**Got
Questions?**

We've got answers.

Q: What does the County Assessor do?

A: Our office is responsible for determining the value of all taxable real and personal property on a fair and equitable basis. We also maintain accurate and accessible property information, providing timely and accurate property assessments for tax purposes, and maintain a GIS data layer that maps all parcels within Chelan County.

Q: How often is my property revalued?

A: Your property is revalued every year now that our County is conducting annual updates. We physically inspect a quarter of all real property each year and the County has four inspection cycle areas. For properties that are not located within the scheduled inspection area, we statistically review the properties and adjust the assessed value annually, if indicated by changes in the marketplace, or if new construction or a change in boundaries occurs.

Q: The assessed value of my property went down but my taxes went up. Why?

A: The consolidated levy rate for the tax code area that your property is located in may have increased depending on the taxing districts budgets & assessed values or the State levy may be higher. The levy rate may also have changed if there were any voter approved levy increases.

Q: Are there programs that can lower my property value and taxes?

A: There are special programs that can reduce the taxable value of property for qualifying seniors (61 or over), disabled persons, historical property, single family remodels and lands in farm/agriculture and forest production. Additional information about these programs can be found on our website or by contacting our office @ 509.667.6365.
