special Provisions and the Standard Specifications. All cobble used to fill the bulk bags for the cofferdam is available onsite.

#### **8-31.2(1) Plastic Sheeting**

Plastic sheeting used in construction of cofferdams or other work-area isolation measures shall be heavy duty reinforced poly sheeting with a minimum thickness of 10-mil and shall be wide enough to allow secure anchoring to the channel bed on the upstream and downstream sides of the cofferdam.

#### **8-31.2(2) Bulk Bags and Sand Bags**

The cofferdam used to stop water from flowing through the project area may use “bulk bags” and/or “sandbags.” Bulk bags shall be cube-shaped polypropylene woven fabrics with fully open tops, flat bottoms, four loops for lifting, minimum weight capacity of 2 tons, and 5:1 minimum safety factor. Bulk bags shall be in new condition. Sandbags shall be made from a burlap natural fiber material. Bulk bags and/or sandbags shall be filled with Streambed Sediment, Section 9-03.11(1), except with no more than 6 percent passing the No. 4 sieve, no more than 3 percent passing the No. 40 sieve, and no more than 2 percent passing the No. 200 sieve size. Project site sourced cobble, sand and gravel material may be used if determined by the Owner to comply with permit requirements.

#### **8-31.2(3) Turbidity Curtain**

The Contractor shall install a turbidity curtain at the downstream extents of the work area where shown on the plans.

All Work for the turbidity curtain shall be in accordance with the manufacturer’s recommendations for the site conditions. Removal procedures shall be developed and used to minimize silt release and disturbance of silt. The Contractor shall submit a Type 2 Working Drawing, detailing product information, installation and removal procedures, equipment and workforce needs, maintenance plans, and emergency repair/ replacement plans. Turbidity curtain materials, installation, and maintenance shall be sufficient to comply with water quality standards. All components of the turbidity curtain shall be removed from the project.

### **8-31.3 Construction Requirements**

#### **8-31.3(1) General**

##### **8-31.3(1)A General TWM Requirements**

The Work shall include compliance with Washington State Water Quality Standards in WAC 173-201A, project permits, environmental commitments, and these Provisions.

The Contractor shall include a bulk bag cofferdam in the locations shown on the plans.

Temporary site isolations, including all water that is retained by the isolation and the dewatering system, shall be located within the permitted impact areas as shown in the Plans. The diversion dam or coffer dam shall be constructed to a height sufficient to prevent stream flow from entering the work area.

### **8-31.3(1)B Temporary Work Area Isolation**

Prior to beginning work in an actively flowing channel, cofferdams or similar isolation structures shall be installed at or near locations shown on the Contract Plans to isolate the work area from surface flow. Temporary Work Area Isolation is defined as using cofferdams, turbidity curtains and/or other approved means to temporarily isolate a localized work area from active flow without rerouting the entire channel. A Temporary Work Area Isolation shall consist of a barrier to prevent surface water from entering the Work area and to prevent untreated turbid construction water from exiting the Work area.

The Contractor shall maintain the water level below the working level within excavations in the active work area to provide a dry active construction work area. The active work area shall be defined as the area where work is being completed, including excavation, grade and elevation checking, rock placement, backfill, and related activities. If the area is dewatered, pumps may be shut down and water allowed to pool in work areas outside of working hours, provided that doing so does not damage the work and turbid waters do not enter sensitive areas such as wetlands or waterbodies.

All Work within the isolated work zone shall be completed, along with any required inspections or approvals by the Engineer and/or Owner's Representative, before the work isolation measures are removed. Re-watering of the project area shall occur at a rate slow enough which avoids loss of surface water downstream and while maintaining water quality standards. The Contractor shall take all actions necessary to prevent the water from exceeding the turbidity standards during re-watering of the stream channel and immediately take any corrective measures necessary if turbidity is to increase during this sequence.

### **8-31.3(1)C Cofferdams and Diversion Dams**

Diversion dams and cofferdams shall be constructed using bulk bags, or other means approved by the Contracting Officer.

## **8-31.3(2) Temporary Water Management Plan**

### **8-31.3(2)A General Plan Requirements**

The Contractor shall submit a Temporary Water Management (TWM) Plan for review by the Contracting Agency. The TWM Plan shall comply with the requirements of a Type 2 Working Drawing and the Specifications and Contract Provisions. A separate TWM Plan shall be prepared and submitted for each temporary stream diversion. The Plan shall be submitted by the Contractor for approval a minimum of ten (10) working days prior to the preconstruction conference and must be approved prior to any in-water work.

The Contractor shall fully implement the TWM Plan throughout the duration of the associated Work. The Contractor shall update the TWM Plan throughout project construction to reflect actual site conditions and the Contractor's Work. Changes to plan shall comply with WAC 196-23-020. At the request of the Engineer an updated TWM Plan shall be submitted as a Type 2 Working Drawing. A copy of the TWM Plan shall be on the project site at all times. The Contractor shall incorporate the Sequencing of the TWM Plan into their overall Project Schedule.

The TWM Plan shall describe measures that will be taken to comply with Washington State Water Quality Standards in WAC 173-201A, applicable permits, environmental commitments and the Specifications and Contract Provisions.

The TWM Plan shall consist of a narrative and drawings detailing all temporary water management facilities and shall encompass all the areas affected by the Contractor's in-stream work or other areas where associated activities or dewatering may occur. The plan shall identify the sequences, methods and materials used to isolate and dewater the work area(s), and the materials, processes and procedures for management and handling of sediment laden water.

If the Contracting Agency does not approve the submitted plan, the Reviewer will provide written documentation explaining the cause for not approving the plan. The Contractor shall respond to the review documentation and resubmit the plan with revisions as necessary. The Contracting Agency or Engineer reserves the right to postpone commencement of the work, at no cost to itself, due to failure by the Contractor to supply an acceptable TWM Plan.

The Contracting Officer may request an updated TWM Plan at no additional cost to the Contracting Agency at any point during Construction if the Contractors installed means, methods or materials fail to meet the requirements of this section.

The Contractor shall be responsible for appropriately sizing the temporary water management facilities to complete the work. The depths and flow-rates within the stream, and the elevation and quantity of groundwater, varies depending on the time of year and between years depending on hydrologic conditions of the preceding winter and spring. It is the responsibility of the Contractor to design and implement, monitor, or modify as necessary all site isolation components necessary to ensure an isolated and dewatered work area during construction. Other methods that provide equal or better isolation or water management and include equal or fewer potential environmental impacts can be requested by the Contractor and will be considered by the Contracting Officer. Alternative methods can be used if approved; however, if any methods fail to meet the performance requirements of this section, the Contractor shall remove, replace or repair it at no additional cost to the Contracting Agency.

### **8-31.3(2)B Plan Requirements**

At a minimum, the TWM Plan shall provide the following information in the following order:

1. Descriptions of type, materials and Locations of each temporary stream diversion
  - a. Identify the name of the water body where the temporary stream diversion will be placed. Provide a description of the methods and materials being proposed.
  - b. Provide drawings showing the location of the temporary stream diversion, including proposed access routes and equipment to be used to construct the diversion.
  - c. Illustrate the locations of all dewatering sumps, discharge lines, and outfall areas.
2. Schedule and Sequence
  - a. Provide a detailed schedule and sequence showing all activities that illustrate how the Work will be completed within the in-water work window. This shall indicate the sequence of Work, dates, and durations for when the following will

occur, in accordance with the allowed in-water work window in the Special Provisions:

- i. Installation of the TWM Plan Components.
    - ii. Dewatering of the isolated work area as applicable.
    - iii. Restoration and stabilization of the isolated work area to prevent erosion.
    - iv. Relocations of the temporary stream diversion to accommodate the work sequence (if needed).
    - v. Removal of the TWM Plan components
  - b. Include other Work that needs to be coordinated with the TWM (e.g., temporary erosion control).
3. Work Area Isolation and Dewatering
  - a. Describe the means by which the height of the isolation can be increased an additional foot within 4 hours in the event that flow increases require an increase in isolation height. Provide contact information for the Construction Personnel responsible for adaptively managing increases in flows.
  - b. Include provisions for scour protection at the temporary stream diversion outfalls.
  - c. Identify the means and methods for dewatering including the handling, treatment and/or disposal of sediment laden water.
4. Contingency Plan (when required)
  - a. The Contractor shall include the details of the system in the TWM Plan sections that are applicable.
  - b. Describe the work that will be implemented and the materials to be used in the event of a storm producing streamflow in excess of the design flow requirement, equipment failure, vandalism, or other incident.
  - c. Provide the type and size of materials that will be used in the event of the work area becoming inundated, including fish exclusion coordination with Contracting Agency if the block nets are compromised.
  - d. Describe how the contingency equipment and materials will be stored, inspected and maintained so they are ready for use if required.
  - e. Describe how the contingency system will be deployed and operational within 2 hours, if required.
5. Inspection and Maintenance
  - a. Provide the schedule and frequency for inspection of the temporary water management facilities including the emergency contact information for the individuals inspecting and/or repairing.
  - b. Describe how maintenance and Contracting Agency notification will be conducted when inspections identify deficiencies in the TWM facilities. These include, but are not limited to, removal and disposal of trapped sediment and debris; repairing leaks; increasing height and/or width of isolation materials if flows approach 75% of the minimum capacity and any

other procedures employed by the Contractor to adapt to changing flow conditions.

- c. The Contractor shall keep a record of all inspections and maintenance of the temporary water management facilities and shall provide the records to the Contracting Officer when requested.
- d. The Contractor shall notify the Engineer within 12 hours of an emergency repair.

6. Removal of the TWM Facilities

- a. Describe the sequence that will be used for removing the TWM facilities and methods to prevent exceeding allowable water quality standards.

### **8-31.3(4) Dewatering Work Areas**

The Contractor shall design, install, operate, maintain, and remove a construction dewatering system as necessary to complete the work and ensure that water quality standards are met.

All pumps used for dewatering below ordinary high water shall have an intake covered with a fish screen, operated, and maintained in accordance with RCW 77.57.010 and RCW 77.57.070. Appropriate fish screens are as follows:

1. Perforated plate: 0.094 inch (maximum opening diameter);
2. Profile bar: 0.069 inch (maximum width opening); or
3. Woven wire: 0.094 inch (maximum opening measured on the diagonal).

The minimum open area for all types of fish screens is 27 percent. The screened intake facility must have enough surface area to ensure that the velocity through the screen complies with the velocity provided within the Hydraulic Project Approval (HPA). If no velocity is provided within the HPA, the maximum approach velocity shall not exceed 0.33 feet per second. The fish screen must remain in place whenever water is withdrawn until the Contracting Agency Biologists confirm all fish have been removed. At that point, the Contractor may remove the fish screen to finish dewatering the work area.

Dewatering pumps for temporary work area isolations are expected to be operational as needed only during working hours. Pumps shall be shut down and water allowed to pool in isolated work areas outside of working hours, provided that doing so does not damage the work, site isolation systems do not overtop, and turbid waters do not enter wetlands or waterbodies.

### **8-31.3(4)A Disposal of Dewatering Water**

Disposal of dewatering water shall be in accordance with water quality standards in WAC 173-201A. Turbid dewatering water encountered onsite may need to pass through BMPs to reduce sedimentation prior to discharge. Turbid dewatering water disposal options may include sheet flow dispersion and infiltration within vegetation onsite, transport in a vehicle for off-site legal disposal, or use of a sedimentation bag that discharges to a ditch or swale for small volumes of localized dewatering.

Outfalls must be located in upland areas that prevent turbid waters from flowing into sensitive areas such as wetlands or waterbodies. Outfall locations will be flagged by the Contractor and approved by the Engineer. Scour protection shall be provided at all outfalls to prevent erosion. The Contractor may propose

to pump sediment laden water upland for infiltration if such location is preidentified in their submittals, all landowner approvals have been granted and all information has been approved by the Contracting Agency. Neither the Contracting Agency nor the Engineer make any assurances or representations on the viability or availability of upland infiltration as a means of construction dewatering/discharge or the levels or velocity of water that may be encountered during construction.

If shown on the Plans, an infiltration pit shall be excavated at the outfall location to manage the volume of dewatering water. The infiltration pit shall be restored to pre-project conditions following the completion of the Work. The area shall be backfilled and bladed to remove machinery tracks and artificial mounds of material. The ground surface shall be returned to the pre-project elevation immediately outside of the excavation footprint, and the area shall be reseeded.

Additional clearing of riparian vegetation or creation of temporary access roads to route dewatering pipes is not allowed. Pipes may be laid by hand through existing riparian forest, with the approval of the Engineer.

During in-water work, turbidity will be monitored in accordance with environmental permits obtained by the Contracting Agency and provided to the Contractor. If turbid water is exiting the isolated work area to the extent that it exceeds maximum allowable values listed in the environmental permits, in-water work shall cease until the issue has been corrected. Any extra work required to adjust, repair, replace or improve site isolation measures, or remove faulty isolations shall be done immediately and at no additional cost to the Contracting Agency. No payment will be made for standby time associated with the Contractor failing to comply with permit requirements.

### **8-31.3(5) Inspection and Maintenance**

At a minimum, the Contractor shall perform the following activities once per day (including weekends and holidays for temporary stream diversions):

1. Check for and correct leaks;
2. Check inlet and outlet for proper function.

The Contractor shall perform the following activities a minimum of three times per day or when requested by the Engineer. On working days, these activities shall be performed at the start, middle, and at the end of the working day. On non-working days, these activities shall be performed between 6:00 am and 8:00 am, between 11:00 am and 1:00 pm, and between 4:00 pm and 6:00 pm:

The Contractor shall maintain a written record of all inspection and maintenance activities; record to be available at the request of the Engineer.

### **8-31.3(6) Channel Rewatering and Removal of the Temporary Stream Diversion**

The Contractor shall introduce water to the isolated work area and trap sediments via the downstream turbidity curtain until the area meets all applicable turbidity standards. Once the water in the isolated area meets the applicable turbidity standards the Contractor may remove the turbidity curtain. The cofferdam shall be removed from the most stream ward side, working towards the bank to reduce the amount of instream disturbance. The Contractor shall take all actions necessary to prevent the water from exceeding the turbidity standards during rewatering of the stream channel and immediately take any corrective measures necessary if turbidity increases during removal of the temporary stream diversion.

The Contractor shall immediately take all corrective actions necessary to prevent the water from exceeding the turbidity standards should the stream turbidity increase. All Work within the channel, except for removal of the temporary erosion control items, shall be completed before the temporary stream diversion is removed. The Contractor must finish all construction activities within the limits of the Ordinary High-Water Line, including but not limited to final grading and site restoration before the Contractor removes temporary work area isolation.

#### **8-31.4 Measurement**

No unit of measure shall apply to the force account bid item for “Work Isolation and Dewatering”. This Work shall include all materials, equipment, labor, and other costs associated with installing, maintaining, and removing diversion structures at approved upstream and downstream locations, and performing other Work as described in this section.

#### **8-31.5 Payment**

The force account bid item for “Work Area Isolation and Dewatering” shall be full pay to perform the Work as described in this section pursuant with 1-09.6 of the standard specifications.

**END OF SPECIAL PROVISIONS**

# APPENDICES

PAGE LEFT BLANK INTENTIONALLY

# APPENDIX A: PREVAILING WAGES

---

## FEDERAL WAGE RATES

---

The Federal wage rates incorporated in this contract have been established by the Secretary of Labor under United States Department of Labor. The contractor shall use the wage determinations which are in effect under the Davis-Bacon Act for Public Works Contracts for Heavy Construction within Chelan County at the time of the bid opening date. Federal Wage Determinations are updated and posted at

<https://sam.gov/content/wage-determinations>. When required to comply with the federal labor standards, 29 CFR S5.5 applies. This can be accessed via this link. <https://www.ecfr.gov/current/title-29/subtitle-A/part-5#5.5>

## WASHINGTON STATE WAGE RATES

---

The State Prevailing Wage rates incorporated in this contract are applicable to all construction activities associated with this contract and in effect for Chelan County at the time of Bid Opening. Wage Determinations, modifications, and benefit key codes are established by the State of Washington's Department of Labor and Industries are posted and updated at <https://lni.wa.gov/licensing-permits/public-works-projects/prevailing-wage-rates/>.

## APPENDIX B: PROJECT PERMITS

---

<b>NAME OF DOCUMENT</b>	<b>PERMITTING AGENCY</b>	<b>PERMIT REFERENCE NO.</b>	<b>STATUS</b>	<b>DOCUMENT ACCESS</b>
Nationwide Permit	USACOE	TBD	Pending	Pending
Hydraulic Project Approval	WDFW	TBD	Pending	Pending

# APPENDIX C: CONTRACT DRAWINGS

---

The Final Contract Drawings (Plans) can be accessed via the link below or a hard copy can be made available by request to the Contracting Agency.

REVISION 1: 3/4/26

REVISION 2: 3/23/26: [https://www.co.chelan.wa.us/files/natural-resources/documents/Construction\\_Contracting/Rev2\\_ContractDrawings\\_Cashmere\\_Boat\\_Ramp\\_031826.pdf](https://www.co.chelan.wa.us/files/natural-resources/documents/Construction_Contracting/Rev2_ContractDrawings_Cashmere_Boat_Ramp_031826.pdf)
