### APPENDIX A - Submittal Information Packet Form

### APPENDIX B – Project Location

## 1.0 GENERAL INFORMATION

### 1.1 INTRODUCTION

The Chelan County Surface and Stormwater Management Utility in cooperation with the Public Works Department solicits interest from consulting firms who wish to be evaluated and considered for providing an engineering assessment of an existing stormwater conveyance system under Burch Mountain Road in Sunnyslope, WA. The engineering assessment aims to identify and quantify any necessary repair/remediation actions to the existing pipe.

Consultants must demonstrate professional capability to perform the tasks assigned, and at a minimum, must have professional and business licenses required by the State of Washington and a demonstrable expertise in the disciplines necessary to accomplish the services.

The project must comply with all Federal EEO requirements, ADA, and Civil Rights regulations and requirements applicable to the County. Consultant services will be completed in accordance with Federal and State Law. No (0%) mandatory Disadvantaged Business Enterprises (DBE) goal has been assigned for this project.

### 1.2 PROJECT DESCRIPTION

Chelan County (“County”) is requesting proposals from qualified firms to provide a condition assessment of approximately 3,900 linear feet of 18-inch diameter corrugated metal pipe under Burch Mountain Road (MP 0.00 to MP 0.74) to determine and prioritize capital improvement needs. The County’s Burch Mountain Road storm infrastructure is aging and numerous recent costly pipe failures related to corrosion have accelerated the need for this project to help assess and budget the County’s financial liability. The result of this project will help the County identify problematic areas of the Burch Mountain Road storm drain system, verify capacity requirements, provide alternatives of replacement/repair, and create a prioritized capital improvement program for the main line (laterals and catch basins are not included in this effort).

### 1.3 PROJECT SCOPE

This project will be divided into the following phases.

#### **Project Preparation and Records Review**

The consultant shall review all pertinent records pertaining to the storm drain system. This includes the county’s stormwater comprehensive plan, applicable GIS layers, as-builts, and other necessary records.

#### **Prepare Field Inspection Plan**

Upon review of the records, the consultant will prepare a field inspection plan (FIP). This plan will include a strategy to collect data and video of the Burch Mountain Road main stormwater pipe. The plan will identify pipe sections that may have the greatest

risk of structural deficiencies. The FIP will include a method to catalog and standardized rating criteria for the length of the pipe. The consultant and, if necessary, subconsultant, is responsible for using appropriate equipment to obtain all data to document and assess storm drainage infrastructure condition.

### **Draft and Final Report**

The consultant shall prepare a draft and final report of the findings as a result of the implemented FIP. The report shall be in the format of a technical memorandum. The report shall include:

- Background of the inspection and methods
- Rating system for deficiencies
- A narrative of the types and characteristics of defects found
- Recommendations for methods and prioritizing pipe and structure rehabilitation and/or replacement
- Tabular list of all pipe segments and storm drain structures reviewed in the FIP. List shall include condition rating, defects, rehabilitation and/or replacement recommendations, corrosion resistance, life expectancy, hydraulic capacity, and estimated cost.

The County anticipates the project to be complete by the end of 2026.

### 4.2 EVALUATION FACTORS

Numerical scores will be assigned by a Chelan County Evaluation Committee to the evaluation categories shown in Table 4.1.

If a Proposer receives a passing score on all pass/fail evaluation factors, its SOQ will be further evaluated using the scoring criteria. If a Proposer fails on any single pass/fail requirement, the SOQ may be rated as unacceptable, in which case the evaluation factors will not be scored, and the Proposer will not be included on the short-list.
