1. Introduction

Among other goals and requirements, the Shoreline Management Act identifies shoreline public access as a preferred use (RCW 90.58.020). Due to extensive government ownership along shorelines throughout Chelan County— 75% of shoreline jurisdiction acres are publicly owned – current and potential park and public access opportunities are fairly abundant. However, the present public access opportunities may not be ideally located, improved, or accessible. The purpose of this document is to present a shoreline public access plan that can be integrated into the overall Shoreline Master Program Update and address opportunities and gaps in shoreline public access.

The Shoreline Master Program Guidelines (Guidelines; WAC 173-26) indicates public access “should” be required for new private uses of a certain type or size and “shall” be required for new public uses.¹ The WAC includes a threshold to provide physical and visual access when a subdivision of land into more than four parcels is proposed; it is also required for commercial, industrial and recreational development.

A site-by-site approach to providing public access may not be appropriate for Chelan County because it may result in uncoordinated and piecemeal public access facilities that do not connect residents and tourists to desired destinations.

An alternative to the site-by-site approach is to conduct a shoreline public access planning process. The WAC at section 173-26-221(4)(c) describes this process as follows:

Local governments should plan for an integrated shoreline area public access system that identifies specific public needs and opportunities to provide public access. Such a system can often be more effective and economical than applying uniform public access requirements to all development. This planning should be integrated with other relevant comprehensive plan elements, especially transportation and recreation. The planning process shall also comply with all relevant constitutional and other legal limitations that protect private property rights.

Where a port district or other public entity has incorporated public access planning into its master plan through an open public process, that plan may serve as a portion of the local government’s public access planning, provided it meets the provisions of this chapter. The planning may also justify more flexible off-site or special area public access provisions in the master program. Public participation requirements in WAC 173-26-201 (3)(b)(i) apply to public access planning.

¹ The word “should” means in the SMP Guidelines: “that the particular action is required unless there is a demonstrated, compelling reason, based on policy of the Shoreline Management Act and this chapter, against taking the action.”

At a minimum, the public access planning should result in public access requirements for shoreline permits, recommended projects, port master plans, and/or actions to be taken to develop public shoreline access to shorelines on public property. The planning should identify a variety of shoreline access opportunities and circulation for pedestrians (including disabled persons), bicycles, and vehicles between shoreline access points, consistent with other comprehensive plan elements.

In summary, this shoreline public access plan is intended to meet the Shoreline Master Program Guidelines by recognizing local conditions and providing a regional perspective to meet current and future community shoreline access needs. In particular, this shoreline public access plan does the following:

- Integrates with other community comprehensive and parks plans
- Identifies needs and opportunities
- Summarizes public participation in past and present recreation planning efforts
- Results in identification of actions to be taken to develop public shoreline access to shorelines on public property, recommended projects, and/or requirements for shoreline permits, recognizing that the planning process may also justify more flexible off-site or special area public access provisions

2. Shoreline Public Access Laws and Rules

Public access refers to the ability of the general public “to reach, touch, and enjoy the water's edge, to travel on the waters of the state, and to view the water and the shoreline from adjacent locations” (WAC 173-26-221(4)(a)). Public access can be physical access such as via a trail or park and/or visual such as a view corridor from a road.

Public access is a preferred use per the Shoreline Management Act (RCW 90.58.020). The Shoreline Master Program (SMP) Guidelines require that public access be provided with most new development, except that more flexibility is allowed where there is a coordinated public access planning process (WAC 173-26-221(4)(c)). When public access is addressed in a SMP, it implements the “public trust doctrine” which is a common law principle holding that “the waters of the state are a public resource owned by and available to all citizens equally for the purposes of navigation, conducting commerce, fishing, recreation and similar uses.” While the doctrine “protect(s) public use of navigable water bodies below the ordinary high water mark,” the doctrine “does not allow the public to trespass over privately owned uplands to access the

tidelands.”² Generally, public or private landowners are limited in terms of liability when there are unintentional injuries to any public access users based on state law at RCW 4.24.210.

3. Study Area

The shoreline public access study area addresses parks and recreation facilities and plans associated with Chelan County: the Cities of Cashmere, Chelan, Entiat, Leavenworth and Wenatchee: utility district; state; federal; and community land trust data. This shoreline public access plan considers all recreation and open space facilities in the County regardless of which agencies manage them, because it appears most shoreline parks and recreation facilities are used or could be used by the entire region’s residents as well as tourists. A map of Chelan County, current urban growth boundaries, and US Census County Subdivisions appears in Figure 1 on the following page.

² See the State of Washington’s Department of Ecology’s website at: http://www.ecy.wa.gov/programs/sea/sma/laws_rules/public_trust.html. Accessed March 24, 2010.

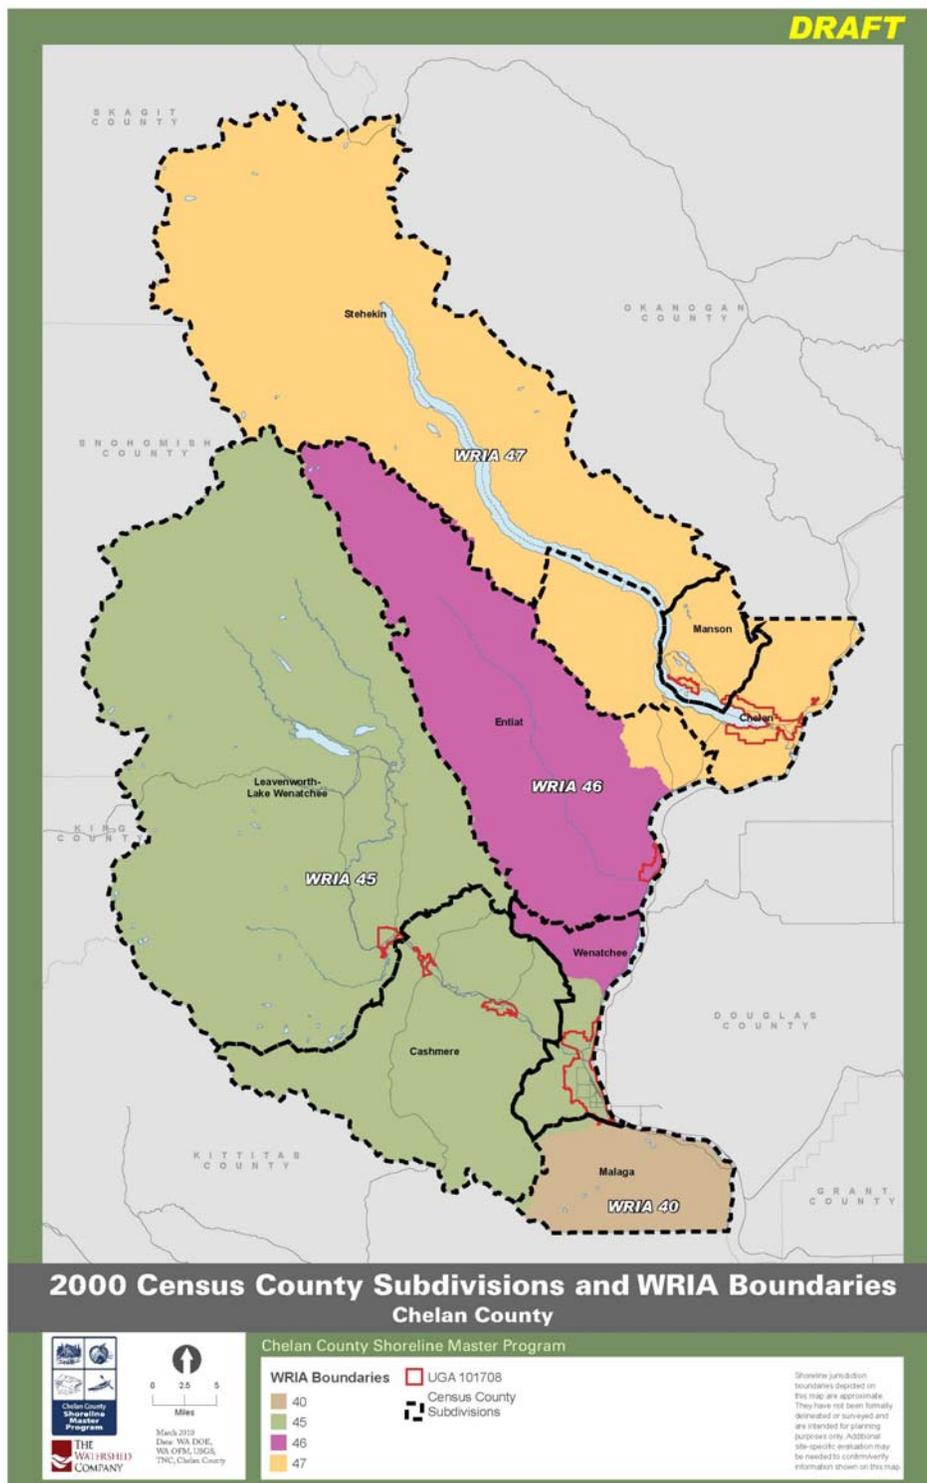

Figure 1. 2000 Census County Subdivisions and WRIA Boundaries

4. Shoreline Recreation Goals and Plans

In addition to federal and state agencies, Chelan County and the Cities of Cashmere, Chelan, Entiat, Leavenworth, and Wenatchee, as well as special districts such as the Chelan County Public Utilities District (PUD), have developed parks and recreation plans that address shoreline public access. These plans are summarized below. To supplement the current plans, this shoreline public access plan includes additional goals and policies to guide future shoreline uses and activities (see Section 8).

County, City, PUD and other parks and recreation plans identify projects including shoreline public access improvements. The various agency plans are summarized below and reflected on the maps in Section 9 where possible.

a. County Plans

In 2007, Chelan County prepared a Comprehensive Parks and Recreation Plan. The plan provides community goals and an indication of potential projects important to consider. By itself, the plan does not qualify as a shoreline public access plan due to the broad nature of the document. However, the following elements of the Comprehensive Parks and Recreation Plan are relevant to the SMP update and to the future shoreline public access plan:

- Vision: Chelan County provides a mix of parks, recreation and open space that complements community character, creates diverse opportunities for residents and visitors, and preserves ecological functions.
- Goals and Policies: Among several, the following are most relevant:
 - Goal PR2, Policy 1: Encourage the following criteria to be addressed in the development of park plans by public entities: A. Evaluate the need for new park facilities using the Recreation and Conservation Funding Board format; B. Neighborhood parks should be sited for accessibility and the enhancement of neighborhood; C. Evaluate need for waterfront access and waterfront-dependent activities, activity fields (soccer, etc.), special purpose facilities (sky park, skate park, etc.), indoor facilities, community centers, trails, funding mechanisms, and construction, and maintenance and operation.
 - Goal PR2, Policy 3: Encourage public access to shoreline areas in the development and maintenance of park and recreation opportunities, where consistent with the protection of critical areas and private property rights.
- Improvement Program: The improvement program includes additional plans and improvements, such as a Comprehensive Trails Plan, Expo Center improvements, Stemilt Basin Land Exchange and Subarea Plan (Stemilt-Squilchuck Community Vision, TPL),

Subarea Parks Planning, Citizen Questionnaire and Feasibility studies, Columbia River Water Access and Boating Plan, Multi-Sport Eight-Plex, Manson's Old Mill Campground, Manson Marina Expansion, and Wenatchee Row and Paddle Boating Facility Upgrade.

b. City Plans

The Cities of Cashmere, Chelan, Entiat, Leavenworth, and Wenatchee have adopted detailed parks, recreation, open space, and trails plans – focusing on public lands. These plans outline public outreach, goals, policies, levels of service standards, proposed projects, capital costs, and implementation strategies. These cities use the plans to not only document local needs and desires, but also to be positioned to obtain grant funding from state and federal sources. These City plans, listed below, have been summarized under separate cover and are intended to become shoreline public access plans for each jurisdiction. These shoreline public access plans will be included as a part of the SMP Update such as in an appendix.

- City of Cashmere, Parks and Recreation Comprehensive Plan, 2009-15
- City of Chelan, Parks and Recreation Comprehensive Plan, 2008-14
- City of Entiat, Parks, Recreation, and Open Space Plan, 2009
- City of Leavenworth, Parks and Recreation Comp Plan, April 1997 and Upper Valley Regional Trails Plan, June 2009
- City of Wenatchee, Parks, Recreation & Open Space Plan 2006

City plans are reflected on the maps included in Section 9.

c. Public Utility District No. 1 of Chelan County

One key provider of parks and recreation along shorelines in Chelan County is the Public Utility District (PUD). The PUD maintains 10 facilities and 467 acres.

The PUD has also worked with local communities in the Wenatchee River valley to plan for parks and recreation areas. In March 2003, the Upper Valley Plan (for the Wenatchee River) was completed to develop an interpretive program focusing on sites exhibiting the natural and cultural resources of the Wenatchee River upper valley. The sites are located in Leavenworth, Peshastin, Dryden, Cashmere, and Monitor. The plan was not formally adopted, but serves as a guide to identify interpretive sites, river access points, and habitat enhancement, as well as promoting tourism. Concept plans are included in the Upper Valley Plan for the Wenatchee River and provide more detail (J.T. Atkins & Company PC and J.A. Brennan and Associates PLLC, March 2003).

d. Land Trusts

Two land trusts are particularly active in Chelan County: The Chelan-Douglas Land Trust and The Trust for Public Land. Both trusts have active programs for land stewardship and open space acquisition in and around Chelan County. Trust planning, stewardship and land acquisitions may help local governments and citizens to further public access goals and prioritize efforts.

5. Public Review Process

In addition to the public outreach opportunities associated with adopted parks and recreation plans, Chelan County sponsored four workshops and distributed questionnaires associated with this Shoreline Public Access Plan. In addition the County met with agency property owners who could be partners in the implementation of the shoreline public access plan. The shoreline public access plan will also be part of the public hearing process associated with the SMP Update. The public review process is summarized below.

a. April 2010 Workshops and Questionnaires

Two shoreline public access meetings were held. The first meeting on April 21st was held at the City of Chelan Council Chambers at 6 p.m. and 20 persons participated. The second meeting on April 22nd was a joint public access subcommittee meeting, held at the Confluence Technology Center in Wenatchee at 9 a.m. and 24 persons participated. The meetings began with a presentation about current shoreline public access facilities and plans and an analysis of gaps. County, city staff and consultants facilitated a general question and answer session, followed by small group discussions of the following key questions:

- Is there enough shoreline public access?
- What types of facilities are needed?
- What areas are well served by shoreline public access?
- What shoreline public access standards make sense for Chelan County?
- Where are there gap areas?
- Where are opportunities to fill gaps?
- Where are the priority locations for shoreline public access?

Participants could mark corrections and opportunities on posters.

As part of the April 2010 public meetings, and separately via email to a stakeholder database, the County and City of Chelan distributed questionnaires asking similar questions as at the public meetings above. The purpose was to provide another method to obtain input. A total of 25 questionnaires were received (10 city questionnaires and 15 countywide questionnaires).

Results varied based on location and individual opinion. Following are potential gaps identified at the workshops and in questionnaires based on geographic locations shown on the following map:

- Lake Chelan Census County Division (CCD)
 - Some see gaps, e.g. north shore, others do not
 - Many identified improvements needed at Don Morse Park and Lakeside Park including parking
 - Several noted the crowds in the summertime
- Wenatchee/Entiat CCDs: Gap on the Columbia River, between Rocky Reach Dam and Entiat
- Malaga CCD: Lacks all types of facilities
- Leavenworth-Lake Wenatchee CCD: Gap at Lake Wenatchee (north shore) and Fish Lake
- Cashmere CCD: Gaps in Peshastin

b. June 2010 Meetings

As a follow up to the April workshops, two meetings were held, the first on June 9 and the second on June 10, 2010. The June meetings were advertised through the same means as the April meetings. There were 20 participants on June 9th at the meeting at City of Chelan Council Chambers and eight participants at the public access subcommittee meeting. The purposes of the meetings were to:

- Describe Gaps & Opportunities shared by participants at the April 2010 meetings
- Describe proposed Shoreline Recreation Policies, Standards & Implementation Strategies
- Allow for small group discussions of questions such as:
 - Shoreline Standards – 15 mile and 1.5 mile distance and percentage of population. Could largely be met by current & planned facilities. Is this a reasonable standard for the County?
 - Policies – What policies do you like? Need to change? Are missing.
 - Shoreline proposals for Malaga, Wenatchee/Entiat, Lake Wenatchee, Chelan. Right location & types of facilities? Are we missing a major gap/opportunity?

- Implementation. Where should County look for funding? Who are viable partners that could maintain sites? Federal, state, county, city, PUD, parks districts, land trusts, volunteers?

In general there was acceptance of the proposed standards, minimal discussion of policies, general concurrence about the area-specific proposals (e.g. multi-use facility in Malaga, Chelan fishing pier at Dietrich Road, etc.), identification of additional opportunities in some locations, and discussion of funding and maintenance options.

c. Agency Property Owner Meeting

Chelan County staff invited agency staff from public agencies including the Chelan County Public Utility District, Port of Chelan County, US Bureau of Reclamation, and US Forest Service, as well as an Alcoa representative, to discuss potential public agency and public/private partnerships to addressing public access in gap areas. The meeting was held on July 27, 2010. Staff reviewed a similar presentation as at the June public workshops, and questions regarding opportunities, constraints, and implementation.

d. Additional Public Outreach Activities

This draft shoreline public access plan will be integrated into the SMP Update process and will be the subject of additional community meetings and hearings. Interested citizens can contact the Chelan County Natural Resources Department for additional information, or view the County's website: http://www.co.chelan.wa.us/nr/nr_shoreline_master_program.html.

6. Parks and Recreation Standards

Various agencies have developed parks and recreation planning standards frequently based on best practices, determined by experts in the field, and through public outreach. Planning standards for public access can take the form of the quantity of a park and recreation facility in relation to population – for example linear feet of trail per 1,000 population. Chelan County reviewed various sources of parks and recreation standards, including:

- **Locally adopted standards.** Each City in Chelan County has developed standards in their parks, recreation, open space and trails plans.
- **State guidance.** The Washington State Recreation and Conservation Office (RCO) has developed preliminary standards in the 2008 document “Defining and Measuring Success: The Role of State Government in Outdoor Recreation.” These are community wide, not shoreline specific.
- **Other studies for small communities.** In 2003, the State of Colorado Department of Local Affairs funded a study called “Small Community Park & Recreation Planning Standards” for small communities of 10,000 population or less.
- **National sources.** The National Recreation and Park Association (NRPA) has developed parks and recreation; however these are focused on recreation programmed parks in urban metropolitan areas. These standards could still apply in communities the size of Wenatchee.

Preliminary RCO standards are illustrated in Table 1. There are baseline and enhanced guidelines that address participation and proximity. The RCO “proposes to test the level of service concept in cooperation with the National Park Service in future grant cycles of the federal Land and Water Conservation Fund grant program.” For the purposes of the Chelan County shoreline public access plan, the preliminary RCO standards were adapted for use, recognizing that the state goal was to ensure outcomes were measured consistently and funding choices were being made in a comparable manner across the state.

Table 1. Preliminary RCO Level of Service Standards for Local Agencies – Communitywide

Local Agency Level of Service Indicators					
Indicators	Level of Service Ratings				
	A	B	C	D	E
Baseline Criteria: Per Capita Participation					
Individual Active Participation Percent of population that participates in one or more active outdoor activities	66-100%	51-65%	41-50%	31-40%	0-30%
Facility Capacity: Activity-Specific Participation Existing facilities meet this percentage of activity-specific demand	76-100%	61-75%	46-60%	31-45%	0-30%
ENHANCED CRITERIA: Service Area/Population-Based (Equity)					
Urban Park, Trail Percentage of population within ½ mile of a neighborhood park or trail	76-100%	61-75%	46-60%	31-45%	0-30%
County Park, Trail* Percentage of population within 1-1/2 miles of a county park/trail	76-100%	61-75%	46-60%	31-45%	0-30%
Regional Park, Trail* Percentage of the population within 25 miles of a regional park or trail	76-100%	61-75%	46-60%	31-45%	0-30%
In-depth Enhancement: Function-Based Guidelines					
Agency-based Assessment Percentage of facilities that are fully functional per their specific design and safety guidelines (based on manager assessment)	81-100%	61-80%	41-60%	21-40%	0-20%
Public satisfaction Percentage of population satisfied with the condition (including facility condition, cleanliness, etc.) of existing outdoor park and recreation facilities	66-100%	51-65%	36-50%	26-35%	0-25%
Operations and Maintenance On average, routine operations and maintenance funded at this percentage of annual need (does not include major capital development)	80-100%	61-80%	41-60%	21-40%	0-20%
Access Percentage of facilities that may be accessed safely via foot, bicycle, or public transportation	80-100%	61-80%	41-60%	21-40%	0-20%
* "County" is defined as a site or facility intended to serve the providing county's population. "Regional" is defined as a site or facility intended to serve populations that cross jurisdictional boundaries.					

Source: Washington State Recreation and Conservation Office (RCO) in the 2008 document "Defining and Measuring Success: The Role of State Government in Outdoor Recreation."

After reviewing example standards and following discussion at shoreline public access meetings, Chelan County is proposing the following standards:

- More than 90% of resident population within 15 miles of regional boating, fishing, trails, parks, and open space facilities.
- More than 50% of resident population within 1.5 miles of local/community shoreline parks and trails.

Both proposed regional and local standards are oriented to shoreline public access facilities whereas RCO standards are countywide. The 15 mile standard is a higher standard than the 25 mile RCO standard for regional parks and trails, but reflects the County topography and importance of regional facilities to the residents and local economy. The 1.5 mile standard is the same as RCO standards though oriented to shoreline facilities. Even when just considering shoreline facilities, the analysis in this document shows over 90% of the resident population within a 15 mile radius of a current or planned shoreline facility and over 50% of the population at within a 1.5 mile radius of a current or planned shoreline facility.

7. Public Access Analysis & Objectives by Census County Divisions

To compare how different parts of the County are served, the sections below describe quantity and proximity of shoreline recreation opportunities in relation to residents and tourists. The County geography, population, and tourists are divided into Census County Divisions (CCDs), which happen to be similar to Watershed Resource Inventory Areas. Please see Figure 1. A wide range of recreation and open space facilities are found along County shorelines, including parks, protected open space, trails, campgrounds, fishing easements, boat launches, marinas, and other facilities. Please see the Public Access maps in Section 9.

a. Analysis

This section addresses the amount of shoreline recreation facilities in proximity to residents and tourists. The number of acre or miles of facilities includes only those portions in the shoreline jurisdiction.

Tables 2 and 3 present acres of shoreline parks and acres of shoreline public and protected lands in relation to the Year 2000 and Year 2030 populations. Observations include that all areas have some amount of protected lands along shorelines, but that parks which typically have more formal opportunities to recreate such as picnic areas, trails, etc. are less abundant. Additionally, if no additional formal park acres are provided beyond adopted plans already considered, the acres per 1,000 population countywide would drop by about 34% between 2000 and 2030.

All CCDs have shoreline public and protected lands, largely due to federal lands in the upper watersheds and PUD lands along the Columbia River, as well as other City, County, and state holdings. Relative to other CCDs, Stehekin has an abundance of facilities and a very small population – it is an outlier. Chelan, Entiat, and Leavenworth-Lake Wenatchee CCDs have moderate amounts of park acres per 1,000 population. On the other end of the spectrum, due to its relatively higher population, the Wenatchee CCD has a small amount of parks and open space per 1,000 population. Much of the central Wenatchee shoreline waterfront is fully

available for shoreline recreation, but less available to the north and south extremes of the Urban Growth Area. Wenatchee has plans to add shoreline recreation acres in its Urban Growth Area, but specific sites are not identified. The Cashmere CCD has fewer acres per 1,000, though its share increases by 2030 due to adopted plans. In Manson, acres per 1,000 are low; this is due to several of the parks and open space sites that have parcels extending into aquatic areas which are not counted in the acres. Malaga is not served by formal shoreline parks and has only a small amount of public or protected land.

Table 2. Acres of Shoreline Parks and Protected Lands per 1,000 Population – Year 2000

CCD	Total Acres	Other Public & Protected Lands - Acres	Parks-Acres	2000 Population	Total Acres per 1,000 Population	Public/Protected Acres per 1,000 Population	Park Acres per 1,000 Population
Cashmere	800	791	8	10,824	73.9	73.1	0.8
Chelan	761	654	107	6,222	122.3	105.0	17.2
Entiat	3,343	3,299	44	2,130	1,569.6	1,549.0	20.5
Leavenworth-Lake Wenatchee	17,844	17,725	119	5,902	3,023.3	3,003.2	20.1
Malaga	176	176		3,506	50.3	50.3	0.0
Manson	95	90	5	3,248	29.3	27.8	1.6
Stehekin	8,677	6,078	2,599	106	81,861.1	5,7341.2	24,519.9
Wenatchee	200	144	56	34,678	5.8	4.2	1.6
Total	31,896	28,958	2,938	66,616	478.8	434.7	44.1
(Minus Stehekin)	23,219	22,880	339	66,510	349.1	344.0	5.1

Sources: The Watershed Company; GIS Analysis; US Census 2000

Table 3. Acres of Shoreline Parks and Protected Lands per 1,000 Population – Year 2030

CCD	Total Acres	Other Public & Protected Lands -Acres	Parks-Acres	2030 Pop-ulation**	Total Acres per 1,000 Population	Public/Protected Acres per 1,000 Population	Parks Acres per 1,000 Population
Cashmere	836	791	44	16,710	50.0	47.3	2.7
Chelan *	761	654	107	9,521	79.9	68.6	11.3
Entiat	3,343	3,299	44	3,204	1043.4	1,029.8	13.6
Leavenworth-Lake Wenatchee	17,844	17,725	119	8,813	2,024.7	2,011.2	13.5
Malaga	176	176		5,146	34.3	34.3	-
Manson	95	90	5	4,825	19.4	18.7	1.1
Stehekin	8,677	6,078	2,599	181	47940.8	33,581.0	14,359.7
Wenatchee*	200	144	56	53,295	3.8	2.7	1.0
Total	31,930	28,958	2,974	101,695	314.0	284.8	29.2
(Minus Stehekin)	23,253	22,880	375	101,514	229.1	225.4	3.7

*Cities in these CCDs propose additional parks that would contribute additional acres when sited.

** Due to the lack of intercensal data at the CCD level, the 2030 numbers represent year 2008 to 2030 growth added to year 2000 Census information. Excludes 5,484 in population growth between 2000 and 2008. Based on State Office of Financial Management information, it is estimated that about 70% of this growth occurred in the cities (mostly in Wenatchee) and 30% in unincorporated Chelan County. This would slightly reduce the acres per 1,000 population for the Cities and the County. At a total County level, adding in 5,484 population would decrease the total acres per 1,000 to 297.9, decrease the public/protected acres per 1,000 to 270.2, and the parks acres per 1,000 to 27.8 (instead of 29.2).

Sources: The Watershed Company; GIS Analysis; Chelan County Comprehensive Plan 2009

Table 4 presents miles of trails per 1,000 population for Year 2000 and 2030 periods.

Countywide, there is about 1.5 mile of shoreline trail per 1,000 population, which would be reduced to 1.4 mile per 1,000 population by 2030 even if accounting for some planned trails in adopted City plans. CCDs well served include Entiat and Stehekin because of lower populations and greater opportunities in the upper watersheds for hiking trails. Leavenworth-Lake Wenatchee is also relatively well served and would improve with the implementation of the Upper Valley Regional Trails Plan. Chelan and Manson have particularly low miles per 1,000 population. Wenatchee is also low in terms of miles per 1,000 population but is serving a large urban population and has an extensive waterfront recreation area; the City and PUD have plans to extend shoreline recreation in the northern UGA. Malaga is not served by trails along the shoreline.

Table 4. Current and Planned Trail Miles per 1,000 Population – Year 2000 and 2030

CCD	2010 Miles	2000 Pop-ulation	2000 Miles per 1,000	2030 Miles	2030 Pop-ulation*	2030 Miles per 1,000
Cashmere	3.6	10,824	0.3	6.7	16,710	0.4
Chelan	0.5	6,222	0.1	2.2	9,521	0.2
Entiat	21.5	2,130	10.1	24.6	3,204	7.7
Leavenworth-Lake Wenatchee	57.3	5,902	9.7	87.4	8,813	9.9
Malaga	0.0	3,506	-	0.0	5,146	-
Manson	0.4	3,248	0.1	0.4	4,825	0.1
Stehekin	15.2	106	143.0	15.2	181	83.7
Wenatchee	2.8	34,678	0.1	2.8	53,295	0.1
Total	101.3	66,616	1.5	139.3	101,695	1.4
(Minus Stehekin)	86.2	66,510	1.3	124.1	101,514	1.2

** Due to the lack of intercensal data at the CCD level, the 2030 numbers represent year 2008 to 2030 growth added to year 2000 Census information. Excludes 5,484 in population growth between 2000 and 2008. Based on State Office of Financial Management information, it is estimated that about 70% of this growth occurred in the cities (mostly in Wenatchee) and 30% in unincorporated Chelan County. This would slightly reduce the acres per 1,000 population for the Cities and the County. At a total County level, adding in 5,484 population would decrease 2030 miles per 1,000 to 1.3 instead of 1.4.

Sources: The Watershed Company; GIS Analysis; US Census 2000; Chelan County Comprehensive Plan 2009

Table 5 shows the number of boat launches and the population and tourists they may serve. Entiat, Cashmere, and Manson CCDs have the most well served resident population and Malaga the least well served. The potential for boat launch use is highest in Wenatchee, Leavenworth-Lake Wenatchee and Chelan CCDs. However, it should be noted that the capabilities of the boat launches are different, with lake boat launches used for motorized boats and river launches used for non-motorized watercraft; an exception is the Columbia River which is used by motorized craft. A motorized boat launch within 15 miles of residents or tourist accommodations may not be possible in some cases given lack of water navigable by a motorized craft.

Table 5. Estimated Population and Tourists Served by Boat Launches – Year 2000 and 2030

CCD	Boat Launches 2010	2000 Pop-ulation	2000 Tourists Est.*	Total Served Per Launch	2030 Pop-ulation**	2030 Tourists Est.*	Total Served Per Launch
Cashmere	3	10,824	70,886	27,282	16,710	264,664	93,963
Chelan	6	6,222	306,846	42,615	9,521	1,145,660	156,825

Wenatchee	3	34,678	163,116	107,110	53,295	609,020	374,519
Total	22	66,616	1,001,215	48,538	101,695	3,738,200	153,596

* Estimated tourists based on Washington State Department of Commerce study of tourist expenditures in the County (Washington State Travel Impacts: 1991-2009) divided by average per trip expenditures. Project tourists to the year 2030 by using an average annual growth rate derived from 10 years of historic data.

** Due to the lack of intercensal data at the CCD level, the 2030 numbers represent year 2008 to 2030 growth added to year 2000 Census information. Excludes 5,484 in population growth between 2000 and 2008. Based on State Office of Financial Management information, it is estimated that about 70% of this growth occurred in the cities (mostly in Wenatchee) and 30% in unincorporated Chelan County. This would slightly reduce the acres per 1,000 population for the Cities and the County. At a total County level, adding in 5,484 population would increase the total population served per launch to 153,815 instead of 153,596.

*** In the CCD there are two facilities. The City of Entiat plans to add three new facilities. The 2030 numbers reflect this increase from 2 to 5 launches in the CCD.

**** While there is a boating facility in this CCD it is currently not open to the public.

Sources: The Watershed Company; GIS Analysis; US Census 2000; Chelan County Comprehensive Plan 2009

At a regional scale, most of the resident and tourist population (over 90%) is within 15 road miles of public access facilities as shown in Tables 6 and 7 and in Section 9. Under typical circumstances this would mean a 15-minute drive for residents or visitors to arrive at a walking trail in summer evenings or a 15-minute drive to a boat launch or a fishing spot on a weekend. See above regarding lack of water navigable by a motorized craft in some locations. Additionally, some of the fishing locations are unimproved easements and may be difficult to access.

Source: The Watershed Company; GIS Analysis

Both resident population and tourist accommodations within 1.5 miles of current or planned parks and trails are presented on maps in Section 9. Tourist accommodations are generally located within 1.5 miles of recreation facilities: 66% are near parks and 77% are near trails. Table 8 focuses on current and future resident population within 1.5 miles of parks and trails facilities. At this scale, about 50% of the population is in proximity of trails and 70% in proximity of parks, mostly within the urban growth areas or fringes. Reviewing data and maps, the areas where at least half or more of the current or future population is in close proximity to current or planned parks or trails include: Cashmere, Chelan, Entiat, Manson and Leavenworth-Lake Wenatchee and Wenatchee CCDs. Malaga population is further than 1.5 miles. Stehekin population is further than 1.5 miles to formal parks but very close to protected open space.

Table 8. Residents within 1.5 miles of Current and Planned Parks and Trails

CCD	Total Resident Population		Population within 1.5 miles of trails		Population within 1.5 miles of parks	
	2000	2030*	2000	2030*	2000	2030*

* Due to the lack of intercensal data at the CCD level, the 2030 numbers represent year 2008 to 2030 growth added to year 2000 Census information. Excludes 5,484 in population growth between 2000 and 2008. Based on State Office of Financial Management information, it is estimated that about 70% of this growth occurred in the cities (mostly in Wenatchee) and 30% in unincorporated Chelan County. This would slightly change the 2030 results presented.

Sources: The Watershed Company; GIS Analysis; US Census 2000; Chelan County Comprehensive Plan 2009

Areas that may require additional attention particularly in terms of residential population in proximity to trails or parks include:

- Chelan UGA, northern
- Wenatchee UGA, northern
- Malaga CCD
- Cashmere CCD, western
- Leavenworth-Lake Wenatchee CCD, northern

b. Opportunities

As part of the Chelan County Shoreline Public Access planning process, agencies and citizens were asked their thoughts on public access opportunities – either for improving existing sites or for adding new ones. The opportunities were noted on maps of the whole county. Several opportunities have been considered in the implementation strategy in Section 8 and others can be considered the future as the County updates its parks and recreation plans. See the maps and documentation in Section 9. A partial list is shown in Table 9.

Table 9. Shoreline Public Access Opportunities – April 2010

CCD	Partial List of Opportunities
Cashmere	
Cashmere	WDFW site – opportunity for developed access
Peshastin	Peshastin Mill Flats [1], Dryden Dam, Lynn St .Easement
Chelan	
Chelan	Don Morse Park, Lakeside Park, Proposed Lakeside Water Street Neighborhood Access, Chelan River
Entiat	
Entiat	City waterfront plan area and Entiaqua Park, Entiat River public access, Columbia River PUD property
Leavenworth-Lake Wenatchee	
Leavenworth	UGA private park
Lake Wenatchee	North shore Lake Wenatchee, road around lake, Fish Lake
Malaga	PUD, County, US Govt properties, public/private partnership
Manson	Bureau of Reclamation, Manson Marina, Pine Crest, Private if compensated
Wenatchee	South of bridge, two access/restoration sites

[1] After the April 2010 public workshops, the Port of Chelan County adopted a policy allowing limited public access. Based on a June 10, 2010 article in *The Wenatchee World*: “The former Peshastin mill site is now open for nonmotorized recreational use. A new policy approved last week by the Port of Chelan County and the Peshastin Community Council opens the 64-acre site along the Wenatchee River to hikers, bicycle riders, anglers, swimmers, picnickers and other recreational users, with some limits, said Steve Keene, chairman of the community council. Motorized vehicles, fires, smoking and camping are prohibited in the area. Recreational users of the area do so at their own risk and liability, Keene stated in a news release.”
[\(http://www.wenatcheeworld.com/news/2010/jun/10/old-mill-site-now-open-to-limited-public-use/\)](http://www.wenatcheeworld.com/news/2010/jun/10/old-mill-site-now-open-to-limited-public-use/)

8. Implementation

a. Shoreline Public Access Policies

The Shoreline Master Program is required to contain policies (and regulations) guiding public access. In addition to policies of adopted parks and recreation plans, the following proposed policies are intended to be incorporated into the Shoreline Master Program and apply Countywide:

1. **Types of public access.** Public access includes both physical and visual approaches to shorelines. Scattered, small access points with low levels of alteration are preferred by some recreators for certain uses (e.g., fishing), but not others (e.g., RV camping, swim beaches, picnicking, event facilities).
2. **Increase public access where appropriate.** Chelan County and Cities should seek to increase the amount and diversity of public access to shorelines consistent with shoreline

public access plans, the natural shoreline character, property rights, public rights under the Public Trust Doctrine³, and public safety.

3. **Priorities.** Public access should be maintained, enhanced, and increased in accordance with the following priorities unless found infeasible:
 - Maintain existing public access sites and facilities, rights of way, and easements.
 - Provide new or enhance existing public access opportunities on existing public lands and easements.
 - Acquire property or easements to add public access opportunities to implement adopted public access plans and/or to recognize opportunities to protect areas that hold unique value for public enjoyment.
 - Encourage public access to shorelines as part of shoreline development activities.
4. **Public access planning standards.**⁴
 - a. Chelan County should, in partnership with other federal, state, special district, and municipal agencies aim for a shoreline public access system that results in:
 - More than 90% of resident population within 15 miles of regional boating, fishing, trails, parks, and open space facilities.
 - More than 50% of resident population within 1.5 miles of local/community shoreline parks and trails.
 - b. Cities should implement planning standards that are consistent with their adopted parks and recreation plans as identified in Appendix G.
5. **Implementation.** Chelan County and the Cities should implement shoreline public access plans contained in Appendix G that focus on development of shoreline recreation to meet growing resident populations and tourists. Implementation strategies should address public access and recreation standards and a capital improvement program. The County and Cities should periodically review the shoreline public access plans, every seven years. (RCW 90.58.080)

³ The “public trust doctrine” is a common law principle holding that “the waters of the state are a public resource owned by and available to all citizens equally for the purposes of navigation, conducting commerce, fishing, recreation and similar uses.” While the doctrine “protect(s) public use of navigable water bodies below the ordinary high water mark,” the doctrine “does not allow the public to trespass over privately owned uplands to access the tidelands.” See: http://www.ecy.wa.gov/programs/sea/sma/laws_rules/public_trust.html.

⁴ See Section 6.

6. **Public access exceptions.** Public access should not be required where it is demonstrated to be infeasible due to reasons of incompatible uses, safety, security, or impact to the shoreline environment or due to constitutional or other legal limitations that may be applicable.
7. **Willing property owners.** Local governments and other agencies should seek willing property owners to participate in public access projects. Where purchase of property is negotiated, local governments, agencies, or private parties seeking off-site mitigation areas are obligated to pay fair market value for private properties included in public access projects.
8. **Respect private property.** Public access does not include the right to enter upon or cross private property, except on dedicated public rights-of-way or easements or where development is specifically designed to accommodate public access. The design of public access should minimize potential impacts to private property and individual privacy. This may include providing a physical separation to reinforce the distinction between public and private space, and may be achieved by providing adequate space, and/or through screening with landscape planting or fences.
9. **Safety and Environment.** Design of public access should be consistent with public safety and preservation/conservation of the natural amenities. Where public access is determined to be incompatible due to reasons of safety, security, or impact to the shoreline, the proponent should consider alternate methods of providing public access, such as offsite improvements, viewing platforms, separation of uses through site planning and design and restricting hours of public access. Off-site public access improvements may be allowed if such improvements would provide a greater public benefit and reduce safety and environmental impacts.
10. **Visual access.** Views to shorelines contribute to the Chelan County quality of life, tourism economy, and property values. Flexible development standards, such as height, bulk, scale, setbacks, lighting, and view corridors, should be established to assure preservation of unique, fragile, and scenic elements and to protect existing views from public property or large numbers of residences.
11. **Roads, streets, and alleys abutting bodies of water.** Roads, streets, and alleys abutting bodies of water should be preserved, maintained, consolidated enhanced, and/or created for public access. Vacations of roads, streets, and alleys should be discouraged and only allowed in strict compliance with RCW 35.79.035 (Streets and Alleys) or RCW 36.87.130 (County Roads).
12. **Fishing easements.** In consultation with the Washington State Department of Fish and Wildlife, Chelan County should review fishing easements on the Wenatchee River, Entiat

River, and other shoreline water bodies.⁵ Chelan County should work in partnership with the Washington State Department of Fish and Wildlife, Chelan County Public Utility District, County, Cities, land trusts, and others to improve public access to the fishing easements. Actions may include improving access on unused sites, consolidating access points for maintenance purposes, or land surplus, exchanges or purchases, etc.

b. Public Access Implementation Strategies

The County will implement its shoreline public access plan through implementation of adopted parks and recreation plans and the County budget as well as application of standards. The County may also revisit its shoreline public access plan during periodic reviews of the SMP, anticipated every seven years. (RCW 90.58.080)

Current facilities and planned facilities in adopted plans prepared by the County, City, PUD, and state and federal agencies allow Chelan County to more than meet the regional shoreline public access standards. At a local level, most of the County meets parks and trails public access standards, though there are a few gaps. The sections below provide a tracking matrix to ensure planned facilities are implemented and to provide additional planned facilities in gap areas.

Adopted Plans

Table 10 identifies proposals included in adopted County, City, PUD, and state and federal agency parks and recreation plans that are considered to contribute to the County’s regional and local shoreline public access standards. Proposals are listed by CCD [County Census District]. A description, implementing agency, and timeframes are provided.

Table 10. Shoreline Public Access Projects Implementation Matrix – Adopted Plans

CCD	Planned Shoreline Public Access	Agency and Source	Type of Proposal	Timeframe
Chelan	Beebe Springs Natural Area Development- Phase 3: habitat restoration, trails, boat launch, view platforms and other improvements	State of Washington Department of Fish and Wildlife	Development, Restoration	2010-2011
Chelan	Northshore Pathway	City of Chelan, Northshore Pathway. April 5, 2000	Acquisition, Development	Pending approval

⁵ Wenatchee Watershed Vision Report, page 49: In the 1960 and 70’s, Chelan County Public Utilities District purchased a number of fishing access easements along the Wenatchee River as part of its mitigation efforts for the Rocky Reach Dam on the Columbia River. The easements, now owned by Washington Department of Fish and Wildlife, were once mapped (and some marked) in the 1970’s, but many have since fallen out of public knowledge.

CCD	Planned Shoreline Public Access	Agency and Source	Type of Proposal	Timeframe
Chelan	Lakeside Trail	City of Chelan, Lakeside Trail Feasibility Study, Adopted 2000	Acquisition, Development	2008-2014
Chelan	Riverwalk Park and Trail	City of Chelan, Park & Recreation Comprehensive Plan 2008-2014	Acquisition, Development	2008-2014

Wenatchee	Design, Acquire & Develop Neighborhood Park	City of Wenatchee Parks, Recreation & Open Space Plan, 2006	Acquisition, Development	2006-2012
Wenatchee	Acquire New Community Park/Athletic Fields	City of Wenatchee Parks, Recreation & Open Space Plan, 2006	Acquisition, Development	2006-2012

Public Access Projects & Funding – Gap Areas

Within gap areas, conceptual proposals have been developed to address shoreline public access. As the proposals have not been sited on a particular property yet, cost estimate ranges represent what a type of facility might cost on a site where development of the desired facility was feasible ranging from easy access on gentle slopes to more difficult access on steeper slopes. All the estimates include some site restoration, mitigation plantings along with design and construction engineering, permitting assistance and Washington State sales tax. All proposals assume location on public property. If private acquisition is needed, those costs would be in addition to the cost ranges below.

Table 11. Shoreline Public Access – Gap Area Projects and Funding

CCD	Project Description	Responsibility	Planning Level Cost Estimate
Chelan	Dietrich Road fishing pier with ADA access, vault restroom, small parking area	City of Chelan Potential partners, Chelan County and other special district or state agencies	\$91,000 to \$153,000
Leavenworth-Lake Wenatchee	Public park & boat launch on north shore	Chelan County Potential partners, other special district	\$300,000 to \$603,000

CCD	Project Description	Responsibility	Planning Level Cost Estimate
		or state agencies	
Wenatchee/Entiat	Columbia River Between Rocky Reach & Entiat: water trail for kayaks on Columbia River	Chelan County Potential partners, other special district or state agencies	\$63,000 to \$147,000
Malaga	Park with boating facilities, trail, and fishing	Chelan County Potential partners, other special district or state agencies	asphalt trail: \$107,000 to \$207,000 accessible fishing access: \$91,000 to \$153,000 small trailer boat launch: \$300,000 to \$603,000 Total: \$498,000 to \$963,000

Source: Project Groundwork

Funding for the proposals could include a variety of sources, such as:

- Local Funds
- General obligation bonds
- Donations, bequests, gifts
- Revenue bonds
- Matching grant
- Land and Water Conservation Fund
- National Audubon Society Together Green Innovation Grant
- NOAA/American Rivers Habitat Restoration partnership
- Partner with a local teacher and the National Environmental Education Foundation for outdoor education grants
- Recreation and Conservation Funding Board

Tracking of Public Access Established vs. Subdivisions & Developments Approved

Of the above established pending projects and public access determined to be missing in gap areas, it is recommended that Chelan County maintain tracking matrices including those tracking public access projects as well as major developments. Tracking Tables A and B provide a template for the tracking process.

The following projects have been completed on schedule/timeframe established or as part of a development project since the approval of the Shoreline Master Program in 2011:

Tracking Table A. Completion of Pending Projects and Gap Area Projects

CCD	Project Description	Responsibility	When Completed

The following subdivisions of 4 or more parcels; planned unit developments; Master Planned Resorts; Commercial and Industrial shoreline developments were approved since the approval of the Shoreline Master Program in 2011:

Tracking Table B. Shoreline Development and Public Access

CCD	Applicant	Project Description (acres, units, parcels)	Public Access required? Description	When Approved?	Project Developed?

c. Policies and Standards

The development of shoreline public access in terms of uses, projects, and design standards shall be consistent with the Chelan County Comprehensive Parks and Recreation Plan, 2007 and this Shoreline Public Access Plan.

The County shall apply its adopted policies to developments proposed in shoreline jurisdiction. Section 8a above lists key policies which are also included in the draft Shoreline Master Program.

The County shall apply its code to address parks and recreation, including but not limited to the following:

- Chapter 13.04 State Environmental Policy Act
- Title 15 Development Standards, Article IV. Pedestrian Facilities, Walkways and Trails

Public access standards, including an incentive program to complete public access in the gap areas in particular as well as encourage public access elsewhere, are provided in the draft Shoreline Master Program.

9. Supporting Maps

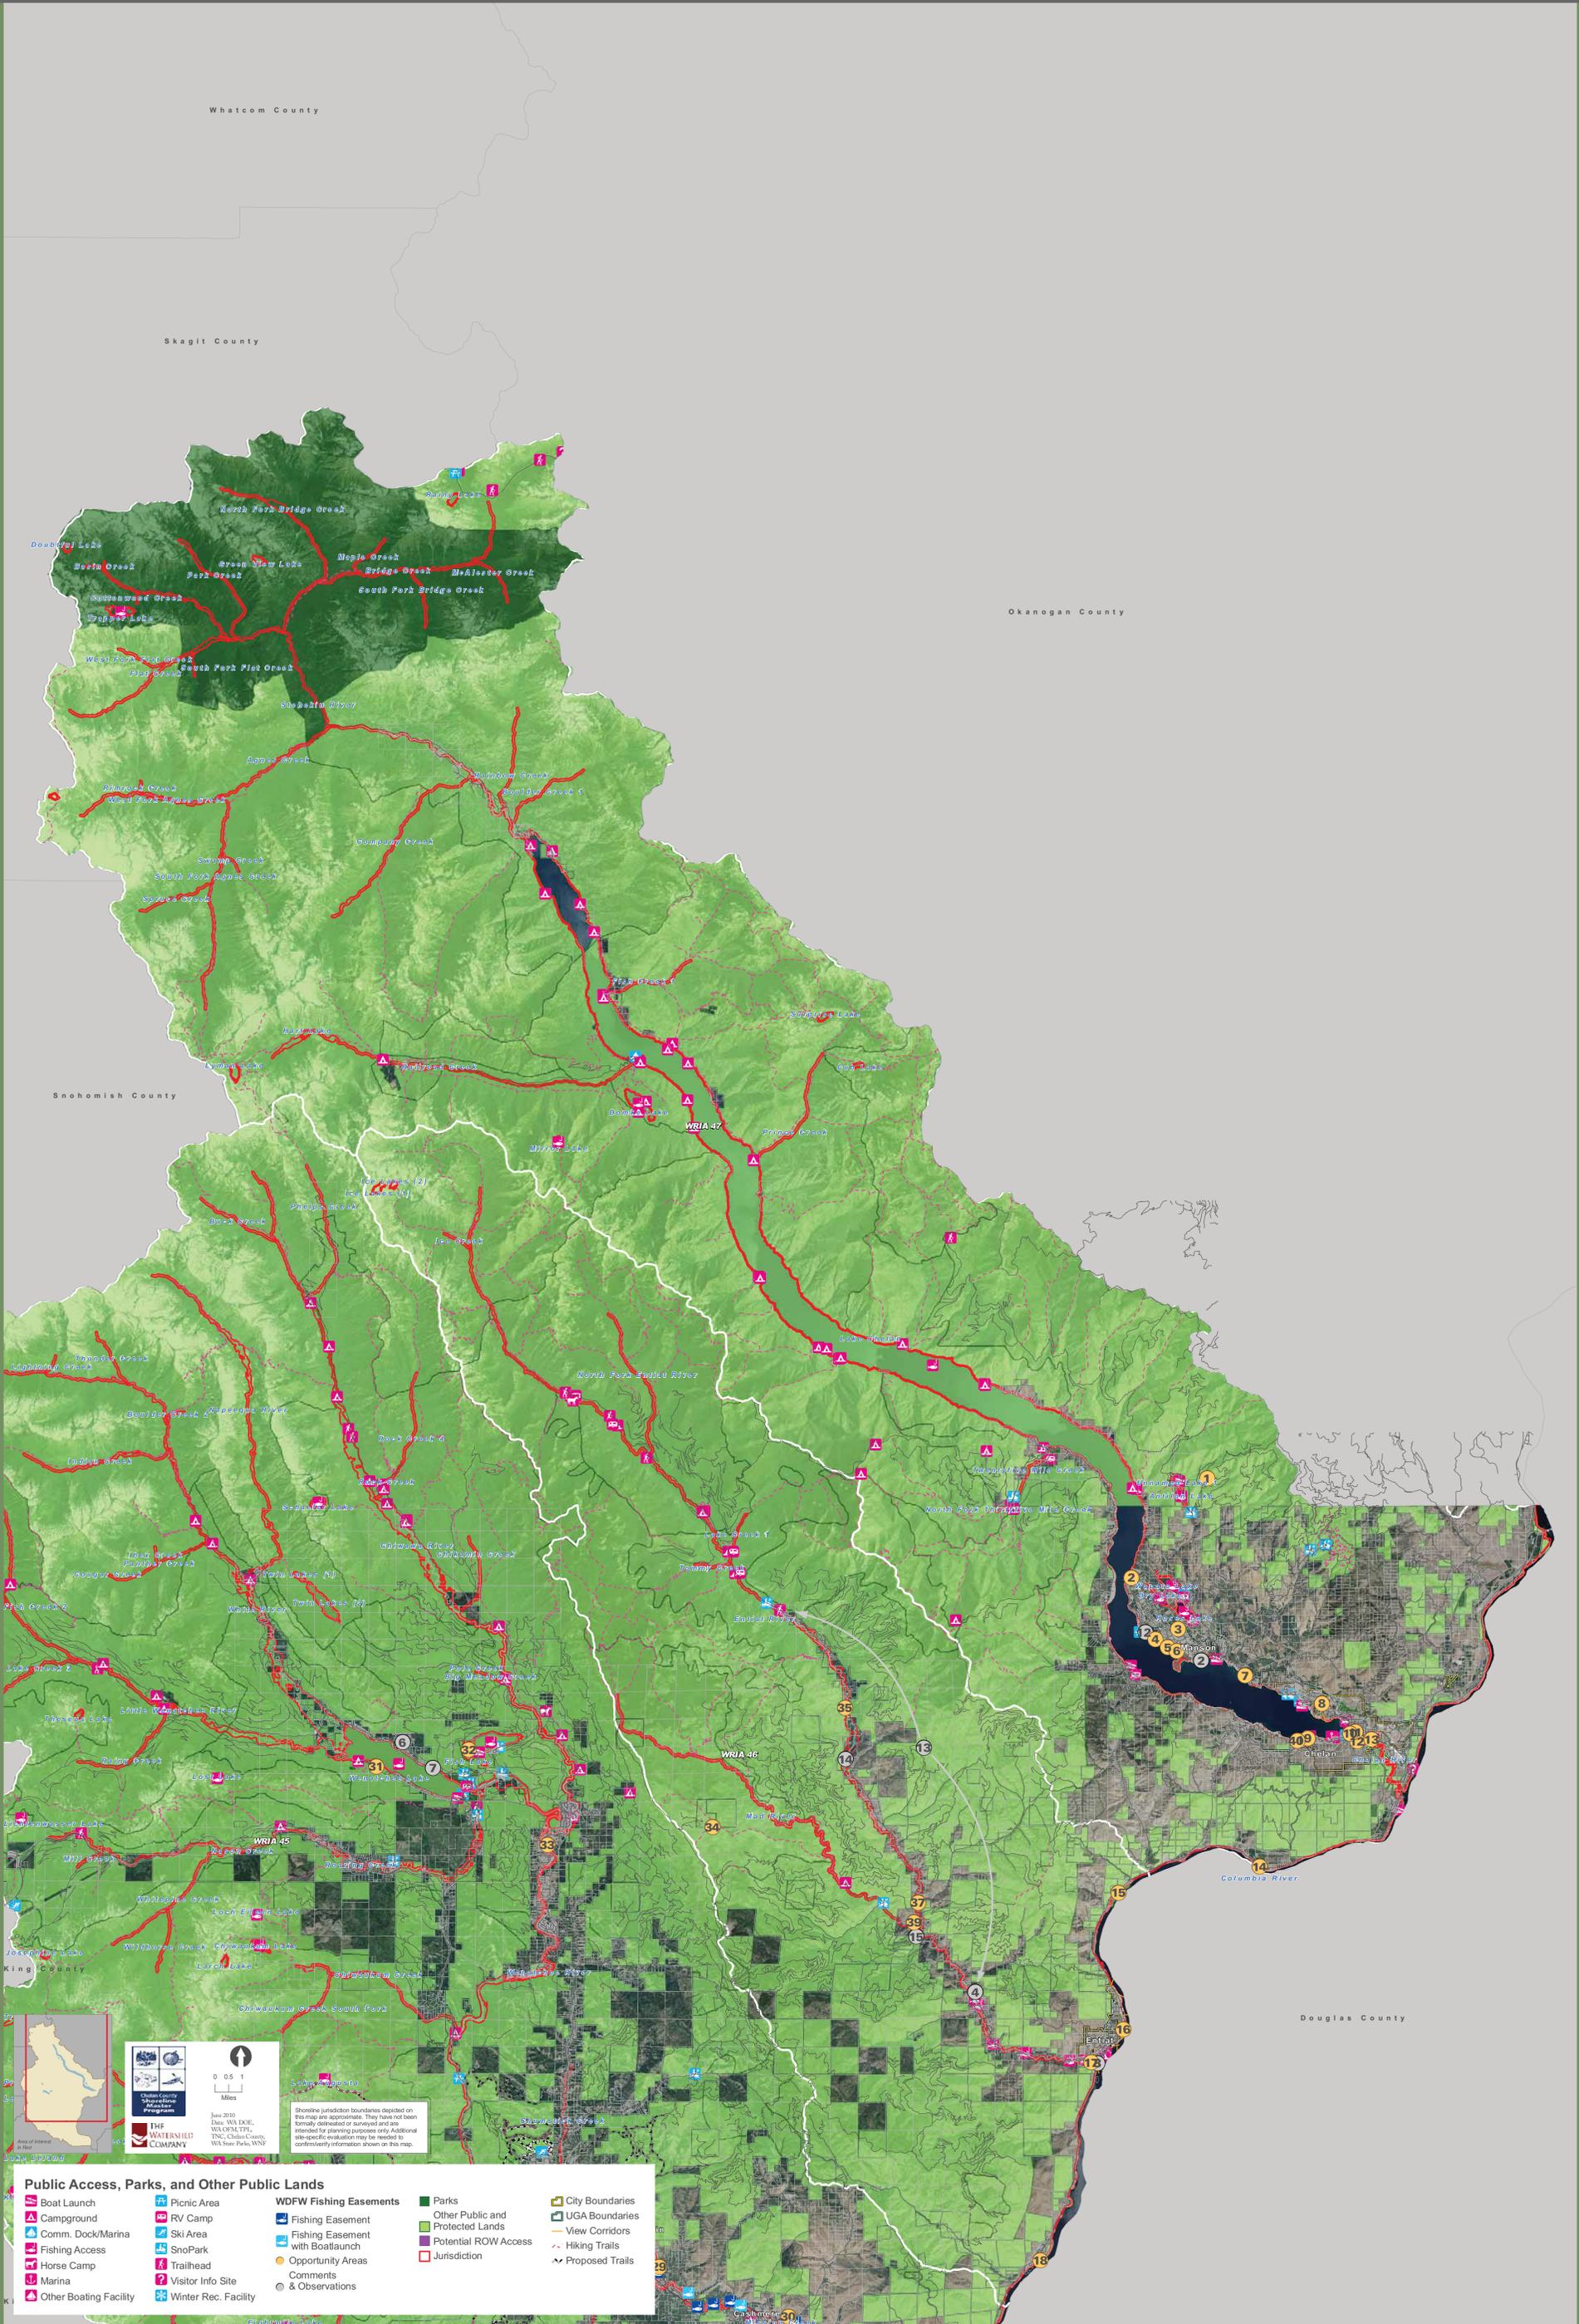

The following attached maps are provided for reference and in support of the shoreline public access plan:

- Public Access inventory maps, WRIA scale with Opportunities, June 2010
- Public Access inventory maps, 48000 scale, July 2010
- Public Access analysis maps, June 2010

Opportunity and Observation Table

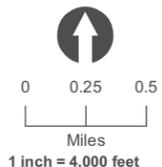

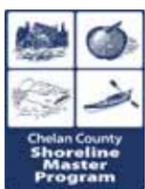

Number	Comment	Opportunities or Observations	Location
1	Boat launch access, electric motors ok	Opportunity	Chelan Watershed
1	Retain views; too many new trees planted (26); why?	Observation	City of Chelan
2	None	Opportunity	Chelan Watershed
2	Only 10' wide	Observation	Manson UGA
3	None	Opportunity	Manson UGA
3	City is working w/County. No motorized watercraft signs on bridge	Observation	City of Entiat
4	If compensated, there is area for parking	Opportunity	Manson UGA
4	Existing trail at fish hatchery	Observation	Entiat Watershed & Columbia River
5	BoR Pumping area	Opportunity	Manson UGA
5	Railroad crosses the river	Observation	Stemilt-Squilchuck Watershed
6	Road end Harris	Opportunity	Manson UGA
6	ROWs missed	Observation	Upper Wenatchee Watershed
7	BoR prop- ramps, trails, fishing access (parking limited), Irr. Pump on site	Opportunity	Chelan Watershed
7	Questionnaire comments indicated that the potential ROW access on the north side of the lake was private community access. Upon further review with County public works, there are dedicated ROWs made during plat approval.	Observation	Upper Wenatchee Watershed
8	Consider Northshore Pathway Plan	Opportunity	City of Chelan
8	Need signage for boat launch	Observation	City of Leavenworth
9	Lakeside short-term parking for unloading/loading boats & picnicking supplies; Needs more public parking. Geese an issue.	Opportunity	City of Chelan
10	None	Opportunity	City of Chelan
11	Downtown Plan Public Dock	Opportunity	City of Chelan
11	These are currently not accessible; Kiwanis Park; Lynn Street easement for access; Port of Chelan owns Peshastin & PRSA working for access & park	Observation	Peshastin UGA
12	Parking for boat launch at h.s.	Opportunity	City of Chelan
12	Parking prob.	Observation	Manson UGA
13	PUD Reach 1 Trail Chelan River Access	Opportunity	City of Chelan
13	Need public access; raft, trail, fish	Observation	Entiat Watershed & Columbia River
14	None	Opportunity	Entiat Watershed & Columbia River
14	BLM property, can walk to river	Observation	Entiat Watershed & Columbia River
15	None	Opportunity	Entiat Watershed & Columbia River
15	BLM property, can walk to river	Observation	Entiat Watershed & Columbia River
16	All waterfront Master Area Plan future	Opportunity	City of Entiat
17	Future planned	Opportunity	City of Entiat

18	PUD property- may be available for purchase for park/boat launch	Opportunity	Entiat Watershed & Columbia River
19	Public Access	Opportunity	City of Wenatchee
20	Check for ownership- potential access/restoration site	Opportunity	City of Wenatchee; Stemilt-Squilchuck Watershed
21	Potential access/restoration site	Opportunity	City of Wenatchee; Stemilt-Squilchuck Watershed
22	Interp. Trail at wetland?	Opportunity	Stemilt-Squilchuck Watershed
23	Alcoa property- shoreline possibility	Opportunity	Stemilt-Squilchuck Watershed
24	PUD property	Opportunity	Stemilt-Squilchuck Watershed
25	None	Opportunity	City of Leavenworth
26	Peshastin Mill Flats	Opportunity	Peshastin UGA
27	None	Opportunity	Peshastin UGA
28	None	Opportunity	Peshastin UGA
29	Dryden Peshastin Dam need put-in & take out	Opportunity	Peshastin UGA
30	Opp. For developed access-Park on s. side River walk across	Opportunity	City of Cashmere
31	Road connection around lake	Opportunity	Upper Wenatchee Watershed
32	Need public access, boating access	Opportunity	Upper Wenatchee Watershed
33	None	Opportunity	Upper Wenatchee Watershed
34	Need bridge	Opportunity	Entiat Watershed & Columbia River
35	None	Opportunity	Entiat Watershed & Columbia River
37	None	Opportunity	Entiat Watershed & Columbia River
39	Old mill site/County fire station property	Opportunity	Entiat Watershed & Columbia River
40	PUD ownership; public designation in Comprehensive Plan	Opportunity	City of Chelan
