

# **SEPA ENVIRONMENTAL CHECKLIST**

## ***Purpose of checklist:***

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

## ***Instructions for applicants:***

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

## ***Instructions for Lead Agencies:***

Please adjust the format of this template as needed. Additional information may be necessary to evaluate the existing environment, all interrelated aspects of the proposal and an analysis of adverse impacts. The checklist is considered the first but not necessarily the only source of information needed to make an adequate threshold determination. Once a threshold determination is made, the lead agency is responsible for the completeness and accuracy of the checklist and other supporting documents.

## ***Use of checklist for nonproject proposals:***

For nonproject proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B plus the SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS (part D). Please completely answer all questions that apply and note that the words "project," "applicant," and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in Part B - Environmental Elements –that do not contribute meaningfully to the analysis of the proposal.

## ***A. Background [HELP]***

1. Name of proposed project, if applicable: Amendments to Chelan County Code Titles 11, 14, and 16 as it relates to short-term rentals.

2. Name of applicant: Chelan County

3. Address and phone number of applicant and contact person:

RJ Lott, AICP  
Chelan County Community Development  
316 Washington St. Ste 301  
Wenatchee, WA 98801

Phone: 509-667-6515

Email: RJ.Lott@co.chelan.wa.us

4. Date checklist prepared: June 7, 2020

5. Agency requesting checklist: Chelan County

6. Proposed timing or schedule (including phasing, if applicable):

Anticipated timing of the proposed amendments are:

Planning Commission public hearing: June 2020

County Commissioners public hearing: July/August 2020

Anticipated adoption: August/September 2020

7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.

N/A

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.

None anticipated.

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.

None.

10. List any government approvals or permits that will be needed for your proposal, if known.

Proposed amendments require adoption by the Chelan County Board of County Commissioners.

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

The proposal involves:

Amendments to portions of Title 11, Zoning, as it relates to short-term rentals.

Amendments to portions of Title 14, Definitions CCC 14.98, as it relates to short-term rentals.

Amendments to portions of Title 16, Enforcement and Violations, as it relates to short-term rentals.

A short-term rental refers to a residential dwelling rented on a nightly basis for less than 30 days to individual guests. It could be an entire home or just a portion of it. The short-term rental regulations are intended to address the following topics:

#	Objectives	Proposed Approaches
1	Establish protections for the supply and affordability of housing	Allow a small increase annually in short-term rentals. In areas with a high concentration, allow existing short-term rentals compliant with rules, but restrict new ones.
2	Preserve neighborhood quality	Address nighttime and daytime occupancy, managing parking, restricting trespass, ensuring solid waste management, limiting noise nuisances, etc.
3	Create protections for the wellbeing of guests	Provide for property management plan, health and safety, inspections by fire and health officials at start, self-certification at annual renewal, and insurance.
4	Establish oversight and complaint procedures for wellbeing of neighbors	Provide process for code compliance integrated with County code and state laws.
5	Preserve public tax revenues and level the playing field	Require short-term rentals owners/operators to comply with local and state tax requirements.
6	Regular permitting & record keeping	Provide process for initial permit and annual renewal.
7	Establish clear definitions	Consider state definitions and adapt for local needs.

The short-term rental regulations do not change standards for lot sizes, number of units allowed on a property by zone, building placement, construction standards, health requirements, or other rules for new construction. Rather they address use of the home for short-term rentals once constructed.

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you

are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

Throughout unincorporated Chelan County.

## **B. Environmental Elements** [\[HELP\]](#)

### **1. Earth** [\[help\]](#)

- a. General description of the site: Locations vary throughout Chelan County. Section 1 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

(circle one): Flat, rolling, hilly, steep slopes, mountainous, other \_\_\_\_\_

- b. What is the steepest slope on the site (approximate percent slope)?
- c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.
- d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.
- e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill.
- f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.
- g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?
- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

### **2. Air** [\[help\]](#)

- a. What types of emissions to the air would result from the proposal during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.

Locations vary throughout Chelan County. Section 2 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

c. Proposed measures to reduce or control emissions or other impacts to air, if any:

### 3. **Water** [\[help\]](#)

#### a. Surface Water: [\[help\]](#)

1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

Locations vary throughout Chelan County. Section 3 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

#### b. Ground Water: [\[help\]](#)

1) Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the

following chemicals. . . ; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

c. Water runoff (including stormwater):

- 1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.
- 2) Could waste materials enter ground or surface waters? If so, generally describe.
- 3) Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe.

d. Proposed measures to reduce or control surface, ground, and runoff water, and drainage pattern impacts, if any:

4. **Plants** [\[help\]](#)

a. Check the types of vegetation found on the site:

- deciduous tree: alder, maple, aspen, other
- evergreen tree: fir, cedar, pine, other
- shrubs
- grass
- pasture
- crop or grain
- Orchards, vineyards or other permanent crops.
- wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
- water plants: water lily, eelgrass, milfoil, other
- other types of vegetation

Locations vary throughout Chelan County. Section 4 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

b. What kind and amount of vegetation will be removed or altered?

c. List threatened and endangered species known to be on or near the site.

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

e. List all noxious weeds and invasive species known to be on or near the site.

**5. *Animals*** [\[help\]](#)

a. List any birds and other animals which have been observed on or near the site or are known to be on or near the site.

Examples include:

birds: hawk, heron, eagle, songbirds, other:

mammals: deer, bear, elk, beaver, other:

fish: bass, salmon, trout, herring, shellfish, other \_\_\_\_\_

Locations vary throughout Chelan County. Section 5 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

b. List any threatened and endangered species known to be on or near the site.

c. Is the site part of a migration route? If so, explain.

d. Proposed measures to preserve or enhance wildlife, if any:

e. List any invasive animal species known to be on or near the site.

**6. *Energy and Natural Resources*** [\[help\]](#)

a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

Locations vary throughout Chelan County. Section 6 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

- c. What kinds of energy conservation features are included in the plans of this proposal?  
List other proposed measures to reduce or control energy impacts, if any:

## **7. Environmental Health** [\[help\]](#)

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so, describe.

- 1) Describe any known or possible contamination at the site from present or past uses.

Locations vary throughout Chelan County. Section 7 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

- 2) Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.

- 3) Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project.

- 4) Describe special emergency services that might be required.

- 5) Proposed measures to reduce or control environmental health hazards, if any:

## **b. Noise**

- 1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

- 2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

- 3) Proposed measures to reduce or control noise impacts, if any:

## **8. Land and Shoreline Use** [\[help\]](#)

- a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.

Locations vary throughout Chelan County. Section 8 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

- b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use?

- 1) Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling, and harvesting? If so, how:

- c. Describe any structures on the site.

- d. Will any structures be demolished? If so, what?

- e. What is the current zoning classification of the site?

- f. What is the current comprehensive plan designation of the site?

- g. If applicable, what is the current shoreline master program designation of the site?

- h. Has any part of the site been classified as a critical area by the city or county? If so, specify.

- i. Approximately how many people would reside or work in the completed project?

- j. Approximately how many people would the completed project displace?

- k. Proposed measures to avoid or reduce displacement impacts, if any:

- L. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:
- m. Proposed measures to reduce or control impacts to agricultural and forest lands of long-term commercial significance, if any:

**9. Housing** [\[help\]](#)

- a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

Locations vary throughout Chelan County. Section 9 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.
- c. Proposed measures to reduce or control housing impacts, if any:

**10. Aesthetics** [\[help\]](#)

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

Locations vary throughout Chelan County. Section 10 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

- b. What views in the immediate vicinity would be altered or obstructed?
- b. Proposed measures to reduce or control aesthetic impacts, if any:

**11. Light and Glare** [\[help\]](#)

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

Locations vary throughout Chelan County. Section 11 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

- b. Could light or glare from the finished project be a safety hazard or interfere with views?

c. What existing off-site sources of light or glare may affect your proposal?

d. Proposed measures to reduce or control light and glare impacts, if any:

## **12. Recreation** [\[help\]](#)

a. What designated and informal recreational opportunities are in the immediate vicinity?

Locations vary throughout Chelan County. Section 12 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

b. Would the proposed project displace any existing recreational uses? If so, describe.

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:

## **13. Historic and cultural preservation** [\[help\]](#)

a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers? If so, specifically describe.

Locations vary throughout Chelan County. Section 13 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources.

c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.

d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required.

#### **14. Transportation** [\[help\]](#)

- a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any.

Locations vary throughout Chelan County. Section 14 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

- b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop?
- c. How many additional parking spaces would the completed project or non-project proposal have? How many would the project or proposal eliminate?
- d. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private).
- e. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.
- f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and nonpassenger vehicles). What data or transportation models were used to make these estimates?
- g. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe.
- h. Proposed measures to reduce or control transportation impacts, if any:

#### **15. Public Services** [\[help\]](#)

- a. Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe.

Locations vary throughout Chelan County. Section 15 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

- b. Proposed measures to reduce or control direct impacts on public services, if any.

**16. Utilities** [help]

- a. Circle utilities currently available at the site:  
electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system,  
other \_\_\_\_\_

Locations vary throughout Chelan County. Section 16 of this SEPA checklist generally does not apply to this non-project action. Please see section D for more information.

- c. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

**C. Signature** [HELP]

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature: \_\_\_\_\_

Name of signee Jim Brown

Position and Agency/Organization DIRECTOR, COMMUNITY DEVELOPMENT

Date Submitted: 6/10/2020

**D. Supplemental sheet for nonproject actions** [HELP]

(IT IS NOT NECESSARY to use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?

There are no anticipated increases to discharge to water, emissions to air, release of toxic or hazardous substances, or production of noise.

Proposed measures to avoid or reduce such increases are:

The proposed code amendments do not increase the density of housing units and does require adequate services while reducing, noise, garbage, and dust. Site specific projects would be reviewed independently at the time of application processing for compliance with County codes.

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

The proposed code amendments would not have direct impacts to plants, animals, fish, or marine life. Site specific project impacts would be reviewed independently at the time of application processing.

Proposed measures to protect or conserve plants, animals, fish, or marine life are:

None at this time as there are no direct impacts anticipated. The proposed code amendments do not increase density of housing units allowed by zoning when homes are constructed, or alter building placement. Should parking be altered to meet short-term rental requirements, parking design would need to meet county standards. This includes critical area regulations which are designed to avoid impacts to fish and wildlife habitat conservation areas.

3. How would the proposal be likely to deplete energy or natural resources?

The proposed code amendments would not have an anticipated depletion of energy or natural resources. Homes would be required to have access to power at time of construction and proposed regulations do not change the density of homes allowed on a property or the building code requirements.

Proposed measures to protect or conserve energy and natural resources are:

None at this time as there are no direct impacts anticipated.

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers; threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

The proposed code amendments would not have an anticipated effect on sensitive areas or areas designated for protection. The regulations address the use of homes for short-

term rental use. The regulations do not alter requirements for home construction which still must meet county, state, and federal regulations including flood hazard and critical area regulations. The short-term rental regulations would limit short-term rentals in agricultural and forest lands of long-term significance based on permit types and limits on number in the county generally.

Proposed measures to protect such resources or to avoid or reduce impacts are:

None at this time as there are no direct impacts anticipated.

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

The proposed code amendments would not change the density of homes or placement for new construction; the County's shoreline regulations and critical area regulations would remain. The amendments are compatible with existing Chelan County plans and documents.

Proposed measures to avoid or reduce shoreline and land use impacts are:

Site specific project impacts would be reviewed independently at the time of application processing.

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

The proposed code amendments would not have an affect on transportation or public service or utilities.

Proposed measures to reduce or respond to such demand(s) are:

Site specific proposals would be reviewed independently at the time of application processing. Adequate parking, septic, and water supply are requirements of the short-term rental operator and would be addressed at the time of permit review.

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.

The proposed code amendments are not anticipated to conflict with local, state, or federal laws or requirements for the protection of the environment. The amendments do not address new construction and would not conflict with standards that protect water quality, air quality, critical areas, shorelines, etc.
