

# Is a Water Mitigation Certificate Needed for your property?

**Are you applying for a residential building permit for a new dwelling or an after-the-fact permit?**

(ie. SFR, ADU, Manufactured, Mobile Home)

If you are replacing a dwelling or the permit is for a re-build, you **DO NOT** need water mitigation (ie. fire-rebuild)

yes?

no?

**Is your parcel located in the Wenatchee, Entiat, or Lake Chelan basin?**

See map

no?

**No Mitigation Certificate Needed**

yes?

## What is your water source?

**A: Will you connect to a public water system?**

(ie. water district, municipal water supply)

yes?

**No Mitigation Certificate Needed**

Please provide a letter of availability from your water purveyor

no?

**B: Will you use a groundwater well?**

Single, private or shared well?

yes?

**Water Mitigation Certificate is Needed**

no?

Submit Water Mitigation Application and fees to Community Development

**C: Will you use a Lake Chelan surface water diversion?**

(ie. do you pump water directly from the lake?)

yes?

For more information about surface water diversions please contact the Chelan County Natural Resource Department

*If your situation does not apply to any of the above, please reach out to Chelan County Natural Resources for guidance on how to proceed*
