

CRP 700: Chumstick Highway Stabilization

Chumstick Highway (MP 10.45 – MP 10.49)

Last Updated: April 13, 2015

Project Vicinity Map

Project Number: County Road Project 700

Project Length: 0.05 miles

Basis for Project: Road stabilization

Construction: Completed April 3, 2015

Project Description: The existing shoulder slopes along Chumstick Highway between mile posts 10.45 and 10.49 were failing and in need of stabilization. This project installed approximately 100 feet of gabion baskets and re-install the existing guardrail.

Status: Project complete.

Travel Impact: Speed limit was decreased from 50 MPH to 35 MPH through the work zone with flagger-controlled traffic with delays up to 15 minutes during work hours. At night there was a marked lane shift to accommodate two-way traffic.
