

Class 01 4-H Market Goats	Ribbon	Placing	VSS ID	Exhibitor Name	Club or Chapter	Ear Tag	Reason
Champion 4-H Market Goat	Blue	1	85	Reed Redell	Wenatchee Heights 4-H	23	While this goat appears to have a smaller structure in him he has the most product to his carcass in this class. I would like to widen his base width and add more to his hip. This kid is a very commendable exhibition.
Reserve Champion 4-H Market Goat	Blue	2	38	Sam Gates	Wenatchee Heights 4-H	21	This kid has clearly been well taken care of and fed properly. This kid could use more condition on him to surpass the kid in front of him. I would also like to clean up his top line to make a more appealing profile and allow him to hold more meat.

Class 02 FFA Market Goats	Ribbon	Placing	VSS ID	Exhibitor Name	Club or Chapter	Ear Tag	Reason
Champion FFA Market Goat	Blue	1	44	Esme Martinez	Cashmere FFA	37	This is a very impressive goat as it carries plenty of shape over the top and is a well structured. It has an appropriate finish and will make a good carcass.
Reserve Champion FFA Market Goat	Blue	2	43	Gillian Damell	Cashmere FFA	36	The kid in second place falls short to the class winner in carcass mass but has a strong skeleton to support what it has the capability of doing. This is a very well put together goat.
	Blue	3	67	Tieman Davis	Chelan FFA	26	This goat is a fine exhibition of muscling. while he is too green to put any higher in a the class it would make a fine carcass with a few more days on feed.
	Blue	4	42	Jalynn Damell	Cashmere FFA	35	This kid is very structurally correct, however it is the smallest, least conditioned goat which sorts him to last place. I feel that with more growth this kid would have been a strong contender today.
