**Fire System Deferred Submittal Requests**

**Please check the  
box for the  
applicable system**

<b>Fire Sprinkler</b> (Plans, cutsheets and hydraulic calculations as applicable to be submitted after FM approval for the fire portion of the building permit application.
<b>Fire Alarm</b> (Plans, cutsheets and battery calculations as applicable to be submitted after FM approval for the fire portion of the building permit application.
<b>Fire or Hood Suppression System</b> (Plans and cutsheets as applicable to be submitted after FM approval for the fire portion of the building permit application.
<b>Fire Hydrant or Water Tank for Alternate Supply of Fire Flow</b> (Plans and cutsheets as applicable to be submitted after FM approval for the fire portion of the building permit application.

This request is for the deferred submittal of a fire system only. A Fire Protection Credit form must be submitted to request credit for any other alternative measures in place of the fire flow requirements.

I hereby assume all risk, financially and otherwise, for any construction performed that may need to be removed if the deferred submittals listed above are not appropriate. I understand that approval for the above deferred submittal(s) may take up to ten working days (or longer if there are problems with the submittal) from the date of submission. I understand that certain inspections will NOT be performed until the submissions are accepted. I understand additional fees will be required based on the additional time spent for plan review. All deferred submittals must be submitted to the design professional in responsible charge of the above project for written approval prior to submittal to Chelan County Fire Marshal’s Office.
