DEMOLITION PERMIT APPLICATION

Parcel Number (APN): _____ **Lot Size:** _____ (Acres)
Parcel Address: _____ **City/Zip:** _____
Abbreviated Legal Description: _____
Property Owner(s): _____
Mailing Address: _____
City/State/Zip: _____ **Phone:** _____
E-mail: _____ **Copy of Recorded Deed is required as an attachment.**

Applicant: _____ **Company Name:** _____
Mailing Address: _____
City/State/Zip: _____ **Phone:** _____
E-mail: _____

Please check the box that applies to your proposed demolition:
 Building Demolition Under 2,500 sq ft (A flat fee of \$130 is applied for building demolition under 2,500 sq ft)
 Building Demolition Over 2,500 sq ft (A flat fee of \$175 is applied for building demolition over 2,500 sq ft)

*Please make sure to complete all information on pages 1 - 3 of the application.

I (We) certify (or declare) under penalty of perjury under the laws of the State of Washington that the foregoing is true, correct and complete to the best of my (our) knowledge. I (We) further certify (or declare) that all Easements, Deed Restrictions, other encumbrances, and/or issues restricting or affecting the use or condition of the property have been accurately disclosed to the best of my (our) knowledge and are shown on the site plan submitted with this application. I (We) understand that encroachment and/or building into easements, deed restrictions or other encumbrances are my (our) responsibility and not Chelan County's. I (We) further affirm that by my (our) signature below that I (we) have obtained legal permission to build within or encumber all easements on this property. Owner hereby releases, discharges, indemnifies and holds harmless the County from and against any and all claims, demands, causes of action, suits or judgments (including costs and expenses incurred in connection therewith) by both the easement holder or encumbered person(s) arising out of or in connection with the County's issuance of a building permit. (We) certify (or declare) that I (We) am the owner of the property or have been given authorization from the property owner to obtain this permit. I (We) further agree to comply with the International Building, Residential, Fire, Mechanical, Plumbing, and all applicable Chelan County/City Codes. Applicant/Owner(s) assumes all risk and liability for any claims and liabilities.

To: All Asbestos Abatement Customers

Re: Asbestos Packaging/Preparation (Update 6/8/09)

The following are policies/procedures that must be adhered to for acceptance of ACM for disposal at the Graham Road Landfill and or the Greater Wenatchee Regional Landfill. We reserve the right to prohibit any company that violates these policies from disposal of ACM at either of these facilities. Furthermore, any clean up or additional work required to dispose of improperly packaged or prepared ACM will be charged to your company at the full rate allowable by law.

1. Adequately Wet

- It is your responsibility to make sure that asbestos is adequately wet as required by regulation. This means adequately wet when the ACM is brought to and disposed of at the landfill, if at any time site personnel find evidence that the ACM is not wet as required the appropriate regulatory agency will be contacted.

2. Double Wrapped

- Burrito wrapped asbestos must be double wrapped in Re-enforced 6 mil thick plastic. Burrito style wrapped asbestos must have the seams glued and taped. Burrito wrapped ACM must be marked as required.
- Bagged asbestos must be double bagged and marked.
- Note: Re-enforced 6 mil plastic can be purchased locally, (Spokane) when purchased by the pallet load the cost is similar to regular 6 mil.
- Any loads (Burrito Style) arriving at these facilities after July 1, 2009 that are not double wrapped with re-enforced 6 mil will be rejected.

3. Repairs

- When unloading your asbestos, if at any time your packaging rips, tears or is breached in anyway you must immediately repair the breach. All transporters shall carry plastic, tape and glue at all times so the repair can be completed.

4. Documentation

- Waste Shipment Records (WSR) must accompany each load.
- (New) Alternate Work Plan (AWP) documentation must accompany the WSR when a project is working under the guidelines of an AWP.

5. Vermiculite

- Waste Management requires that all Vermiculite is double bagged in marked bags and disposed of as asbestos. If an AWP is being followed, WM must be notified and AWP documentation must be provided. Additional requirements or charges may apply.

Sincerely,
Waste Management of Washington Inc.

David K Lowe
District Manager
