- × Barrier

**Habitat Projects**

- Chelan County Conservation District Projects
- Completed or Ongoing Projects
- Proposed Projects

\*\*\*\*Barrier coverage provided by Chelan County does not include Forest Service Land and has not been QA'd.

Recommendations from Wenatchee Biological Strategy:

- 1) Protect remaining floodplain and riparian habitat, particularly around Chikamin Flats.
- 2) Investigate the role of surface and well water withdrawals on instream flows and habitat use. Develop strategies with water users to reduce effects, if any.
- 3) Initiate public information efforts to discourage harassment of spawning spring chinook salmon and bull trout.
- 4) Manage recreation areas to reduce or avoid impacts to riparian habitats.
