

CRP 681: Countywide Preservation Project

Various Locations throughout County

Last Updated: February 10, 2015

County Crew Chipsealing

Project Number: County Road Project 681

Project Length: Varies

Basis for Project: Pavement Preservation

Construction: Summer 2015

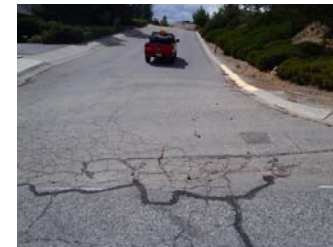

Project Description: The primary purpose of this project will prevent future deterioration of the existing roadways within Chelan County. The roads identified as being due for chip seal over the next 3 years (2013-2015) in the Wenatchee, Chelan, Cashmere, and Leavenworth Maintenance Districts are included in this project. The primary preservation technique will consist of an asphalt rubber chip seal with localized spot repairs.

Status: Project was awarded to the low bidder Intermountain Slurry & Seal. Work is scheduled to begin April 2015.

Travel Impacts: When work commences, travelers can expect flagger-controlled traffic at work zones.

Funding Sources:

Distressed County Fund	\$2,000,000
County Road Fund	\$2,000,000
Chelan County Loan	\$3,000,000
TOTAL:	\$7,000,000

(Left) Pavement deterioration on Heather Lane to be repaired

(Left) Pavement deterioration on Pedoi Street to be repaired.
