

CRP 695: Chelan County Safety Plan

Last Update: May 5, 2017

Project Number: County Road Project 695

Project Length: N/A

Basis for Project: Safety/Identify Funding for Future Improvement Projects

Construction: N/A

Project Description: The project will create the Chelan County Road Safety Plan (CCRSP), which will be used to achieve Chelan County's and Washington state's goal of zero traffic fatalities or serious injuries by the year 2030. The CCRSP will be used to collect and analyze historic and current data, monitor trends and strategies, report findings, and seek funding for Chelan County road safety improvements. To create the CCRSP, Chelan County will first collect and analyze historic collision data and create a baseline of collision emphasis areas and safety improvement strategies.

Status: Project was at 90 percent design in early May 2017.

Traffic Impacts: Does not apply.

The CCRSP will analyze Chelan County road collision data and come up with a safety improvement plan that works toward a goal of zero traffic fatalities or serious injuries by 2030.

Funding Sources:	
Federal HSIP Funds	\$ 180,000
Chelan County	\$ 20,000
TOTAL:	\$200,000
