

- Recommendations from Wenatchee Biological Strategy:
- 1) Protect remaining floodplain and riparian habitat downstream of Chatter Creek. Emphasis should be placed on habitat downstream of Leavenworth Hatchery.
 - 2) Rectify human-made passage barriers.
 - 3) Restore flow conditions on Icicle Creek downstream of Rat Creek.
 - 4) Investigate the role of surface and well water withdrawals on instream flows and habitat use.
 - 5) Develop strategies with water users to reduce effects, if any.
 - 6) Initiate public information efforts to discourage harassment of spawning salmonids.
 - 7) Manage recreation areas to reduce impacts to riparian cover.
