Re: **SD2033 Burch Mountain Road Storm Drain Condition Assessment
Response to Questions**

Q #1: I'm working on the Burch Mountain Road Storm Drain Condition Assessment SOQ. The RFQ states that the document font must be Times New Roman 12 pt font. Is it acceptable to use a larger size font than 12pt for headings, etc., as long as the main body text is at 12 pt?

A #1: Yes, this is acceptable.
