

- CHELAN COUNTY - MONTHLY FINANCIAL REPORT

JANUARY 2016

The General fund is Chelan County's major operating fund. It has a budget of \$37 million and is comprised of administrative functions, building and planning permits, Sheriff's operations, juvenile housing, criminal prosecution, and the courts. The revenue and expenditure charts below display the 2016 General fund projected budget contrasted with actual expenditures and revenues.

General Fund Revenue: To get a picture of the economic and operational functions that drive revenue, the General fund revenues have been categorized by major revenue source and projected based on a five year history.

January sales tax was 32% above projection. Even though the 2016 sales tax budget was increased from the prior year level, it has started 2016 very strong. This surprise is very welcomed considering the City of Wenatchee's possible annexation of the Old Station area, which could have a negative impact of \$1 million to Chelan County's annual sales tax revenue.

Revenue Category	Year-To-Date		
	Projected	Actual	Variance
Property Tax	42,783	30,206	(12,577)

Other	103,198	249,927	146,729
Total	1,246,672	1,496,123	249,451

Another welcomed surprise revenue came in the form of a business and occupation (B&O) tax refund of \$110,000 that shows up under "Other" revenue. The State of Washington determined that Chelan County's contracted public defender was exempt from B&O taxes. Therefore, Chelan County was refunded the amounts that had been historically paid.

General Fund Expenditures: Expenditures are projected in a similar way as revenues, but expenditures are spent more evenly than revenues are received. The variances below reflect current 2016 expenses in relation to the original budget.

While the "Services" category is running slightly over-budget, the General fund in total is well under budget.

Expenditure Category	Year-To-Date		
	Projected	Actual	Variance
10 - Salaries & Wages	1,372,184	1,356,299	(15,885)
20 - Personnel Benefits	593,984	548,036	(45,948)
30 - Supplies	55,765	30,364	(25,401)
40 - Services	416,761	429,016	12,256
50 - Intergovernmental Svcs	30,205	24,862	(5,343)
90 - Interfund Payments	376,605	343,291	(33,315)
TOTAL	2,845,504	2,731,868	(113,636)

General Fund Balance: The General Fund balance chart below shows the cyclical nature of Chelan County's cash flow. Increases in April and October coincide with the due dates of the first and second half of property taxes. In June the cycle is at its highest due to the once-a-year PUD privilege and Federal PILT revenues.

Because the January revenues are strong and expenditures are slower than usual, the General fund balance is above the projection line and 2016 appears to be off to a good start.

The 2016 General Fund budget was designed to lose \$370K. However, the budget is typically built conservatively, so most revenues are likely to exceed budget and expenses are likely to come in under budget. Since there is uncertainty as to the timing of the Old Station Annexation, the impact on 2016 revenue is not currently known. Fortunately, the General fund balance is currently larger than it has ever been. This provides some stability for the County in the face of uncertain revenues.

Cash Balances: The General fund has a healthy cash balance and is in better financial condition than it has ever been. Its cash balance trend over the past three months closely mirrors the cycle displayed in the fund balance graph on the previous page. Until property taxes are collected in April, the General and County Roads funds live off their accumulated cash balance.

Interfund Loans: Despite the large cash balance in the General fund, there are several funds currently borrowing cash to meet operational needs.

Solid Waste Planning fund is borrowing \$66,723 from the Equipment Rental and Revolving fund for the construction of the Moderate Risk Waste Facility.

Natural Resources fund is borrowing \$416,000 from the REET I fund. Of this total loan amount, \$258,731 is to cash flow 2015 projects and \$157,269 is to cash flow 2016 projects.

Budget: January is 8.3% of the way through the calendar year. This percentage is a reasonable benchmark for departments with even expenditures throughout the year. However, many departments have one-time expenditure at the beginning of the year such as annual software contracts. Therefore, the actual expenditures and revenues chart is provided for department heads to evaluate if they are over or under the straight-line benchmark.
