

SHORELINE MANAGEMENT PERMIT

ACTION SHEET

Application #: SDP 2018-286 SCUP 2018-287

Administering Agency Chelan County Department of Community Development

Type of Permits:

- Shoreline Substantial Development Permit
- Shoreline Conditional Use Permit

Action: ■ Approved ☐ Denied

RECEIVED

Date of Action: February 14, 2019

FEB 20 2019

Date Mailed to DOE/AG

**CHELAN COUNTY
COMMUNITY DEVELOPMENT**

Pursuant to Chapter 90.58 RCW and the Shoreline Master Program of Chelan County, the following permit is hereby approved:

**Chad & Nicole Oishi
8728 S Tracy Drive
Sandy, UT 84093**

To undertake the following development: An application for a shoreline substantial development permit and shoreline conditional use permit for removal of two existing piers and construction of a new 319 sq ft "L" shaped pier, relocation of an existing 125 sq ft boatlift and installation of a new 125 sq ft double jetski lift on Lake Chelan. The boatlift and jetski lift will be located on the landward side of the "L" pier section.

Upon the following property: 16578 South Lakeshore Rd., Chelan WA 98816

Within 200 feet of the Lake Chelan and/or its associated wetlands.

The project will be within a shoreline of statewide significance (RCW 90.58.030). The project will be located within a rural shoreline environment designation.

The following Shoreline Master Program provisions are applicable to this development: Sections 7, 9, 11, 16, 21, 27 and 29.

CONDITIONS OF APPROVAL

All conditions imposed by this decision shall be binding on the applicant, which includes the owner or owners of the properties, heirs, assigns, and successors.

1. Pursuant to WAC 173-27-150 and RCW 90.58.130(2), prior to commencement of this project, the applicant shall obtain any necessary aquatic permits from agencies with jurisdiction which may

SDP 2018-286/SCUP 2018-287

Oishi

include, but is not limited to, the Washington State Department of Fish and Wildlife, the Army Corps of Engineers, the Washington State Department of Ecology, Chelan County PUD, Chelan County Building Department and the Washington Department of Natural Resources.

2. Pursuant to Chelan County Shoreline Master Program Section 30.3.5 and 30.3.6, this shoreline permit shall be valid for the activities described within the JARPA and shown on the site plan of record, date stamped November 13, 2018, except as modified by this decision or other jurisdictional agencies.
3. Pursuant to CCSMP Section 29.3.1, the applicant shall comply with the mitigation planting plan, date stamped November 13, 2018, except as modified by this decision or other jurisdictional agencies.
4. Pursuant to Chelan County Shoreline Master Program Section 21.A.6.4, the proposed pier shall be setback a minim of ten (10) feet from side property lines, EXCEPT that it may be located within five feet of the side property line when mutually agreed to by contract/covenant with the owners of the adjacent property, a copy of which must be recorded with the County Auditor.
5. Pursuant to Chelan County Shoreline Master Program Section 5.7, the applicant may use emergency actions if necessary to protect life, property, or unique historical or archaeological sites from imminent danger.
6. Pursuant to RCW 27.53.060, and CCSMP Section 27, if the applicant or their agents discover previously unknown historic or archaeological remains/artifacts while conducting the development activities authorized by this permit, the applicant/ agent shall immediately notify the appropriate tribal and state representatives and the Chelan County Department of Community Development of the finding for local, state and tribal coordination.
 - 6.1. The applicant shall submit an Inadvertent Discovery Plan with the Building Permit Application. This plan shall remain onsite for the duration of the project.
7. Pursuant to Chelan County Shoreline Master Program Section 30.3.10, substantial progress toward construction for which a permit has been granted must be accomplished within two (2) years for the granting of the permit.
8. Pursuant to Chelan County Shoreline Master Program Section 30.3.11, a project which has been granted a permit shall be completed within five (5) years of the issuance of a permit. The Administrative authority may extend the permit for one additional year.

FINDINGS OF FACT

1. The applicant/owners are Chad & Nicole Oishi, 8728 S. Tracy Drive, Sandy, UT 84093.
2. The agent is Anne Hessburg, Grette Associates, LLC., 151 S Worthen Street, Suite 101, Wenatchee, WA 98801.
3. The project location is 16578 South Lakeshore Rd., Chelan, WA 98816..
4. The parcel number for the subject property is 29-21-33-515-085.
5. The proposed development is not within an Urban Growth Area.
6. The Comprehensive Plan designation and zoning for the subject property is Rural Waterfront (RW).
7. As stated in the JARPA, questions 5(m) and 5(o), the subject property is currently in residential and recreational use.
8. The property contains an existing residence with attached deck and stairs, a shed, two piers and a boatlift.

9. According to Chelan County Assessor's records, the residence, shed and docks were constructed in 1948.
10. As stated in the JARPA, question 5(l), the property consists of moderately sloping upland leading to a rocky shoreline. The upland between the existing residence and the rocky shoreline is moderately sloping and in lawngrass with native shrubs among the rock. There is a low level of fish and wildlife habitat on site due to the size of the lot and lack of native vegetation along the lake. Lack of vegetation is due to the rocky shoreline and fluctuating lake level. Below the OHWM habitat consists of moderately sloping, unvegetated rock and cobble.
11. The property to the north of the subject property is in residential and recreational use and is zoned Rural Waterfront (RW).
12. The property to the south of the subject property is in residential and recreational use and is zoned Rural Waterfront (RW).
13. The property to the east of the subject property is Lake Chelan.
14. The property to west of the subject property is South Lakeshore Road and is zoned Rural Waterfront (RW).
15. The applicant submitted an Environmental Checklist. Pursuant to WAC 197-11 and RCW 43.21C of the State Environmental Policy Act (SEPA), environmental review and a threshold determination was completed, and a Determination of Non-Significance (DNS) was issued on January 3, 2019. The SEPA Checklist and DNS are included within the file of record and adopted by reference.
16. The Comprehensive Plan has been reviewed; specifically the goals and policies related to the Rural Waterfront Comprehensive Plan designation for consistency with residential and recreational land uses. The Hearing Examiner finds that the project, as conditioned, is consistent with the Comprehensive Plan.
17. According to the Washington State Department of Fish and Wildlife, Priority Habitat and Species Maps, the subject site contains mule deer and waters of the state, which are both considered Class II Fish and Wildlife Habitat Conservation Areas. Therefore, CCC, Chapter 11.78 applies to the project.
18. According to the Federal Emergency Management Agency, FIRM panel # 5300150200A, there is no floodplain on the subject parcel. The waterbody is a controlled reservoir.
19. According to the Chelan County GIS mapping, the property is located within an identified geologically hazardous area due to erodible soils and steep slopes. CCC Chapter 11.86, Geologically Hazardous Overlay District, applies to the subject property. Chelan County does not require geologic site assessments for accessory structures waterward of the OHM, per the Building Official.
20. According to the Washington State Department of Natural Resource Maps, the site does not contain any known streams.
21. According to the National Wetlands Inventory Map prepared by the US Department of Fish and Wildlife Services, the subject site does not contain wetlands, therefore CCC Chapter 11.80 does not apply.
22. There are no known cultural resources on the subject property. Pursuant to CCSMP Section 27, and RCW 27.53.060, developers shall notify local governments of any possible archaeological materials uncovered during excavation. The Confederated Tribes of the Colville Reservation recommend development of an inadvertent discovery plan. Therefore, staff recommended a condition of approval, requiring an inadvertent discovery plan be kept onsite during all ground-disturbing activities.

23. According to JARPA question 6 (f), construction will begin upon receipt of all permits; and end approximately one week from the start date.
24. Access is provided by two driveway easements off South Lakeshore Road, recorded under AFN 829294 and 829294. Pursuant to CCC Section 11.88.070, a driveway permit is not required for docks and piers or structures located on properties not accessed by motor vehicles.
25. The noise impacts will be similar to other recreational uses. Construction noise during installation of the new pier, boatlift and double jetski lift. The project is required to comply with CCC Chapter 7.35, Noise Control
26. Minor visual impacts will be from the water and surrounding properties. Properties in the vicinity include piers and boatlifts, so visual impacts will be similar to what currently exists in the area.
27. The Notice of Application was referred to surrounding property owners within 300' (excluding 60' of right-of-way), jurisdictional agencies and departments of the County. These agencies and surrounding property owners were notified on November 16, 2018 with comments due December 23, 2018. The following is a list of Agencies who received notice and the date comments were received:
 - 27.1 Chelan County PUD responded on November 20, 2018
 - 27.2 Confederated Tribes of the Colville Reservation responded on November 20, 2018
28. The following agencies were notified but did not respond:
 - 28.1 Chelan County Fire Marshal
 - 28.2 Chelan County Building Official
 - 28.3 WA State Department of Natural Resources
 - 28.4 WA State Department of Ecology
 - 28.5 WA State Department of Fish & Wildlife
 - 28.6 US Department of Fish & Wildlife
 - 28.7 US Army Corps of Engineers
 - 28.8 Chelan County Fire District #7
 - 28.9 Department of Archaeology & Historic Preservation
 - 28.10 Yakama Nation
29. No public comments were received.
30. The application materials were submitted on September 6, 2018.
31. A Determination of Incomplete was issued on September 13, 2018
32. A Determination of Completeness was issued on November 14, 2018.
33. The Notice of Application was provided November 16, 2018.
34. The Notice of Public Hearing was provided February 1, 2019.
35. The project is consistent with Chelan County Code (CCC) Section 11.04.020 in the following respects:
 - 35.1 A single-use pier is a permitted use in the RW zoning district. The watercraft lifts are considered accessory uses/structures. Accessory structures are permitted in the RW zoning district.
 - 35.2 The proposed pier, boatlift and double jetski lift are permitted uses.
36. The project is consistent with CCC Section 11.16.020 in the following respects:

- 36.1 The RW zoning district requires a 5 foot setback from side property lines. Setbacks are determined during building permit review. The pier will be required to meet the five-foot side yard setback.
- 36.2 The proposed development will be required to meet the five-foot side yard setback at building permit submittal.
- 37. The project is consistent with Chelan County Shoreline Master Program (CCSMP) 29.1 in the following respects:
 - 37.1 The provisions of the SMA and WAC have been met through the adoption of the CCSMP. The appropriate CCSMP requirements are addressed below.
 - 37.2 According to JARPA, question 6(g), the fair market value of the project is approximately \$60,000. The project is not exempt from the requirement for a substantial development permit.
 - 37.3 The CCSMP does not address watercraft lifts; therefore, the provisions for a Conditional Use Permit apply.
 - 37.4 The project is consistent with the provisions of the SMA, WAC and CCSMP.
- 38. The project is consistent with CCSMP Section 21.A.3 in the following respects:
 - 38.1 According to the JARPA, question 6(e), a total of twelve (12) steel piles will be installed to support the pier. Each pile will require an above ground concrete footing, or each pile will be driven to 10 feet of depth or bearing, if possible. Wood or steel cross-bracing will be placed between each pair of piles. Stringers will then be attached to the piles with metal brackets to create framework for the decking. Grated decking will be installed atop the completed framework of the entire pier. No wood or metal preservatives, paints, sealers, chemicals, or other substances harmful or toxic to fish and shellfish will be applied to the pier system once it has been placed within the OHWM.
 - 38.2 According to the cross section details submitted with the application, the proposed pier pilings will have a minimum vertical clearance of one (1) foot above ordinary high water. Because Lake Chelan is a controlled reservoir, the extreme high water elevation is synonymous with the ordinary high water elevation.
 - 38.3 The proposed pier complies with the CCSMP dock construction standards.
- 39. The project is consistent with CCSMP Section 21.A.6.1 in the following respects:
 - 39.1 The property was created prior to May 3, 1994, per deed recorded October 5, 1992, under Auditor File Number (AFN) 9210050029.
 - 39.2 The lot qualifies for a single-use pier.
- 40. The project is consistent with CCSMP Section 21.A.6.2 (a) in the following respects:
 - 40.1 As described in the JARPA and pier plan date stamped November 13, 2018, the proposed pier will be attached to the existing concrete steps that provide access to the shoreline at the OHWM. The section running perpendicular to the OHWM will measure 5 ft wide by 41 ft long (40 ft over water), as measured on the uplake side of the pier. The "L" section will be constructed on the waterward end and will stretch down lake, measuring 6 ft wide by 19 ft long. The pier will encompass approximately 319 square feet of overwater coverage.
 - 40.2 The proposed design of the new dock is consistent with the CCSMP dimensional standards for residential piers and docks.
- 41. The project is consistent with CCSMP Section 21.A.6.4 in the following respects:

- 41.1 The site plan, date stamped November 13, 2018, shows the pier located within the parcel boundaries. The pier is required to meet the applicable property line setbacks, which shall be reviewed at the time of building permit submittal. Staff recommended a condition of approval requiring the proposed dock to meet the side yard setback.
- 41.2 The proposed pier, as conditioned, will satisfy the required setbacks from the side property lines.
- 42. The project is consistent with CCSMP Section 29.3.2 (a) in the following respects:
 - 42.1 The applicant is requesting to install a new, 319 square foot pier, 10 ft x 12.5 ft boatlift and one 10 ft x 12.5 ft jetski lift on Lake Chelan
 - 42.2 The proposed boatlift and jetski lift are not addressed in the CCSMP and therefore require review under a Shoreline Conditional Use Permit.
 - 42.3 The policies of the CCSMP and SMA provide for recreational use of the shoreline.
 - 42.4 The proposed development is consistent with the CCSMP as a recreational use.
- 43. The project is consistent with CCSMP Section 29.3.2 (b) in the following respects:
 - 43.1 According to the JARPA and site plan, the boatlift will be located approximately 25 feet waterward of the OHWM at a water depth of 10.5 feet and the jetski lift will be located 12.5 feet waterward of the OHWM at a water depth of 8.5 feet.
 - 43.2 As identified on the site plan of record, all proposed development is located on private property.
 - 43.3 This section of the lake is over three quarters of a mile wide (according to Chelan County GIS measurements), providing room for public use and navigation.
 - 43.4 The proposed use/development is located on private property and will not interfere with public shorelines.
- 44. The project is consistent with CCSMP Section 29.3.2 (c) in the following respects:
 - 44.1 Watercraft lifts are common along the Lake Chelan shoreline. This section of the lake is highly developed and subdivided for residential and recreational use of the shoreline. Properties within this area contain in-water structures, such as docks and boatlifts, similar to the proposed development.
 - 44.2 The proposed development is compatible with the surrounding land uses in the area.
- 45. The project is consistent with CCSMP Section 29.3.2 (d) in the following respects:
 - 45.1 The shoreline designation is 'rural.' The 'rural' designation permits residential and recreational uses and development with appropriate permits. The proposed conditional use is for the placement a boatlift and double jetski lift.
 - 45.2 The proposed development is consistent with the 'rural' shoreline designation as a recreational use and will cause no unreasonable adverse effects to the shoreline environment designation.
- 46. The project is consistent with CCSMP Section 29.3.2 (e) in the following respects:
 - 46.1 The proposed boatlift and double jetski lift will be located on private property, as indicated on the site plan of record, and will be for private use of the property owner.
 - 46.2 The proposed development is for private use, on private property. The public interest will not suffer substantial detrimental effect.

47. The project is consistent with CCSMP Section 29.3.4 in the following respects:
- 47.1 The Shoreline Master Program allows for recreational use of private property. The CCSMP does not address watercraft lifts. These types of in-water structures are used for recreational use of the shoreline. The lifts provide safe watercraft storage in a location where moorage would typically occur, thus not increasing typical overwater coverage. It can be anticipated that if other permits were granted in this area, for similar uses, the impacts would be minimal due to the nature of the development.
 - 47.2 The cumulative impacts of swim floats are minimal and remain consistent with the policies of the Shoreline Management Act.
48. The project is consistent with CCSMP Section 29.4.1 (a) in the following respects:
- 48.1 The project area will be located on private property, in the vicinity of other properties with similar recreational in-water structures.
 - 48.2 The installation of a single-use dock, boatlift, and double jetski lift will not affect statewide nor local interests.
49. The project is consistent with CCSMP Section 29.4.1 (b) in the following respects:
- 49.1 This section of Lake Chelan carries a 'rural' shoreline designation, which allows for residential and recreational uses. This section of the lake is highly developed with residential cabins and in-water structures.
 - 49.2 As stated in JARPA question 5(1), the property consists of moderately sloping upland leading to a rocky shoreline. The upland between the existing residence and the rocky shoreline is moderately sloping and in lawngrass, with native shrubs among the rock. There is a low level of fish and wildlife habitat on site due to the size of the lot and lack of native vegetation along the lake. Lack of vegetation is due to the rocky shoreline and fluctuating lake level. Below the OHWM habitat consists of moderately sloping, unvegetated rock and cobble.
 - 49.3 Due to the limited vegetation adjacent to the OHWM and the highly developed section of shoreline, the proposed project will not significantly impact the shoreline's natural character.
50. The project is consistent with CCSMP Section 29.4.1 (c) in the following respects:
- 50.1 The proposed development will enhance the recreational use of the subject property.
 - 50.2 The pier, boatlift and double jetski lift will be a long term benefit by enhancing the recreational use of the property.
51. The project is consistent with CCSMP Section 29.4.1 (d) in the following respects:
- 51.1 All proposed development will be located waterward of the OHWM. Habitat below OHWM consists of moderately sloping, unvegetated rock and cobble. The upland area, adjacent to the OHWM is steeply sloped with minimal vegetation.
 - 51.2 The project includes a native vegetation planting plan including 18 native shrubs to be planted adjacent to the shoreline, for a total of 126 square feet of mitigation planting.
 - 51.3 In addition, the entire surface of the proposed pier will have grated surface, to allow light penetration.
 - 51.4 All work will occur in the dry, to minimize the potential for erosion and turbidity and to reduce potential for impacts to water quality, fish and wildlife.

- 51.5 The proposed development will not have a substantial impact on the resources and ecology of the shoreline.
52. The project is consistent with CCSMP Section 29.4.1 (e) in the following respects:
- 52.1 The project is located on privately-owned property, with no public shoreline access.
- 52.2 The project will not impact public access to the shoreline.
53. The project is consistent with CCSMP Section 29.4.1 (f) in the following respects:
- 53.1 The subject property is under private ownership with no public access.
- 53.2 The project will not affect public recreational opportunities, as the property is privately owned.
54. The project is consistent with CCSMP Section 29.4.2 in the following respects:
- 54.1 Based on the above findings and conclusions, staff found the project to be consistent with the intent and spirit of the principles outlined above.
55. The application includes the removal of two existing piers and the construction of a new 319 sq ft "L" shaped pier, relocation of an existing 125 sq ft boatlift and installation of a new 125 sq ft double jetski lift on Lake Chelan. The new pier will be attached to the existing concrete steps that provide access to the shoreline at the OHWM. The section running perpendicular to the OHWM will measure 5 ft wide by 41 ft long (40 ft over water) as measured on the uplake side of the pier. The "L" section will be constructed on the waterward end, and will stretch down lake, measuring 6 ft wide by 19 ft long, as measured on the waterward side of the pier. The boatlift and jetski lift will be located on the landward side of the "L" pier section. The pier will extend approximately 40 feet waterward of the OHWM to a water depth of approximately 13 feet and will encompass approximately 319 square feet of overwater coverage.
56. The subject property is located in a highly developed area of Lake Chelan, within the residential subdivision of Cory's Rock Acre Tracts. Lots within this subdivision are developed with single family residences and their accessory uses, including docks, boatlifts, swim floats and buoys. Due to the existing development along the south shore of the lake, the proposed project will have minimal impacts to the shoreline environment and will be compatible with surrounding land uses.
57. Approval of this application would remain consistent with development in the area, in addition to the goals and policies of the Chelan County Comprehensive Plan and Shoreline Master Program (CCSMP). The project is consistent with both the CCSMP Goal for Shoreline Use Element, Assure an appropriate pattern of sound development in suitable locations without diminishing the quality of environment along the shorelines and the Chelan County Comprehensive Plan, Goal CL 1 of the Resource Element, Identify and protect critical areas from adverse environmental impacts while providing for reasonable use of private property.
58. Staff reviewed the applications and submitted materials. Based on the information contained in the applications and compliance with the Revised Code of Washington, the Washington Administrative Code, the Chelan County Shoreline Master Program, Chelan County Comprehensive Plan, and the Chelan County Code, staff recommended APPROVAL subject to the recommended conditions of approval.
59. An open record public hearing after legal notice was provided was held on February 13, 2019.
60. The File of Record, Chelan County Department of Community Development Staff Report, and exhibits were received, admitted into the record and considered by the Hearing Examiner.
61. Appearing and testifying on behalf of the applicant was Anne Hessburg. Ms. Hessburg testified that she was an agent authorized to appear and speak on behalf of the applicant. Ms. Hessburg

indicated that the applicant concurred with the staff report findings and conclusions. The applicant had no objection to any of the proposed conditions of approval.

62. No member of the public testified at this hearing.
63. The Chelan County Hearing Examiner considered all evidence within the record in rendering this decision.
64. Any Conclusion of Law that is more correctly a Finding of Fact is incorporated herein as such by this reference.

CONCLUSIONS OF LAW

1. The Hearing Examiner has authority to render this Decision.
2. Referral agency comments were received and considered in the review of this proposal.
3. The site of the subject proposal is in the Chelan County Comprehensive Plan Rural Waterfront land use designation. As described, the proposal is consistent with the Chelan County Comprehensive Plan.
4. As conditioned, the subject proposal is consistent with the Chelan County Code, Title 11.
5. Environmental and Critical Areas review has been completed. As conditioned, the proposal does not have negative impacts on critical areas which cannot be mitigated.
6. The proposed project meets the definition of "Development" as defined in the Chelan County Shoreline Master Program and WAC 173-27-030 and is considered a substantial development.
7. The authorization of the shoreline permits will not be materially detrimental to the purposes of the Revised Code of Washington, the Washington Administrative Code, the Chelan County Shoreline Master Program, the Chelan County Comprehensive Plan, the Chelan County, or not be otherwise detrimental to the public interest.
8. The project is not located on a public beach, nor does it block or reduce public use or enjoyment of the area.
9. Subject to the Conditions of Approval, the project design is consistent with the Chelan County Shoreline Master Program requirements.
10. Any Finding of Fact that is more correctly a Conclusion of Law is incorporated herein as such by this reference.

This Shoreline Substantial Development Permit and Shoreline Conditional Use Permits are granted pursuant to the Shoreline Master Program of Chelan County, as amended, and nothing in this permit shall excuse the applicant from compliance with any other federal, state, or local statutes, ordinances, or regulations applicable to this project, but not inconsistent with the Shoreline Management Act of 1971 (Chapter 90.58 RCW).

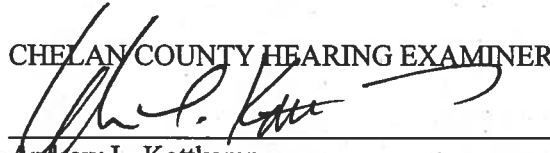

This Shoreline Substantial Development Permit may be rescinded pursuant to RCW 90.58.140(7) in the event the permittee fails to comply with the terms and conditions hereof.

CONSTRUCTION PURSUANT TO THIS SHORELINE SUBSTANTIAL DEVELOPMENT PERMIT AND SHORELINE CONDITIONAL USE PERMIT SHALL NOT BEGIN NOR IS AUTHORIZED UNTIL TWENTY-ONE (21) DAYS FROM THE DATE OF FILING AS DEFINED IN RCW 90.58.140(6) AND WAC 173-14-090, OR UNTIL ALL REVIEW PROCEEDINGS INITIATED WITHIN TWENTY-ONE (21) DAYS FROM THE DATE OF SUCH FILING HAVE TERMINATED; EXCEPT AS PROVIDED IN RCW 90.58.140(5)(a)(b)(c).

Substantial progress toward construction of the project for which this permit has been granted must be accomplished within two (2) years of the filing date of this permit. Authorization to conduct development activities granted by this permit shall terminate five (5) years from the filing date of this permit.

Approved this 15th day of February, 2019.

CHELAN COUNTY HEARING EXAMINER

Andrew L. Kottkamp

Anyone aggrieved by this decision has twenty-one (21) days from the "date of receipt" as defined by Washington Law to file a petition for review with the Shorelines Hearings Board (for the shoreline permit and shoreline conditional use permit) as provided for in RCW 90.58.180 and Chapter 461-08 WAC, the rules of practice and procedure of the Shorelines Hearings Board.

Chelan County Code Section 1.61.130 provides that any aggrieved party or agency may make a written request for reconsideration by the Hearing Examiner within ten (10) days of the filing of the written record of decision. The request for reconsideration shall be submitted to the Community Development Department. Reconsideration of the decision is wholly within the discretion of the Hearing Examiner. If the Hearing Examiner chooses to reconsider, the Hearing Examiner may take such further action deemed proper and may render revised decision within five (5) days after the date of filing of the request for reconsideration. A request for reconsideration is not a prerequisite to filing an appeal under Section 1.61.160.

The complete case file, including findings, conclusions, and conditions of approval (if any) is available for inspection during the open office hours at Chelan County Department of Community Development. Their address is 316 Washington Street, Suite 301, Wenatchee, WA 98801. Their telephone number is (509) 667-6225.

**THIS SECTION FOR DEPARTMENT OF ECOLOGY USE ONLY IN REGARD TO A
CONDITIONAL USE AND/OR VARIANCE PERMIT**

Date received by the Department _____

Approved _____

Denied _____

This conditional use/variance permit is approved / denied by the Department pursuant to Chapter 90.58 RCW.

Development shall be undertaken pursuant to the following additional terms and conditions:
