ACKNOWLEDGEMENTS

CRIME IN WASHINGTON STATE 2015 was compiled from data submitted to the Washington Uniform Crime Reporting program of the Washington Association of Sheriffs and Police Chiefs by Washington State Law Enforcement agencies during 2015. Coverage is **99.9%** of the state population.

This report would not be possible without the voluntary cooperation of Washington State's law enforcement agencies and the commitment to submit timely, complete, and accurate crime statistics.

Washington Association of Sheriffs and Police Chiefs

***In dedication
to those in law enforcement
who lost their lives
in the line of duty.***

Introduction

This is the thirty-sixth (36th) annual publication of the Washington Uniform Crime Reporting (UCR) Program report of criminal offenses, arrests, law enforcement officers killed or assaulted, and full-time law enforcement employees. Funding for the Washington State UCR Program is provided through contract with the Washington State Criminal Justice Training Commission (CJTC) and administration of the program is the responsibility of the Washington Association of Sheriffs and Police Chiefs (WASPC) Criminal Justice Information Support (CJIS) Department. The Washington State UCR Program is unique in that it is sponsored, administered, and supported by an organization of contributing agency administrators rather than a bureau or department of state government.

How to Use This Report

The ***Crime in Washington 2015*** is our fourth crime statistics publication with the majority of data submitted from Washington law enforcement agencies using the National Incident-Based Reporting System (NIBRS). There are important factors the reader must consider when reading or using this report as well as crime statistic reports available from the FBI or other sources:

1. The data used to compile this report are based on a “snapshot” of our repository database as of March 17, 2016. In NIBRS, there are no “fixed” statistics because law enforcement agencies update their incidents as new information becomes available.
2. The data used in this report are based on the NIBRS method of submitting crime statistics. It is more comprehensive and detailed than the Summary Reporting System (SRS) in the past so the statistics in NIBRS and SRS should not be compared.
3. The data displayed in this report should not be compared to the FBI ***Crime in The United States 2015*** report which will be published later this year. Even though Washington State forwards the crime data submitted via NIBRS to the FBI in the NIBRS format, the FBI converts the data to the SRS format and the offenses are counted differently.
4. The data displayed per agency in this report should not be used to compare to other agencies or compile “rankings” of cities and counties. There are several variables which contribute to crime in a particular jurisdiction, including the demographics, economic, and cultural make-up of the population, the local industrial and economic base, its dependence upon neighboring jurisdictions, the transportation system, its economic dependence on non-residents (such as tourists, shoppers, or other day-time visitors), and its proximity to military installations, correctional facilities, universities/colleges, or state hospitals.

Background

Although the collection of nationwide crime information dates back to the 1890s, no ongoing program was initiated until the International Association of Chiefs of Police (IACP) established a committee on uniform crime records in 1917. The committee's responsibility to provide management information to law enforcement agencies was eventually turned over to the Federal Bureau of Investigation (FBI) in 1930 when the FBI received a congressional mandate to collect and disseminate national crime information. The IACP has continued to serve the UCR Program in an advisory capacity and has been joined in this responsibility by the National Sheriffs Association.

The FBI Summary UCR Program remained virtually unchanged, other than adding the Arson offense in 1979, until development of the National Incident-Based Reporting System (NIBRS). NIBRS was a result of a 1970s law enforcement study to improve crime statistics with the guidelines and specifications developed and based on recommendations and collaboration during the 1980s. A pilot was conducted during 1987 in South Carolina and at a national UCR conference in early 1988, the consensus of attendees was that the FBI should continue its efforts to implement NIBRS nationally.

The Washington State UCR Program was activated in October 1979 and collection of the monthly SRS data from contributing agencies began in January 1980. In December 2006, Washington State was certified by the FBI to officially collect and submit NIBRS data. In January 2008, based on a 2007 advisory committee recommendation, the WASPC Executive Board made the decision to set the goal date for Washington State law enforcement agencies to convert from the SRS method to NIBRS by January 1, 2012. Due to a number of agencies involved in records management system (RMS) upgrades and replacements during 2011, the Executive Board agreed to grant extensions to agencies that could not meet January 2012 deadline.

Today, the Washington State UCR Program offers on-line data entry or batch file upload and provides various reports necessary for statistical purposes in the criminal justice system. Data for ***Crime in Washington 2015*** were compiled from monthly NIBRS submissions by individual law enforcement agencies throughout the State of Washington. The majority of Washington State agencies submit via the NIBRS method and our goal is 100% NIBRS participation in the near future.

As mentioned, the data included in this report are comprised of NIBRS data; the "Individual Agency

NIBRS” pages display a comparison between 2014 and 2015 for only the agencies that submitted NIBRS for both years. Due to the disparate reporting methods, data cannot be compared between NIBRS and SRS submitting agencies.

Crime Index

In the past, the Crime Index was used as a basic measure for comparing the extent of crime among cities, counties, and states of similar size. The index was simply the total number of certain offenses that occurred in a given area in a given calendar period. The offenses used in the Crime Index were the SRS offenses of Murder, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny-Theft, Motor Vehicle Theft, and Arson.

In June 2004, the FBI Criminal Justice Information Services Division Advisory Policy Board approved discontinuing the use of the Crime Index in the FBI UCR Program and its publications. Because Washington State is no longer converting NIBRS data into SRS data for the purposes of statewide statistical comparison, we discontinued using the “term” Crime Index as a measure to depict incidence of crime beginning with the 2012 annual report.

Crime Rate

A crime rate is based on a specific crime category, such as Crimes Against Persons, Crimes Against Property, or Crimes Against Society, or specific crime grouping, such as violent crimes. The category or grouping is adjusted for variances in population by indicating the number of offenses for each 1,000 persons (other base population increments may be used such as the number of offenses per 100,000).

To calculate the crime rate, first divide the population of the area by 1,000, then divide the crime category or grouping by that answer. For example, if a city has a population of 273,000 and a crime category of 21,257 the calculations would be:

1. 273,000 divided by 1,000 = 273.0
2. 21,257 divided by 273.0 = 77.86

Thus, although a city's crime category is 21,257, its crime rate (the number of crimes for each 1,000 people) is 77.86.

Classification of Offenses

All offenses are classified on the basis of law enforcement investigation in accordance with

national UCR offense definitions and are not necessarily identical to the Revised Code of Washington (RCW) definitions. Because UCR identifies and tallies *law enforcement* contact, offense classifications are not based on filings of the prosecutor, court, medical examiner, jury, or other judicial or subsequent findings.

NIBRS divides offenses into two (2) categories of offenses designated as Group A - Incident and Group B - Arrest. The Group A offenses collected in the NIBRS program are: Arson, Assault, Bribery, Burglary, Counterfeiting/Forgery, Destruction/Damage/Vandalism of Property, Drug/Narcotic Offenses, Embezzlement, Extortion/Blackmail, Fraud Offenses, Gambling Offenses, Homicide Offenses, Human Trafficking Offenses, Kidnapping/Abduction, Larceny/Theft Offenses, Motor Vehicle Theft, Pornography/Obscene Material Offenses, Prostitution Offenses, Robbery, Sex Offenses, Non-Forcible Sex Offenses, Stolen Property Offenses, and Weapon Law Violations; in Washington State, an additional Group A offense is collected: Violation of No Contact/Protection Order. Group A offenses include statistical data on the incident, all offenses committed, property involved, weapons involved, victim and offender demographics, arrest information, and clearance status.

Group B offenses, for which only arrest data are collected, include: Bad Checks; Curfew/Loitering/Vagrancy Violations; Disorderly Conduct; Driving Under the Influence; Drunkenness; Non-Violent Family Offenses; Liquor Law Violations; Peeping Tom; Trespass of Real Property; and All Other Non-Traffic Offenses.

Counting Offenses

All crimes committed within the same incident by the same person or group of persons, without a significant time or space interval separating them, are reported in NIBRS - a hierarchy rule does not exist as it does in SRS. For example, if a Rape case involves crimes of Motor Vehicle Theft and Kidnapping, all crimes are reported. However, if a crime is an inherent part of another crime, only one crime may be appropriately reported. For example, Larceny is inherent in the crime of Burglary and would not be reported as a separate crime in the incident; however, if the suspect, upon leaving the residence, takes items outside the structure, Larceny would be reported as a second crime. As another example, Assault is an element in Robbery and would not be reported as a crime separately from the Robbery; however, if the suspect forces the victim to engage in a sexual act, both a Robbery and a Sex Offense would be reported because a forced sexual act is not an element of Robbery.

Arrests

In NIBRS, the law enforcement agencies collect detailed data elements related to incidents and arrests. The Group A - Incident Reports are comprised of segments (Administrative, Offense, Property, Victim, Offender, and Arrestee) and within the segments are multiple data elements identifying the incident, such as originating agency identifier (ORI), incident number, date, location, offense, demographics, and other relevant segment categories. Therefore, unlike SRS, NIBRS arrests and clearances can be submitted as updates to the Group A - Incidents reported.

Clearances

In NIBRS, clearances are on the incident-level rather than the offense-level. If one offense within an incident is cleared, all offenses in that incident are cleared. Likewise, the arrest of one offender in an incident will clear it even if other offenders have not been arrested yet. Clearances by arrest are automatically created when an Arrest Segment is submitted with a Group A - Incident. An incident cannot be cleared exceptionally if there has been an arrest.

Clearances by Exceptional Means allow an agency to clear an incident without an arrest. The criteria include: 1) the identity of at least one offender must be known; 2) sufficient probable cause must have been developed to support the arrest and prosecution of the offender; 3) the offender's exact location must be known, and; 4) there must be a reason, outside of law enforcement's control, which prevents the arrest (for example, the death of the offender or the offender is in the custody of another jurisdiction).

When reviewing the number of clearances, it is important to remember that a clearance can be by "arrest" or by "exceptional means" and could possibly be for an offense in a prior year. The number does not reflect the number of persons arrested in an offense. Also, in UCR terminology, a clearance does not include a case for which the law enforcement agency could not proceed with an investigation due to an uncooperative or unavailable witness or victim.

Objectives of the Washington State UCR Program

The primary objective of the *Crime in Washington 2015* is to implement and administer a uniform system of collecting crime and arrest statistical data from contributing law enforcement agencies in the State of Washington and present the information in complete, accurate, and timely method for the contributors and users of the data. Whether it's a citizen interested in the probability of crime in

a neighborhood, a forecaster tracking trends for budget recommendations, or a criminal justice practitioner scheduling personnel deployment in the interest of public safety, data-driven evidence is the foundation for each decision-maker.

Individuals using the tabulations in the ***Crime in Washington 2015*** are cautioned against drawing conclusions by making direct comparisons between cities and/or counties due to the existence of numerous factors which affect the amount and type of crime from place to place. It's important to remember crime is a social problem and, therefore, a concern of the entire community. The efforts of law enforcement are limited to factors within its control.

When compiled and evaluated, the data available in the ***Crime in Washington 2015*** can be utilized:

1. To identify the number of crimes reported by contributing agencies.
2. To identify the geographical distribution of reported offenses.
3. To determine whether or not reported crimes have increased or decreased.
4. To determine the number of clearances and the clearance rate for reported offenses.
5. To determine the reported number of arrests by offense, age, sex, and race.
6. To determine the number of law enforcement officers assaulted and killed.
7. To determine the number of commissioned (sworn) and civilian law enforcement employees by gender.
8. To determine the rate per population group of commissioned (sworn) and civilian law enforcement employees.

Although, generally, crime reporting is voluntary, there are a few Washington State statutes requiring submission to the WASPC CJIS Department, such as domestic violence crime reporting pursuant to RCW 10.99.030 and malicious harassment (hate bias) crime reporting pursuant to RCW 36.28A.030. In addition, there are state funding opportunities and programs tied to crime statistic reporting. For example, RCW 82.14.310 for counties and RCW 82.14.320 for municipalities define the criminal justice assistance accounts and the use of crime statistics for calculation in funding.

Timely UCR submission to the WASPC CJIS Department is a requirement for the agency accreditation program in Washington State - Chapter 5, Standard 5.12. Some grant opportunities from federal agencies depend on crime statistics as well. For example, the federal legislation authorizing the Edward Byrne Memorial Justice Assistance Grant (JAG) Program awards is 42

United States Code (U.S.C.) § 3751(a). To be eligible, the JAG statute requires local governments report UCR data on violent crimes for at least three (3) of the last ten (10) years. (Reference: www.bja.gov/Funding/JAGFAQ.pdf)

Domestic Violence

Domestic violence offense crime statistics are collected as mandated by the Washington State statute (RCW 10.99.030). These are not separate offenses from those collected in the State UCR Program but because of the nature of the relationship of those involved, these offenses are further categorized for analysis. For agencies submitting NIBRS data, the domestic violence data element is collected on the following offenses: Aggravated Assault, Arson, Burglary, Fondling, Human Trafficking, Incest, Intimidation, Kidnapping/Abduction, Larceny/Theft, Motor Vehicle Theft, Murder/Non-Negligent Manslaughter, Negligent Manslaughter, Rape, Robbery, Sexual Assault with an Object, Simple Assault, Sodomy, Statutory Rape, and Violation of No Contact/Protection Order. For agencies submitting via SRS, the domestic violence offenses collected are limited to: Homicide, Forcible Rape, Robbery, Assault, Burglary, Larceny, Motor Vehicle Theft, Arson, and Violation of Protection/No-Contact Orders. The domestic violence data element is not forwarded to the FBI.

Malicious Harassment (Hate Crime)

Washington State statute (RCW 36.28A.030) mandates the collection of information related to violations of Malicious Harassment or other crimes of bigotry or bias apparently directed against victims perceived to be of a particular race, religion, ancestry, ethnicity, national origin, gender, sexual orientation, or mental, physical, or sensory disability. Like domestic violence offenses, "hate crimes" are not distinct, separate offenses but are traditional offenses motivated in whole, or in part, by the offender's bias.

The data element must be used to indicate whether or not any Group A - Incident offense was motivated by bias and, if so, what kind. For SRS submission, the "hate crime" qualifier is included on offenses limited to Murder, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny-Theft, Motor Vehicle Theft, Arson, Simple Assault, Intimidation, and Destruction/Damage/Vandalism. Data collected in the Hate Crime Program are forwarded to the FBI.

Statewide Crime Profile

The following section provides a statewide offense counts for Crimes Against Persons, Crimes Against Property, and Crimes Against Society. These numbers are derived from National Incident-Based Reporting System (NIBRS) submissions and monthly Summary Uniform Crime Reporting (UCR) by Washington State law enforcement agencies.

Facts at a Glance

- The total population for the State of Washington is **7,063,070**; the NIBRS agencies' population sub-total is **5,973,820**.
- In 2015, there were **207** agencies that reported two consecutive years of NIBRS data. Of these agencies, there were **343,740** Group A offenses reported in 2015; compared to **375,105** Group A offenses reported in 2014. This resulted in a *decrease* of **-0.4%** in Group A offenses reported.
 - In 2015, Crimes Against Persons showed an *increase* of **3.1%** with **75,318** offenses reported; compared to 2014 offenses reported of **73,046**.
 - In 2015, Crimes Against Property showed an *decrease* of **-1.6%** with **274,583** offenses reported; compared to **279,002** offenses reported in 2014.
 - In 2015, Crimes Against Society showed an *increase* of **3.4%** with **23,839** offenses reported; compared to **23,057** offenses reported in 2014.
- Group A offenses were cleared by arrest or exceptional means **29.28%** of the time.
- The crime rate (per 1,000 in population) for Group A offenses was **65.0**.
- The total arrest rate per 1,000 was **26.7**.
- Juveniles comprised of **7.9%** of the total arrests.
- Domestic Violence offenses made up **52.4%** of all Crimes Against Persons.
- A total of **23,485** persons were arrested for DUI, including **128** juveniles.
- A total of **282** hate crime incidents were reported.
- There were a total of **1,228** assaults on law enforcement officers and **no** officers killed in the line of duty*.
- Full-time law enforcement employees totaled **15,092**; of these **10,738** were commissioned officers*.

* Includes both NIBRS and Summary agencies

Facts at a Glance

- There were **9,040** arrests for drug abuse violations; of that number **12.9%** were persons under 18 years of age.
 - Possession of marijuana constituted **13.4%** of the total drug abuse incidents; the sale of marijuana accounted for **1.7%** of incidents (*type of criminal activity can be entered three times in each incident*).
 - Possession of heroin constituted **17.9%** of the total drug abuse incidents; the sale of heroin accounted for **3.9%** of incidents (*type of criminal activity can be entered three times in each incident*).
- The weapon type of “Personal Weapons” (hands, fists or feet) was reported in **38,403** incidents; firearms were reported in **5,401** incidents (*up to three weapons can be reported in each incident*).
- There were **4,621** sexual assault (forcible and non-forcible) incidents reported in 2015. There were a total of **4,621** victims in these incidents; with a total of **4,291** offenders.
- There were a total of **51,582** domestic violence incidents reported; **9,883** of these incidents were Violations of Protection or No Contact Orders*.

* Includes both NIBRS and Summary agencies

Crime Clock

One Crime Against Persons
every 6.8 minutes

Murder
every 2.2 days

Rape
every 5.2 hours

Forcible Sex Offense
(excluding Rape)
every 3.3 hours

Aggravated Assault

Pornography Offense
every 1.3 days

Prostitution Offense
every 11.5 hours

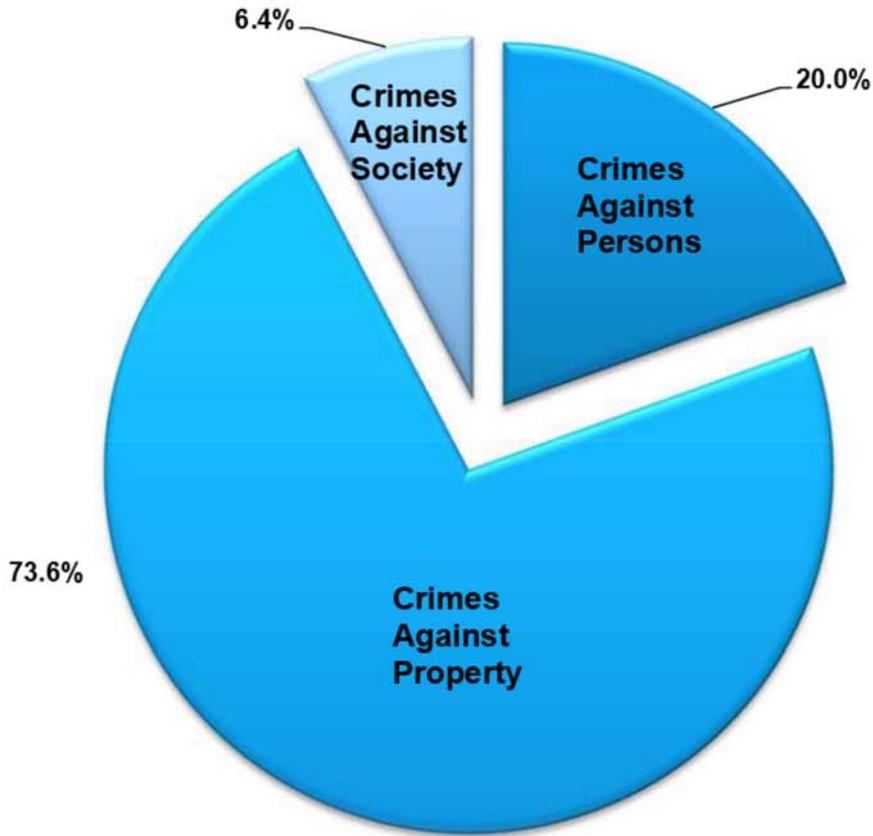

Weapon Law Violation
every 2.0 hours

Gambling Offenses
every 91.3 days

The crime clock should be viewed with care. Being the most aggregate representation of the NIBRS data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of Group "A" offenses. This mode of display should not be taken to imply regularity in the commission of the offenses; rather, it represents the annual ratio of crime fixed time intervals.

2015 Washington NIBRS Crimes Against Persons

Murder

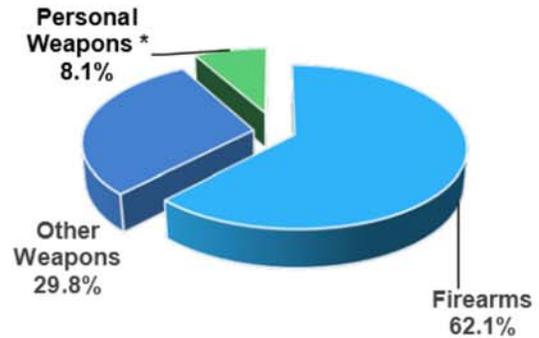

Definition: The willful killing of one human by another.

Murder

Offenses Reported	166
Rate per 1,000	0.03
Total Arrests	131

The classification of this offense is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body. Deaths caused by negligence, suicide, accident, or justifiable homicide are not included in the offense of Murder. Attempt or Assault to Murder is classified as Aggravated Assault, not as Murder.

Murder Incidents by Type of Weapon Used in 2015

* Personal Weapons are defined as "hands, fists, feet etc."

Murder Five-Year Trend

Operating/Promoting	6.18%
Buying/Receiving	1.07%
Transporting/Importing	0.78%
Distributing/Selling	0.36%
Cultivating/Manufacturing	0.20%

15.8% of Weapon Law Violation arrestees were juveniles.

Statewide Arrests

Data in this section represent the number of persons arrested, not the number of charges filed. The following tables depict counts for non-traffic offenses in which an individual was taken into custody, cited, or summoned to appear in court. In some instances, an arrest may be counted when a juvenile is taken into custody but released without being charged. These numbers are derived from monthly National Incident-Based Reporting System (NIBRS) submissions by Washington State law enforcement agencies.

Statewide Arrests

Total Arrests

Reported Arrests	159,277
Rate per 1,000	26.7

The term "arrest" is defined as a physical arrest, citation, or served summons. This data represents the number of persons arrested, not on charges filed; therefore, each reporting jurisdiction submits one set of arrest data for each person per single apprehension. One set of arrest data will clear a single or multiple offenses in the same incident and/or multiple incidents.

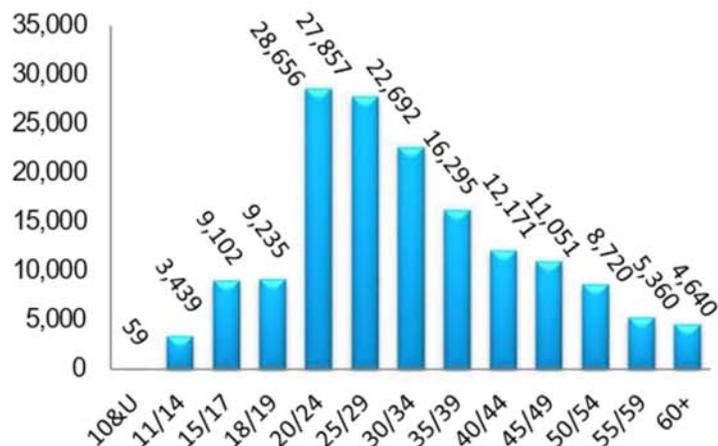

Arrests on warrants issued by another jurisdiction are reported by the originating agency, not the arresting agency.

All persons arrested for the commission of a Group "A" or Group "B" crime are included in this count. A Group "B" crime, which is only reported on the arrest level, encompasses offenses which are not under the Group "A" category. Excluded from this count are any traffic-related arrests, with the exception of DUI, Hit and Run (of a person), and Vehicular Manslaughter.

14.7% of arrests were DUI.

23.8% of total arrestees were between 18 and 24 years of age.

Total Number of Arrests by Age in 2015

97.0% of all arrestees were unarmed.

When apprehended, 36.2% of the weapons in arrestees' possession were firearms; 9.1% of those firearms were automatic.

Totals of Types of Arrest

54,355	On-View (Without Warrant)
55,109	Taken into Custody (Based on a Warrant)
49,900	Cited or Summoned to Court

Total Juvenile Arrests

Reported Juvenile Arrests **12,600**

Under UCR guidelines, a juvenile is counted as “arrested” when the circumstances are such that if the juvenile were an adult, an arrest would have been reported. Any situation involving a juvenile, in lieu of an actual arrest, such as summoned, cited, or notified to appear before a juvenile court or similar authority for a violation of the law, is reported as an arrest.

Juvenile Arrests by Category

40.2% of juvenile arrestees were between 13 and 15 years of age.

Domestic Violence

Collection of Domestic Violence-related person and property offenses is mandated by State of Washington statute, RCW 10.99.030. Domestic Violence is defined by the relationship of the victim to the offender or by shared living space. These numbers are derived from monthly domestic violence forms or National Incident-Based Reporting System (NIBRS) submissions by Washington State law enforcement agencies.

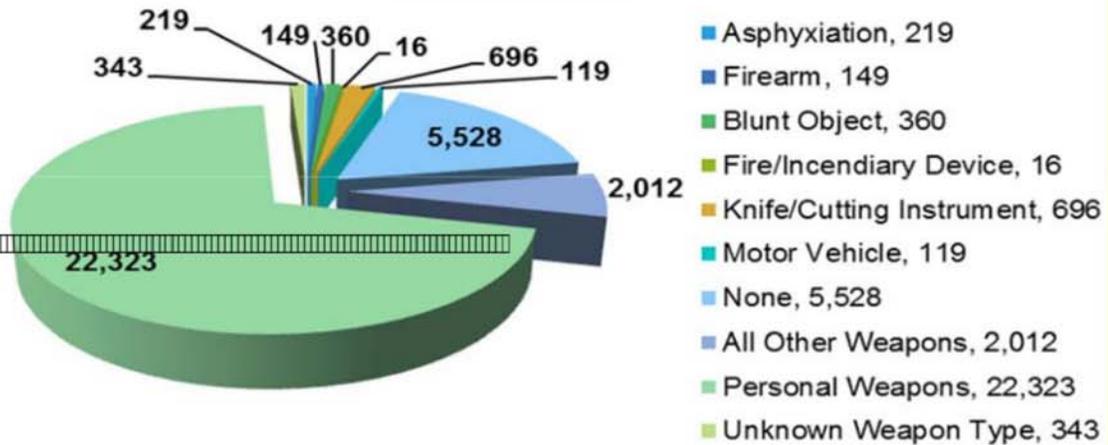

2015 Washington Domestic Violence

2015 Domestic Violence Comparison

Hate Crime

Collection of Hate Crime (Malicious Harassment) is mandated by State of Washington statute, RCW 36.28A.030. Hate crimes are not separate, distinct offenses, but rather traditional crimes motivated by the offender's bias. The data are derived from quarterly Summary Reporting or monthly National Incident-Based Reporting System (NIBRS) submissions by Washington State law enforcement agencies.

2015 Washington Hate Crime

Definition: A criminal offense committed against a person or property which is motivated in whole or in part, by the offender's bias against a race/national origin, religion, sexual-orientation, mental/physical/sensory disability, gender or ethnicity.

Hate Crime

Bias Motivated Incidents Reported	282
Bias Motivated Offenses Reported	324
Number of Known Offenders	214

Hate crime incidents are identified on the subjective motivation of the offender(s). Law enforcement investigations solely determine the sufficient objective facts to lead to a reasonable and prudent conclusion that the offender's actions were motivated by bias against a racial, religious, ethnical/national origin, mental/physical/sensory disability, gender or sexual-orientation group.

Accurate data collection for hate crime depends on proper training of law enforcement to recognize such incidents and the cooperation and desire of law enforcement communities to report these offenses without the influence of special interest groups, media, or politics.

Information derived from the following indicators can establish supportive facts to correctly identify hate bias motivation:

- Bias-related drawings, markings, symbols or graffiti were left at the crime scene.
- Bias-related oral comments, written statements or gestures made by the offender which indicate his/her bias.
- The incident coincided with a holiday relating to or a date of particular significance to, a race, religion, disability, ethnicity, gender or sexual-orientation.
- The offender and the victim were of different race, religion, ethnicity or sexual-orientation.
- Certain objects, items or things which indicate bias were used in the commission of the crime.
- The victim is a member and/or engaged in activities promoting a racial, religious, disability, ethnic or sexual-orientation group.
- Several incidents occurred in the same locality, at or about the same time, and the victims were all the same race, religion, disability, ethnicity or sexual-orientation.

Law Enforcement Officers Killed or Assaulted

Information in this section is derived from monthly Summary Reporting or National Incident-Based Reporting System (NIBRS) submissions by Washington State law enforcement agencies.

2015 Washington Law Enforcement Officers Assaulted

Officers Assaulted in 2015

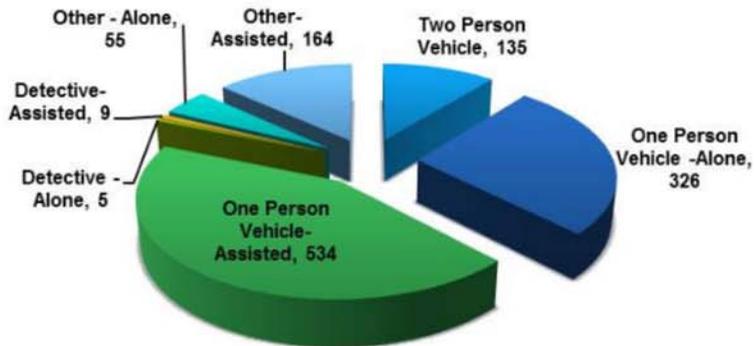

Data collection on officers killed or assaulted includes Aggravated Assaults which result in serious injury or in which a weapon was used which could have caused serious injury or death. The reporting of Simple Assault incidents are excluded or when more verbal abuse or minor resistance to an arrest exist.

Officers Assaulted

Assaults Reported **1228**
Change from 2014 **1.6%**

During the year of 2015, **no** Washington law enforcement officers were killed in the line of duty.

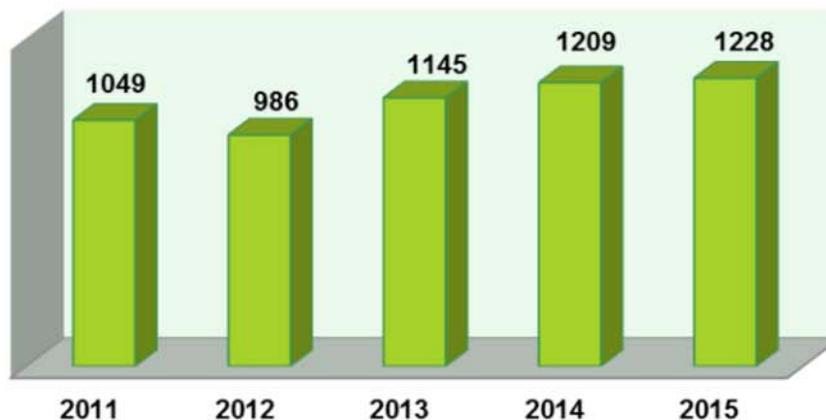

Types of Officer Assignment During Assaults

Percentage of Assaults on Officers By Time of Day

Time of Day	Distribution
12am – 4am	20.1%
4am – 8am	8.1%
8am – 12pm	11.3%
12pm – 4pm	16.5%
4pm – 8pm	18.9%
8pm – 12am	25.0%

Individual Agency National Incident-Based Reporting System (NIBRS)

□

The following section provides individual law enforcement agencies' offense counts for Crimes Against Persons, Crimes Against Property, and Crimes Against Society.

- Populations are based on the Washington State Office of Financial Management "Official November 30, 2015, Population Estimates", except for university, port, tribal, or state law enforcement agencies and non-reporting agencies which show zero populations.

The population data reflect permanent residents only. It does not include transient and visitor populations or residents of the military bases and state or federal hospitals.

Individuals using these tabulations are cautioned against drawing conclusions by making direct comparisons between cities and/or counties due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and, therefore, a concern of the entire community. The efforts of law enforcement are limited to factors within its control.

□

Note: If no NIBRS data was submitted in the prior year, the column will display all zeroes.

- | | |
|--|--|
| <ol style="list-style-type: none"> 1. Contributing agency's name. 2. The county in which contributing agency is located. 3. The estimated population based on the state Office of Financial Management (OFM) annual November forecast. 4. How many months NIBRS data was reported in the current year.
<i>Note: agencies with both NIBRS and Summary submissions have separate tables.</i> 5. An overview of total offenses and clearances* in a current year. 6. An overview of total arrests with sub-totals of adult and juvenile arrests. 7. The list of reportable Group A offenses. | <ol style="list-style-type: none"> 8. The total number of each offense reported in the previous year. 9. The total number of each offense reported in the current year. 10. Percentage of change between current and previous years' offenses. <i>Note: If last year's total value is zero, then the calculation cannot be done because a number can never be divided by zero. Further, if less than a full year's data is provided in the previous year, there will be no percent of change shown.</i> 11. Crime rate per 1,000 population for each offense category. 12. Total arrests for a current year; includes adult and juveniles arrested. 13. Total offenses classified with Domestic Violence involvement for a current year. |
|--|--|

**Note: A clearance can be by "arrest" or "exceptional means" and could possibly be for an offense in a prior year. The number does not reflect the number of persons arrested in an offense. A clearance does not include a case for which a law enforcement agency could not proceed with an investigation due to an uncooperative or unavailable witness or victim.*

Understanding the Data Displays

Charts and Graphs Legend

Group B Arrests Table – The offenses are from arrests only. Adults are 18 years and over; juveniles are 17 years and under; both male and female are included in these numbers.

Domestic Violence Injuries – This chart/graph represents the types of injuries that occurred in Domestic Violence offenses.

Number of Crimes with Weapons Involved – This chart/graph represents the numbers of offenses involving weapons. Some weapons are grouped together; following is the breakdown of groupings:

- ***Firearms*** – Handguns, Rifle, Shotgun, Firearm (type not stated), and other firearms.
- ***Knife/Cutting Instruments*** – A Cutting Instrument could be a broken bottle.
- ***Blunt Objects*** – including Motor Vehicles.
- ***Personal Weapons*** – Hands, Fists, and Feet.
- ***Other*** – Poison, Explosives, Fire/Incendiary Device, Drugs/Narcotics/Sleeping Pills, and Asphyxiation.
- ***None/Unknown***

Drug Offenses by Type – This chart/graph represents the percentage of drug crimes by type. Drug types have been grouped together in the following:

- ***Depressants*** – Includes but not limited to: Valium, Xanax, Librium, and Barbiturates.
- ***Hallucinogens*** – Includes but not limited to: LSD, PCP, Ecstasy, Mescaline, and Psilocybin.
- ***Opiates*** – Includes but not limited to: Morphine, Codeine, Opium, and OxyContin.
- ***Stimulants*** – Includes but not limited to: Cocaine, Amphetamines, and Methamphetamines.
- ***Marijuana*** and its derivatives.
- ***Heroin***

Relationship of Victim to Offender – This represents the relationships within Crimes Against Persons and Robbery offenses. Relationships have been grouped together in the following:

- ***Within Family*** – Spouse, Parent, Sibling, Child, Grandparent, Grandchild, In-Law, Stepparent, Stepchild, Stepsibling, and Other Family member.
- ***Outside Family*** – Acquaintance, Friend, Neighbor, Babysittee (the baby), Boyfriend/Girlfriend, Child of Boyfriend/Girlfriend, Homosexual Relationship, Ex-Spouse, Employee, Employer, and Otherwise Known.
- ***Not Known*** – Relationship Unknown and Stranger.
- ***Other*** – Victim was Offender. The person must be both a victim and an offender within an incident, as in a Mutual Combatant situation.

Property Values – These values describe property loss, recovered, seized, etc. They are reported in all Crimes Against Property, Crimes Against Society, and Kidnapping offenses.
